REVIEW OF THE MARKET FOR THE PRECEDING FORTNIGHT.

SAN FRANCISCO, Friday Evening, April 2, 1853.

We have to record an utter want of animation in nearly every department of trade since the departure of last mail. The country has bought sparingly of goods—scarcely more in any particular than would suffice to meet the current consumption—and our jobbers have manifested extreme caution in adding to their stocks. Previous quotations have been maintained only with respect to articles in exceedingly light supply, and which are kept thoroughly controlled, while for some staples—as Coal and Breadstuffs—which had been thought intrinsically strong, a decline of a marked character has taken place within the past fortnight. The moderate aggregate of goods sold from first hands has been taken mostly by the trade, no inclination towards speculation having been exhibited, nor can we anticipate that there will be a wide price generally remain at the present points.

Within a few days past heavy rains—welcome alike to the miner and farmer—have fallen all over the State, ensuring us an increased product of gold and an abundant, if not unprecedented, harvest.

The Tonnage entering this port the first quarter of the present year, as compared with 1852, was as follows:

	No. Vessels.	Tons.
First Quarter 1853.....	329	107,262
First Quarter 1852.....	313	87,094
Decrease this Year.....	16	20,168

The falling off in the tonnage from home Atlantic ports is large, the arrivals thence this year being 16 vessels of 18,234 tons against 30 vessels of 36,617 tons in 1852. From Foreign Ports the arrivals this year were 53 vessels of 31,746 tons against 68 of 41,926 tons in 1852. The tonnage entering from Coast Domestic Ports was 37,114 tons against 28,861 tons last year. The increase in the tonnage Coastwise has a ready explanation in the fact that more steamers have been engaged in the trade this year than were last; that most of the steamers have been in regular commission for some months past, may be esteemed a pretty decided proof that our coastwise trade is on the increase. It is useless at this time to go into a detailed comparison of the arrivals from, and clearances for different foreign countries this year and last, as the movement of a single quarter can afford little idea of what are likely to be the totals of the year.

The arrivals since our last review was written, have been the Viking from New York; the Fleetwing and Vitula from Boston with assorted cargoes; the George Krell with Coal, and the Ellenita, with Lumber from Vancouver Island, the Nahemhoff, from Sitka with Ice; the Sea Bird from Sydney with Sheep; the Genova from Mazatlan with Specie and Corn and the Eliza from Tahiti with Oranges.

By the New York and Boston vessels which came in, were received several invoices of Meat Provisions and Lard, which had been sold prior to arrival. The market for those goods continues very firm, but with an increasing supply of California-made Eastern Butter is lower.

BOOTS AND SHOES—Imports from December 27th to March 28th, 14,282 cases.

There is no material change to note in the market since last report. An assorted invoice of light and heavy Boots, Congress Gaiters, Brogans, etc., cannot be placed at better than prime Eastern cost to 10 per cent. off.

The following prices were realized at the last auction sale for a line of 150 cases:

Men's sewed calf pump sole fancy slanks short toes Boots, \$4 75;
Do do do soles and tops do, \$2 17 1/2 @ \$1 95;
Do do half welt do do, \$1 95 @ \$1 35;
Do do cork sole do do, \$3 37 1/2 @ \$4;
Do do half double sole do do, \$2 20 @ \$4;
Do do grain double sole do do, \$2 50 @ \$2 95;
Do do kip do do, \$2 @ \$2 62 1/2;
Do do Fremont Hungarian nail sole extra top do, \$2 12 1/2 @ \$3 80;
Boys' sewed calf half welt fancy soles and tops Boots, \$1 05 @ \$1 50;
Do do pump sole do do, \$1 37 1/2 @ \$1 65;
Do do kip double sole do do, \$1 15 @ \$1;
Do do calf half double sole do do, \$1 40;
Men's calf half welt Brogans fancy soles, \$1 20 @ \$1 40;
Youths' do do do, 62 c;
Men's calf pump sole do do, \$1 15 @ \$1 37 1/2;
Youths' do do do, 50 c;
Men's enameled pump sole Brogans, 70 @ 60 c;
Do do kip double sole do do, \$1 @ \$1 15;
Do do half double sole do do, \$1;
Do do tipped buckskin do do, 62 c @ 75 c;
Do do leather half welt Congress Gaiters, \$1 62 1/2 @ \$2;
Do do do cork soles, \$2;
Do do patent leather pump sole Congress Gaiters, \$1 70 @ \$1 75;
Do do enameled leather foxed pump sole do, \$1 50 @ \$1 65;
Boys' patent foxed pump sole do, \$1 25;
Children's enameled leather spring heel Booties, 40 c;
Women's calf headed lace do, 80 @ 87 1/2 c.

BREAD—The bakers during the past fortnight having been enabled to get Flour upon more reasonable terms there has been a reduction in the prices for Bread; we note sales of 25,000 lb Flour at 9 1/2 @ 9 3/4 c, and 11,000 lbs Navy at 7 c; assorted Cakes and Crackers at 12 @ 15 c.

BEANS—There have been sales at auction of Old Eastern, but in fair condition, amounting to 424 bbls, at \$1 10 @ \$1 12 1/2, and 400 half do at \$1 50 @ \$1 100 lbs. For transactions in Domestic see Produce Market Review. Immediately at the close 3,000 bags old Chile Bayos, in good condition, sold at \$1 15 @ \$1 17 1/2 c.

CORDAGE—Imports from December 27th to March 28th, 56 bales, 2,144 coils and 770 packages.

We are cognizant of no sales of imported parcels; the market is very dull. The agents of the Cordage Manufacturing Company here have jobbed during the fortnight about 15,000 lbs, at 12 c for large and 13 1/2 c for small sizes. For large sizes the demand just now is very light.

CLOTHING—The stock of a leading importer was closed out at auction within the fortnight, and all descriptions realized losing prices. Ordinary grades Cassimere and Wool Hats, mostly high crowned, netted 20 per cent loss. Clothing suited to the spring trade is selling for about New York cost.

CEMENT—Imports from December 27th to March 28th, 1,350 bbls.

The demand for Government purposes has caused Rosendale to

advance, although there is still a large stock of Old here. We understand that several of the parcels on the way have been bought for the Government. Old Rosendale from store, in fair condition, is selling in small lots at \$4 50, but that figure could not be realized for a round parcel. The last sale of any magnitude was made at under \$4.

CIGARS—Imports from December 27th to March 28th, 1,151 cases.

There have been sales of about 1,000,000 Havana direct importation at prices upon the average but covering cost and charges. The demand lately has been slack, and has caused stocks to accumulate in the hands of the regular importers. Imitations are very dull; a line of 500 M American, very desirable, was offered at auction early in the fortnight, of which one-half sold at \$20 50 @ \$23—about 25 per cent below cost and charges.

CANNED—Imports from December 27th to March 28th, 5,005 whole and 33,234 half boxes.

The transactions in Adamantines have been moderate, both the auction and private sales not adding up more than 5,000 packages. The considerable importations which reached us towards the close of last fortnight were mostly taken ex ship by the jobbers soon after arrival. Buyers this fortnight have therefore been obliged, in a few instances, to take small parcels from store, and pay a slight advance upon our last quotations; it has been conceded, however, with great reluctance, and the extent of sales effected shows that there is no vigor or tone to the market. So little has been done towards the close, that we find it difficult to adduce transactions which will give an idea of the market. A small lot of Phoenix extra sold on Tuesday at 19c cash; "Chemical Sperm" 24 c, usual time, and at auction \$23 65 cash; 25 boxes Patent Sperm 57 1/2 c. About 1,000 boxes very inferior Adamantines (at public and private sale) were closed at 12 1/2 @ 13 c.

COAL—Imports from December 27th to March 28th, 2,917 tons Anthracite, 588 casks Cumberland, 3,315 tons English, 1,511 tons Chile, 1,550 tons Oregon, and 1,755 tons Vancouver Island.

The market for Soft coal has a dropping tendency through the entire fortnight, and advances brought by the mail steamer at hand towards the close, of the discontinuance of the Opposition line via Panama, have materially weakened the previously firm feeling among holders of Anthracite. We reduce our wholesale quotations for all descriptions except Cumberland, the small stock of which is completely controlled. The sales since last report have been 5,560 tons Vancouver Island, ex George Krell, at \$11 75; 100 do West Hardley, ex Casar, on private terms; 60 do, ex same do, same do, (at auction, at \$12; 600 do Anthracite in two lots, from yard, on private terms; 141 casks Cumberland, per Vitula, prior to arrival, also on private terms.

COFFEES—Imports from December 27th to March 28th, 1,004,985 lbs.

The market remained exceedingly inactive until a few days before the arrival of the mail, when sales were made of 200 bags Rio at 14c; 60,000 lbs Manila at 15 1/2 c; and 200 bags Costa Rica at 16 1/2 c; since which nothing has been done. The stock of all kinds, as we write, does not vary materially from 1,500,000 lbs, to which we have reason to believe that additional quantities will be made about May 1st by the arrival of the J. B. Lancaster with a cargo from Rio Janeiro.

DRY GOODS—Imports from December 27th to March 28th, 3,139 bales, and 5,933 boxes and cases.

In Brown Sheetings and Drills we are cognizant of no sales of round parcels having been made this last fortnight; the jobbers are selling standard goods at 10 1/4 @ 10 1/2 c. Some Prints have come to hand, but are unsold. Cotton Duck remains extremely dull, 1,000 yds sold at 25 c, and 120 bolts Dundee Canvas, Nos. 1 to 5, on private terms.

FRUITS, PRESERVES, SAUCES, etc.—Imports from December 27th to March 28th, 663 bbls Eastern Dried Apples; 2,049 packages Oregon Apples; 458 casks and barrels, 74 cases and 1,900 bags Nuts; 41 kegs and 11,061 boxes Raisins; other kinds, 63 hlds and casks, 85 barrels, 400 kegs and 7,974 boxes and cases.

The trade have bought moderately of general descriptions at about previous quotations. Some few kinds of fresh fruits in tin, of which the market chances to be low, are realizing fair prices. Raisins have sold at a decline from last fortnight's prices. Some large parcels of Oysters in tin were placed by auction at very low figures. We note sales of 175 half bbls Dried Apples (crop of '53), in lots from second hands, at 16c; 300 do do do (crop of '52), in lots from first and second hands at 16 1/2 @ 17c; 310 boxes Chile Peaches, in lots, at 20c; 300 boxes Chile Walnuts on private terms; 2,450 boxes Laver Raisins (by auction and private sale) at \$3 60 @ \$3 75; 574 do Bunch do (at auction) at \$2 75; last sales new crop Lavers, in small lots to the trade, at \$3 75; 500 cases Lewis's Pie Fruits assorted at \$3 87 1/2; 100 do Apple do (not choice, at auction) at \$2; 100 dozen Fresh Peaches, 2 lb tins, at \$8 75; 80 do do Strawberries, at \$6; 50 do Jams assorted, on private terms; 90 do Green Corn, 2 lb tins, at \$4; 80 do Green Peas, do, at \$5 50; 35 cases Honey, do, and 250 do Brim's Oysters, on private terms; 300 cases Pepper Sauce, rothle pints, at \$1 75; and 2,500 dozen Reeves & Brennan's Oysters, 2 lb tins, at \$4 12 1/2 @ \$3 37 1/2 cash P^o dozen.

At the close we have sales of 100 cs Fresh Tomatoes, 2 lb tins, at \$2 25, and 320 do Jams, Jellies, Tomato Catsup and Lobsters, on private terms.

FISH—Imports from December 27th to March 28th 539 drums and 20 casks Cod; 274 hbls and 1588 kits Mackerel.

New No. 1 Mackerel have been in moderate request at previous figures; we note sales of 150 hb bbls at \$10; 50 qr do at \$5 25, and 450 kits at \$3 37 1/2 @ \$3 50—mostly at the former figure. In Dry Cod there has been little done; 20 drums sold at 8c—an extreme figure, which could not be realized for a considerable parcel.

At the close there was a sale of 100 drums Codfish, ex Fleetwing, on private terms.

FRENCH CIGARS—Imports from Dec 27th to March 28th, 585 cs Sardines; 120 cs Olive Oil, and 492 cs Absynthe.

The market is without the least alteration for any description of goods; the only transactions were the following, made at auction a few days since on 60 days time:—

SARDINES—27 cs 100 hb bbs each at \$3 12 1/2.
OLIVE—525 cs Bordeaux Olive at \$4 26 @ \$4 10.
ABSINTHE—66 cs Nally at \$8 25 @ \$1 75.
VINEGAR—15 bbls Wine at 57 1/2 c.
75 c all demijohns do at 67 1/2 c.

COOKS—260,000 Bottle at \$2 25.
50,000 do, fine, at \$3.
1,000 Soda Water Bottles at \$3 62 1/2.

Some parcels of Red Wine were disposed of at the same time, which will be found reported under the head of Wines.

GLASSWARE—Sale at auction of 500 doz Soda Water Bottles at 5c P^o doz.

HOPS—Imports from Dec 27th to March 28th 244 bales and 46 cases.

For strictly first sorts of last year's crop the market is tolerably firm, but not active; single bales sell to Brewers at 30c. For 5 or 10 bales we should quote 25 @ 27 1/2 c. Second sorts are quite unsaleable.

HARDWARE—Sales have been unimportant, comprising merely 30 cs Hunt's Handled Axes at \$16 75; 50 do Collins' do

REVIEW OF THE MARKET

FOR THE PRECEDING FORTNIGHT

SAN FRANCISCO, Monday Evening, May 3d.

The Importations since last mail from home Atlantic as well as Foreign ports have been heavy, and in some instances have had a depressing effect upon prices. Two fine ships—the Twilight and Andrew Jackson—made rapid passages from New York, bringing into the market very large assorted cargoes nearly a fortnight earlier than had been reckoned upon, which, of course, operated unfavorably.

Boots and Shoes remain without much change; there is perhaps an improved feeling for some especially desirable styles, but on the other hand, a stock is accumulating of goods unsuited to this market. Candles are again weaker under large receipts, and realizing exactly New York quotations. Coal has further declined, and closes very heavy. A large cargo of Coffee came in from Rio, and the market, which before was quite nominal and inactive, is now perfectly stagnant for that description: East India and Costa Rica being in light stock, are comparatively firm. Corlidge has materially improved, with considerable sales both here and to arrive. The stock of Eastern Cement has been concentrated, and is now held for advanced rates. Brown Cottons are firm and in active demand; the receipts lately have come to parties in the regular trade. Preserved Fruits in tin and glass, Jams, Jellies, etc., have been in fair request at rates paying a moderate advance; Nuts (except Chile Walnuts) scarce and high; most kinds of Dried Fruits dull, and for Apples a marked decline is to be noted. Oysters still low and the stock in excess. Fish (Cod and Mackerel) are a little lower. Gunny Bags are firmer, the stock here having been got into fewer hands. Metals are unchanged and generally nominal in price. Refined Syrups have been in good demand from the trade, but prices are without alteration. Nails have further declined, and the market closes dull. The transactions in Provisions have been large; all kinds of Cut Meats have been well sustained except Pork, for which some sellers ex ship have accepted lower prices, the receipts having been pretty large. Eastern Butter has declined; the supplies of California continuing heavy, and very near sufficing for the entire consumption. Lard has been in good demand and prices well sustained. Rice, both Foreign and Carolina, has declined, the former without any reason that we can assign, as the importations have not been large; of Carolina, several parcels came in, and sales being pressed in excess of the demands of the trade a marked fall was the inevitable effect. Refined Sugars for small parcels ex ship, have realized former quotations, but sales to arrive have been made at lower figures. Importations of West India Muscovado in the fortnight were considerable, and buyers made materially easier terms, but towards the close the Refinery Company came into the market and with one or two operators upon speculation, took up about all of the remaining parcels; nevertheless, to-day's quotations show a decline since last mail. American Spirits, with the exception of Rum, are exceedingly dull, and have declined. Soap (with the exception of two or three standard brands) and Starch are dull. Spirits Turpentine have ruled very inactive, and the general firmness of holders has availed nothing in the way of effecting sales. The stock here is fully a five months' supply, and three months' additional are advised as on the way. In Teas little has been done since last mail, and Canton made Greens have experienced a further decline.

A leading feature in the transactions of the past two weeks has been the marked decline which has taken place in Flour. Notwithstanding the belief generally entertained by parties conversant with the prospects of the market that our available supplies, between this and harvest, are not much, if any, in excess of the requirements for consumption, still, but a nominal firmness has existed for some weeks past; and the result of a peremptory sale at auction, ex Twilight, of a considerable parcel of Gallego, demonstrated the fact, as well as that whatever of confidence might be felt in the article, there was no money to back it up.

The jobbing trade, during the past fortnight, has in the aggregate been better than that of any corresponding period, thus far, this season. Considering the high prices still ruling for many staples, the country has bought pretty liberally and generally, which shows conclusively that the interior traders had held out, as a class, until their stocks were exhausted, in the hope that the market would fall.

The yield of gold continues satisfactory, and the product this year will probably much exceed that of any preceding one. The growing crops continue to look finely, and promise an enormous harvest.

The arrivals, since our last review was written, have been the Lookout, Contest and Andrew Jackson, from New York; the Dashing Wave and Chatworth, from Boston; and the Brave Lournal, from Bordeaux, with assorted cargoes; the What Cheer, from Melbourne via Honolulu, with a miscellaneous cargo; the J. B. Lancaster, from Rio de Janeiro, with Coffee; the Carin Cecilia, from Batavia, with Sugar, Rice and Pepper; the Island Queen and the Lewis Perry, from Tahiti, with Oranges; and the Gen. Yanez, from Guaymas, with Wheat and Hides.

BREAD—Small sales of domestic made Pilot and Navy have been made at our quoted rates.

BOOTS AND SHOES—Imports from December 27th to April 30th, 25,492 packages.

Calif. Kip and Hungarian (Iron nailed) Boots are doing somewhat better, and small parcels can be sold at a slight advance upon home cost. Brogans and India Rubber Boots are very dull, and the double sole long top India Rubber Boots cannot be quoted better than \$5.50 a pair, and Knee do \$4.45 a pair. Light summer goods are also dull. There is a large amount of

undesirable goods here unsuited to the market, and the stock is accumulating. The following prices were realized to-day at auction for a line of 150 cases:—

Men's L L H Double Sole Calf Boots, \$1 90.
Do H H Welt Calf Congress Gaiters, \$1 55 @ 1 60.
Do L L H H Welt Calf Boot, \$1 75 @ 1 25.
Do do do do do do, \$1 12 @ 1 12.
Do do do do do do, \$2 75.
Do do do do do do, \$1 50.
Do do do do do do, \$3 @ 3 02.
Do do do do do do, \$1 62 @ 1 95.
Do do do do do do, \$2 12.
Do do do do do do, \$1 80.
Do do do do do do, \$2 @ 2 95.
Do H H Welt Kip Brogans, \$5 @ 90.

Boys' Pump Sole Fine Calf Dress do, \$2.
Men's do do do do do do, \$1 10.
Do do do do do do, \$1 95.
Do do do do do do, \$1 75.
Do do do do do do, \$3.

CANDLES—Imports from December 27th to April 30th, 7,894 boxes and 48,576 half boxes.

The receipts since last report have exceeded the wants of the trade, and the rather favorable feeling evinced during the first half of April has not been sustained. The sales of Adamantines add up 8,500 packages at private sale, at a range of 10¢ to 20¢ for good to extra quality brands. At the close, we have sales of Phoenix first at 19½¢ and of Knapp Bros. at 19½¢, which sold early in the fortnight at 20½¢ cash. The sales of Adamantines at auction, mostly not in order, were 2,000 packages at 12½¢ to 18¢, according to condition and quality. In Sperm, no sales came to our knowledge; 50 boxes French Composition sold at auction at 25½¢ to 25¢. At the close, 645 boxes Ball's Adamantines sold at auction at 17½¢ to 17¢ cash.

COAL—Imports from December 27th to April 30th: 4,363 tons Anthracite, 552 casks Cumberland, 4,729 tons English, 3,921 do Chile, 546 do Sydney, 1,755 do Vancouver Island, and 1,500 do Oregon.

We have to note a further decline for all descriptions, the market having tended downward through the whole fortnight, and closing heavy. The reported sales have been in the order made: 80 tons Anthracite ex Dashing Wave at \$17; 215 do Loblog ex Chatworth, on private terms; 215 do West Hartley ex yard at \$14; 543 do S. S. Whaley ex Ell Whitney, in lots, at \$11½ to \$13—closed at \$11; 28 casks Cumberland ex Fanny Major at \$32, and 386 tons Anthracite, in lots, from yard at \$15.50 to \$15. Cumberland is jobbing at \$50—the stock being small, and held by one house.

COFFEE—Imports from December 27th to April 30th, 1,904,985 lbs.

The J. B. Lancaster arrived from Rio Janeiro in the early part of the fortnight, bringing 900,000 lbs, and although the importers announced that the cargo would not be offered at present, and it was held in store, with the exception of one damaged portion—still the effect was considerably noticeable, in addition to stocks were weakening to the market, and tends to induce the trade to hold off as long as possible before purchasing fresh supplies. The sales have been limited, and in the order made since last mail were as follows: 20,000 lbs Rio at 12½¢; 100,000 lbs do on private terms; 100 bags Costa Rica at 12¢; at auction, ex J. B. Lancaster, 64,400 lbs Rio slightly damaged at \$10 75; and 134 bags do, severely damaged, at about \$2.50. Towards the close, 3,900 lbs green Beans were offered at auction of which 1,400 bags sold at 13¢, 300 bags, and the balance was withdrawn. We hear that the principal holders of Rio, exclusive of the Lancaster's cargo, are now asking 14¢.

CORN MEAL—We note sales of 225 bbls Eastern, ex Dashing Wave, at \$10 to \$10.50; none of that description now remaining in first hands. California ground is worth 5¢ lb.

CORDAGE—Imports from December 27th to April 30th: 402 bales, 4,555 coils and 1,138 packages.

The demand has been good at improved rates; we note sales from second hands of 60,000 lbs Eastern laid Manila at 14¢ for large and 15¢ for small sizes, and from first hands, 50,000 lbs Manila from store, and 398 coils Eastern laid do to arrive on private terms.

CEMENT—The stock of Rosendale here is stated to be 3,100 bbls and held by three parties who are asking \$3, but we hear of no sales made at that figure. A round lot arriving might realize \$5 50.

CLOTHING—Overall's and Flannel Shirts are in good demand and paying a moderate profit. Woolen goods continue in heavy stock and only saleable at losing prices.

CROCKERY—There were sales at auction of 81 crates white glazed English Granite Ware, selected seconds, at a range of \$30 to \$150 per package, netting a trifling advance upon cost and charges.

DRUGS—We note sales of Saleratus in 1-lb papers at 10¢; 70 cks English Soda Ash at 4¢; 100 do Carbonate Soda at 5½¢; 1,200 lbs pure Cream Tartar 1-lb papers at 47¢, and at auction 1,800 lbs. Soda Ash at 37¢.

DRY GOODS—No importations of Brown Cottons have come to hand outside of the trade: standard 30 inch Drills and 44-Sheetings are jobbing at 11¢ to 11½¢. We note sales of 600 prs. Blue Blankets (English) at about \$2.25 and 6 bales Gray do, half cotton, \$1 90. 10,000 yards 11 inch English Shirtings on private terms; 20 c. Bleached Sheetings, 10-4 and 11-4 at 27¢ to 28¢, and 10 do Common Prints at 7½¢. A large invoice of Rockport Cotton Duck, sold at auction some days since for cash, realizing the following figures:

150 bolts No 1 at 22½¢.
150 do No 2 at 17½ to 18¢.
150 do No 3 at 17 to 16½¢.
100 do No 5 at 16¢.
100 do No 6 at 16¢.
100 do No 7 at 16½ to 15½¢.

The principal importing and jobbing houses have had a satisfactory trade during the past fortnight, and we note a firm market for most staples with moderate stocks.

FRUITS, SAUCES, &c.—Considerable receipts of new crop Eastern Dried Apples having come to hand, and receivers generally desiring to sell immediately on arrival, the market has declined, and some parcels of old but in fair condition have been placed through the auction rooms at low figures. We quote sales of 600 H-bbls new crop in lots, at 15¢ to 12¢, but we do not believe that sales of choice have been made below 13¢; of old 40 lbs and 50 lb do sold at auction at a range of 12 to 14¢. Last sales at the latter figure. Raisins are in fair demand; 800 prs. Layers were taken by the trade at \$3 75 @ \$3 80; 75 bbls choice Zante Currants sold in lots, at 13¢; 53 bbs Chile Peaches at 20¢; 300 do do on private terms, and we believe that the same parcel was afterwards resold to the U. S. Government at \$19 95 @ 100 lbs. Choice Figs are scarce and worth 20¢; a parcel sold at that figure, but proved, on coming out of ship, to be badly sweetened. Considerable quantities of Raisins have been taken place, and they are worth 17 to 20¢, according to quality and style of package. In Nuts we note sales of 40 bbls Soft Shelled Almonds at 22¢, and

CORN—Is scarcely so firm as last noted; about 1,000 bags Southern State was sold at 3 1/4 @ 3 1/2; small lots since from second hands at 4c.

BEANS—500 bushels domestic White Pea were sold to the U. S. Government in the last week at 2 1/2 @ 2 3/4 lb. We quote large Bayos (California) at 3 1/4 @ 3 1/2.

MONEY MARKET.

Since the sailing of the steamer of the 20th ult. money has been more abundant, affording easier terms to borrowers. First class mercantile paper is being done in Bank and outside at 2 1/2 cent., in some instances 2 1/4 being given. Loans upon merchandise are negotiated at 1 1/2, and upon real estate at 1 1/4 @ 1 1/2 cent.

Dust is coming in freely from the mines, the receipts for the month of April this year exceeding, as usual, those of the preceding month. Accounts of mining operations continue favorable in the highest degree, while the prospective harvest of grain crops promise an abundance over any thing yet known in the history of the State.

Cash received.....	104,444	109,349 67

By the arrival of the P. M. S. Co's steamer Columbia at this port on the 2d inst. from Puget Sound, further information has been received confirming the accounts of gold discoveries on Frazer River. Within the last fortnight three steamers have sailed for Bellingham Bay, all carrying a full complement of passengers bound for the new diggings, where it is represented that mining is as profitable as in this State during the times of 1849. There is certainly a great rush for the region, and the community, a little shy at first from experiences of Gold Bluff and Kern River excitements, are evidently putting more confidence in the continued favorable accounts now coming to hand.

The session of the State Legislature was brought to a close on the 26th ult. We are as yet unapprised of the amount of claims against the State passed upon at this session, authorized to be funded, but shall endeavor to give this information in our next. The amount of cash in the State Treasury on the 26th April, after paying all demands to that date was \$376,754 50. The act to fund the County and City Indebtedness of San Francisco has become a law, and the Commissioners will proceed in their duties without delay.

The supply of bars for this steamer is ample; we note sales of 800 tins at 1/2 cent. discount.

We annex our usual quotations of Stocks, Bullion and Exchange.

MAY 3—Bark Fanny Major, Paty, Honolulu; McRuer & Merrell.

Memoranda.

PER HELVETINE—At this Port April 17, fm Liverpool—To Cape Horn had fine weather; was 14 days off Cape Horn; crossed the equator in the Pacific March 24th, long 167 3/4; from thence had strong northerly winds; have been off this port three days.

PER SANTA CRUZ—At this Port April 18, from Coosue Bay—Bark New World was wrecked in Coosue Bay about April 1st; in Coosue Bay, bark Muller, Iwanona, and Columbia, ready for sea.

PER GOLD HUNTER—At this Port April 17, fm Valparaiso—Experienced light winds to the equator; crossed March 11th long 103 W; since then had light northerly winds.

PER STR. COLUMBIA—at this port, April 18, from Puget Sound—Left at Port Gamble, ships Ravensdale, Waconata, Leonora, Torrent, Bostonian, Kit Carson, and Geo. Raynes—the latter ready for sea. In the latter crew, 50 cases of iron, the Straits experience great difficulty in getting men, as everybody is leaving for the new gold mines on Frazer's river. Left at Port Orford sch'r Palestine, 24 days from Johnson's Island; at Humboldt, brig Susan Abigail, just arrived; brig Almatia, loading, and brig Walcott, ready for sea.

PER CHAMSWORTH—at this port, April 18, from Boston—Was 24 days to the equator in the Atlantic; passed Cape St. Roque on 27th day out, and River La Platte in 42 days; was 83 days to Cape Horn, and 10 days off the Cape in moderate weather; crossed the equator in the Pacific 90 days out, in lon 110 50, and carried the north-west trades to lat 27 N., since which have had calms and light winds. March 9, lat 40 28, lon 70, exchanged signals with clipper ship Conquest, (?) from New York for this port.

PER BRAVE LOUVELL—at this port, April 18, from Bordeaux—Was 24 days to the equator in the Atlantic; 50 equator in the Atlantic; experienced light winds from Bordeaux to Cape Horn, was 15 days off the Cape in heavy gales; crossed equator in the Pacific 24 days since, in lon 118, since which have had light northerly winds.

PER DASHING WAVE—at this port, April 18, from Boston—Was 23 days to the equator in the Atlantic; passed Cape St. Roque Jan 27th; was 50 days to Cape Horn, which passed Feb 29th; from equator in the Pacific 10 days, and from the equator in the Atlantic to equator in the Pacific, 56 days; crossed the latter March 22d, in lon 111, in 80 days from Boston. Took the north-east trades in lat 7 N., and carried them to lat 28 N., lon 135 W; have been within 180 miles of this port for the last 18 days, having calms and light winds.

PER J. D. LANCASTER—at this port, April 18, from Rio Janeiro—Left in the afternoon, ship Wagon, Capt Hunt, for this port in 40 days; she had nearly finished unloading, and would be caulked and re-cooped, and then reload. The J. D. L. was 16 days from Rio Janeiro to Cape Horn; was off the Cape 14 days, in moderate weather; crossed equator in the Pacific March 26th, in lon 111, since which have had light NNE winds.

PER STEEL—at this port, April 18, from New York—Was 70 days to Cape Horn; came around in fine weather; crossed the equator in the Pacific March 24th, in lon 108 30, since which have had moderate northerly breezes.

PER CARIN CECILIA—at this port, April 18, from Batavia—in the Indian Ocean had contrary winds; have had light south-east winds since leaving the Japan sea, until arrived in lat 30, lon 140, since which have had strong north-west winds.

PER WHAT CHEER—at this port, April 22, from Melbourne via Honolulu—Clipper ship Portland, Philip H. Bates, 20c, encountered an easterly head wind the entire passage to Honolulu; lat 35 S, lon 160 E, spoke whale bark Isaac, 30 months from New Bedford, 700 bls sperm oil; arrived at Honolulu March 30, took in water and provisions, and sailed again April 3d; left at Honolulu to sail April 5th, Danish brig Mathilde, last from Mazatlan, loading for Hong Kong, Hawaiian brig Emma, loading for Portland, O. T.; since leaving Honolulu, had light SE winds for the first 10 days; have been eight days making the last 500 miles, owing to light winds and calms. The American whaler ship Alexander was condemned at Sydney; Capt Clements, of the Alexander, intended taking passage in the What Cheer, but probably was placed in command of the whale ship Junc, which was lying in that port.

PER ANDREW JACKSON, at this port April 27 from New York—Was 20 days 18 hours to the Equator in the Atlantic; was 47 days to Cape Horn; was 13 days off the Cape, with moderate weather; had the S E trades very light and baffling; crossed the Equator in the Pacific April 9th, lon 113 W, 81 days out from New York; was becalmed 20 days in the Pacific, and 47 days to Cape Horn; lat 2 N had the wind from the north, then strong N E trades to lat 29 N; since then had variable winds; off Cape Horn was in company with ships Ocean Express and Charlot of Fame, for this port.

PER LOOKOUT, at this port April 27 from New York—Was 21 1/2 days to the Equator in the Atlantic; crossed in lon 50 W; 23 days to Cape St Roque; was off Rio de Janeiro in lat 34, lon 45; 42 days to the Equator, and 47 days to Cape Horn; April, lon 111 W, 89 days out; from thence had light N W winds and calms to lat 8 N; since had favorable winds.

PER GEN YANEZ, at this port April 27 from Guaymas—Had strong N W winds during the first of the passage, up to the Gulf of California; since then had light winds and calms up to within 2 days' sail of this port; for the last 2 days had strong S W winds.

PER ISLAND QUEEN, at this port April 27th from Tahiti—Have had light NW winds and strong NW gales all the passage; April 12th, in a strong NW gale, carried away the bowsprit. Left whale bark Broughton, 300 sp 700 blbs wh oil; bark Caroline, 30 blbs sperm.

PER LEWIS BERRY, at this port April 30 from Tahiti—Had fine weather most of the passage; left San Francisco, Ellsberg, of N. and M. Co., at 10 o'clock, April 29, for the Straits; bound on a cruise; Ham brig Charlotte, for Valparaiso, via Navigator's Islands; sch'r E C Foote, 160 oranges at Restal for New Zealand and Sydney; bk Ocean Bird, Johnson, loading oranges at Papete for this port; sch'r Queen of the Isles, Chapman, Idc at Blatai; brig Carolina Hort, sid March 25th for Navigator Islands.

SAN FRANCISCO:
FRIDAY MORNING, JUNE 13, 1862.

Review of the Market FOR THE WEEK ENDING JUNE 12

THURSDAY, JUNE 12, 1862.

The past week has been one of moderate animation in commercial affairs. The jobbing trade have been doing very well, as has been the case for some time past, and importers have succeeded in effecting sales of a few leading articles to a fair extent; but the market generally has not been brisk. Stocks continue ample for the most part, and prices give little indication of improvement. There has been an increased demand for Bread for China. Coffee is firm, and Cordage has advanced, the latter in consequence of heavy losses of Hemp on route to this port from Manila, per Lucretia. Bagging Material continues active, and the supply of some descriptions is not large. French Goods, such as Absynthe and Olive Oils have attracted attention. Coal Oils are dull and drooping. Meat Provisions are in some request for the North, particularly Hams and Bacon; other kinds not much wanted. Butter is dull. Domestic Cheese and Lard are in fair demand. Rice droops under the weight of heavy stocks. In Sugar there is no important change—prices are maintained. Spirits continue dull. Tobacco firm, demand active. Teas quiet.

The arrivals from supply ports during the week have not been large, but we are advised of the continuance of heavy shipments from Eastern ports. The markets upon the Atlantic side are excessively dull, and apparently for the mere sake of keeping themselves busy, and to find outlet for stocks of merchandise not wanted there, adventurers were sending off large quantities in this direction.

The departures from this port for northern mines, by sea, during the month of May were nearly 3800. This, however, constitutes but a small part of the emigration to those regions; the tide overland has been much greater, and the two united are estimated at over 31,000 souls. We hear of large numbers coming from Utah, from the Western States, and from the Canadian Provinces, as well as from the old country, all attracted by reports of fabulous wealth in the mines of Cariboo and Salmon River. In this immediate neighborhood, however, the enthusiasm has been somewhat dampened by the return of disappointed gold seekers; and the attention of the nomadic portion of our mining population, especially in the southern counties, is, at present, strongly directed to the rich placers newly discovered near the Colorado—the old traditional ground so often referred to in the legends of trappers and early settlers. This circumstance is drawing a large amount of merchandise to ports upon the southern coast.

The general condition of Eastern markets is a matter of much interest to us at the present moment, and copious reports will be found elsewhere.

The President has issued a proclamation declaring that the blockade of the ports of Beaufort, Port Royal and New Orleans, shall so far cease and determine from and after the 1st of June next, that commercial intercourse with those ports, except as to persons and things and information contraband of war, may from that time be carried on, subject to the laws of the United States, and to the limitations and in pursuance of the regulations prescribed by the Secretary of the Treasury.

Vessels for New Orleans were already on the berth, both at St. Louis and New York. The opening of the navigation of the western lakes and canals was bringing in a flood of produce from the "Great West," and dealers were apprehending a decline in prices, and an advance in freights. In the grain growing districts the winter-sown crops were looking well, but a stormy and backward spring had greatly hindered late planting, and the yield as compared with last season was regarded as deficient. Late planting in the Northwest may turn out well, but the chances are all against an average, or even a moderate crop. "Destitution was still spreading in the manufacturing districts of England. A return of the state of employment in the cotton trade reveals the fact that of 1678 mills, usually employing 350,000 operatives, 497 are working full time, 903 are working short time, varying from two to five days a week, and 278 are stopped altogether. The employment of operatives is to this extent: 92,000 are on full time and 200,000 on short time, while 58,000 are out of work altogether."

As regards France, the Constitutionnel of the 25th of April, in an article on the subject of the effects of the war on the industrial resources of Europe, says: America fights, but Europe suffers; the American battle-fields are strewn with corpses, but the industrial battle-fields of Europe are covered with wounded; and, unfortunately, if the fighting is to go on much longer on the other side of the Atlantic, the people will still have long to suffer, both in England and France.

The prevalence of this extreme distress among the laboring and manufacturing classes had given rise to much agitation on the subject of intervention in our national affairs, and to such a degree had this idea taken hold upon the public mind that the value of cotton had been affected by it.

A meeting, attended by about 6,000 people, was held at Aston-under-Lyne, in England, to consider the crisis in the cotton districts. A motion calling on the Government to recognize the Confederate States, and adopt Mr. Cobden's proposed alteration in maritime law was presented. An amendment was offered calling on the Governments of America, England and France, to crush the rebellion, but on a division the original motion was carried by a considerable majority.

The arrivals from supply ports since our last review, have been the Storm King, Competitor and Windward from Hongkong, with China Produce—burks Peter Clinton from Glasgow, and Comet from Honolulu, with assorted cargo—the Maria from Carmen Island, with Salt—the Guaymas from Punta Arenas, with Coffee—and the schooner Cygnat, from Ojo de Lavre, with Salt.

BOOTS AND SHOES—Imports from January 1st 1862, to May 31st, 19,641 pkgs.

We have no changes of importance to record, either in price or demand. A good fair jobbing trade may be noted in the retail market, but the general sales are scarcely up to the usual average of the season. The auction rooms continue the usual clearings, many mixtures of which are goods imported specially for that trade. The prices obtained, however, are by no means remunerative to the parties interested. Stocks here and to arrive are large.

IRON-BARS—Recent advices from Hongkong of a scarcity of Ship Braid in that market, have given quite an impetus to the trade, with sales at upwards of 100c, at 6c for Pilot, and 4 1/2 @ 5 for the Navy. Our makers have had occupation, and are daily with liberal sales of all descriptions.

COFFEES—The market is still glutted with heavy supplies of the Havana, selling at low prices. At auction, 53,000 lb. of Havana, \$16 75; 18,000 Mexican and Manilla, \$5 75 @ 8; 1 c. German, \$4 75 @ 16.

CANDLES—Imports from January 1st to May 31st: 1862, 4,633 boxes and cases, and 95,521 half d's.

There has been but a moderate demand during the week, at low prices. The auction rooms liberally supplied with parcels stained and otherwise damaged, sold for account of underwriters, which has been depressing the market generally. A very large proportion of all recent arrivals has been worked off at low figures. We note private sales of 2,000 lbs. Green's, at about 10c @ 12c; 750 lbs. Werk & C's, Cincinnati, 500 do. Emery's, and 500 do. Hiant & Co's, as is, all at 18c; 500 lbs. do. in boxes, 18c; 25 lbs. R. Bishop's, Sperm, 50c; at auction, 89 boxes Station Island, 17c.

COFFEE—Imports from January 1st to May 31st: Rio, pkgs., 4,335 lbs., 1,937,741 Java, pkgs., 96; 57,700; Sulu, pkgs., 310 lbs., 1,938; Costa Rica, pkgs., 3,273 lbs., 1,01,235; Manila, pkgs., 749 lbs., 44,767.

The market has gradually hardened during the week, although the sales have been light, and these chiefly of the best descriptions. Some late importations from Central America have been of very superior quality, and so do at extreme rates in lots to the trade—say at 22 1/2 @ 23 for selections. Lots held with much firmness at 2c, with an upward tendency. We have had no arrivals of the London market, with 100 lb. on board. This loss was partially met, however, by an unexpected arrival of 519 sacks to La Roca per the Senora from Panama, which is held at 2 1/2 @ 2c.

COAL—Imports from January 1st to May 31st: Anthracite, tons, 11,334; Sydney, tons, 762; Cumberland, tons, 899; Coast, tons, 6,645; do casks, 500; Manilla, tons, 125; English, tons, 30; 491 Vancouver Island, tons, 4,172; Chile, tons, 256.

There have been no arrivals of importance during the week. The sales have been confined to 50 tons Newcastle, ex H. N. McGraw, at 12, three sold at a trifling advance; and 20 tons Anthracite, ex J. L. Dimmick, on terms withheld. The market is without animation, and our quotations must be looked upon as quite nominal.

CORDBAGE—Imports from January 1st to May 31st: 287, coils, 4,633; packages, 1,645.

The market is somewhat excited, on account of the loss of 1,000 lbs. Hemp on the "Lucretia" in a disabled condition on the "Bad Eagle," all belonging to the San Francisco Cordage Company. These heavy losses have, to some extent, crippled the operations of the Cordage Factory here. At present, they are obliged to re-lay some of their largest sizes, to meet current demands for baling purposes, etc. It is proper for us to state, that according to the latest advices from Hongkong, 700 bales of the "Lucretia's" Hemp have been rescued from the ship, and may come forward from Manilla are looked for at the earliest practical moment to make good the loss now referred to. In the meantime prices of Eastern laid Manila have advanced 0.17c, and of Domestic in jobbing lots to 16c. The supply is light and holders have confidence in sustaining present asking prices, yet we are without any sales to report at these high figures;—20,0 lbs. assorted sizes to arrive sold at 16c. It is a little remarkable, that out of 3,50 lbs. Hemp ordered this season from Manilla by the Cordage Company here, 2,000 bales should have been lost unusually in the season. The Company are fully warranted at a profit, but this cannot be considered in sustaining the price, and they are obliged to stop work or to run on short time. In future the Company have always aimed to keep a surplus stock on hand of 1,000 bales, but these repeated losses, with all their precaution, have caught them with a light supply. At the close 25,000 lbs. Eastern laid Manila bales are sold at 16c.

RECEIPTS OF DOMESTIC PRODUCE.

The following is a statement of the receipts of Domestic Produce in this market the last week, and the total for the past three years, from July 1st to the corresponding date each year.

ARTICLES OF PRODUCE.	For the week ending June 9, 1892.	From July 1st to June 9, 1892.	From July 1st to June 9, 1891.	From July 1st to June 9, 1890.	From July 1st to June 9, 1889.

FINANCIAL.

Our latest regular advices from Eastern markets are to 16th ult., received per steamer via Panama. By tel graph we have brief despatches to 6th inst., containing little else however, than quotations of exchange, stocks and gold. The general condition of trade and commerce was still unsatisfactory. A very light spring business had been experienced thus far, and the season was drawing to a close, when a period of still greater languor was looked for. But from the opening of the fall trade high anticipations were indulged by many whose views are reflected through the columns of some of the leading journals in bright and glowing colors. In our last review we had occasion to allude to the opinions of these parties at some length. The existence of Union feeling at the South requiring only the presence and support of Federal power to make it prevalent the strong probability that the people there when assured of protection would readily bring forward their crops in exchange for the necessaries and comforts of which they have long been deprived, and the crowning assurance that rebellion was even now well nigh extinguished by the progress of our victorious armies, continue to be urged with great confidence. An early resumption of trade with unparalleled activity and prosperity in all departments was freely predicted.

The following were the closing rates for Government Securities, &c., as stated in our regular advices:

7.30 Treasury Note Bonds.....	105 @ 105 1/2
12 month Certificates.....	@ 104 1/2
Coupon U.S. of 1881.....	105 @ 105 1/2
Registered do.....	105 @ 105 1/2
5's of 1871 and 1874.....	95 @ 96
Demond Treasury Notes, "old issue".....	3 @ 3 1/2
American Gold.....	2 1/2 @ 3
California 7's.....	94 1/2 @ 95

Money upon prime paper 3 @ 5 cent. per annum.

By Telegraph we have the following quotations:

New York, June 6—Sterling Exchange, 11 1/2 @ 11 1/4; Gold, 16 1/2; Treasury Notes, (doubtless the 7.30's) 106 1/2; Panama, 132 1/2; Pacific, 116 1/2; California 7's, 97 1/2; California large bond, 97; Oregon half-year, 104 1/2.

In our own market money continues easy, and the rates unchanged. Short loans upon satisfactory names or collaterals, can be effected without difficulty at 1 1/2 cent. per month; and transactions are reported to us, upon unexceptional securities, at 2 cent. No pressing want exists in any quarter. We hear of jobbers offering to discount their own paper at 1 cent. Receipts of Treasury from the Interior and coastwise, during the past five days, amount to a little short of \$1,000,000. The operations of the Mint have contributed much to the prevailing ease in money matters. As will be seen by statements herewith, the coinage for the month of May amounted to the unusually large sum of \$2,930,000.

The plethora of money at the East and excessively low rates of interest will undoubtedly cause the transfer of more or less capital to this market. Such, in fact, has been the case already within a few weeks, and we may expect more so. The excitement of the stock exchange are not equally attractive to all capitalists. There are some who regard stock jobbing, as conducted at the East, as a species of gambling, with moral tendencies scarcely more elevated than cards or dice. With them good business loans or no grade securities are preferred to stocks, and such may readily be found here at far more profitable rates than there. It may not be too much to hope from this cause, that interest upon money will ere long assume a lower range in this market.

The supply of Gold Bars is more ample than for some weeks past, the sudden advance noted in our last review having checked deposits at the Mint. Sales are reported to-day at \$670, which, from present appearances, it is believed, will be about the range of the market for this steamer. Silver Bullion still rules at 16 1/2 per cent. discount. We have just been shown a private letter from New York under date of 15th ult., from which we are permitted to make the following extract. "We are at our wits' ends in New York to furnish silver for manufacturing purposes, and will be obliged to use the coinage since 1853 at a cost of \$1.27 per ounce. * * * There would now be a profit of nearly 6 per cent. on shipments of Bar Silver from your side. * * * You can rely

on getting here not less than \$1.23 per ounce for 900 fine, and more likely \$1.25, and it is our belief that this rate will be maintained for months to come. There is not \$10,000,000 in silver (aside from the U. S. coinage since 1833) in this city. * * * This coinage is worth here 1 1/2 per cent. per m for such as has been in circulation long enough to have lost by wear and usage nearly 1 per cent., while the bright new of same coinage would bring 2 @ 1/2 per cent. premium."

Bankers continue to draw on the Atlantic cities, payable in currency, at par. The demand, however, is very light, and the rate not firm. Concessions upon bills for large amounts would not surprise us. Commercial bills can hardly be quoted above 2 per cent. discount. Sterling remains steady at 48 1/2 for Bankers and 49 1/2 for Commercial. U. S. Treasury 7 1/2's common and 1 1/2 @ 1/2 per cent. premium. Legal tender notes are at 16 1/2 per cent. discount.

The market is bare of Mexican Dollars; rate nominal 7 @ 8 per cent. premium.

By the officers of the U. S. Branch Mint we have been courteously favored with the following statement of the operations of that establishment for the month of May:

Gold deposited—standard weight.....ozs	127,322.73
Do parted.....do	5,402.06
Total weight of Gold.....ozs	132,724.79
Value of Gold deposited.....\$	32,348,795.13
Do parted.....do	1,100,503.47
Total value of Gold.....\$	31,248,291.66
Silver deposited—standard weight.....ozs	4,611.02
Do parted.....do	11,457.07
Total weight of Silver.....ozs	60,098.08
Value of Silver deposited.....\$	58,595.65
Do parted.....do	13,331.76
Total value of Silver.....\$	45,263.89

COINAGE.

Gold—Double Eagles.....	\$2,870,000
Quarter Dollars.....	15,000
Silver—Half Dollars.....	42,000
Quarter Dollars.....	6,000
10imes.....	4,700
Total coinage.....	\$2,937,700

We note the singular fact that the gold parted from the Silver deposits amounts in value to nearly double the Silver.

The imports of Treasury since our last review have been as follows:

June 8—Per steamer Pacific.....	\$10,000.00
June 9—Per Sierra Nevada.....	39,612.43
June 11—Per Comet.....	2,011.58
Total.....	\$51,614.01

Exports during the same period have been—

June 7—Per Golden Gate—	
To New York.....	\$387,536.33
To England.....	239,193.98
To Panama.....	5,000.00
June 9—Per Fanny to Shanghai.....	9,667.65
Previously this year.....	14,596,066.05
Total since January 1st, 1892.....	\$15,234,659.99
Corresponding period of 1891.....	17,096,370.52

Falling off this year..... \$1,558,001.53

We are indebted to Mr. JOHN PERRY, Jr., for the following review of Stocks:

Transactions in Stocks have been very limited the past week. The market closes firm at quotations. The following sales have been made: \$10,000 California State Bonds, @ 94; \$5,000 Sacramento City Sixes, @ 92; \$5,000 Sacramento City Sixes, @ 70; 9 shares California Steam Navigation Co. Stock, @ 37 1/2; 75 shares Bunsley Water Stock, @ 90; 5 feet Ophir Silver Mining Co. Stock, @ 15 7/8; 100 shares California State Telegraph Stock, @ 49; \$1,000 Los Angeles County Seven per cent. Bonds, @ 100. The California Steam Navigation Co. returned Dividends on the 14th inst., at which time they declared 1 1/2 per cent. payable on the 14th inst., with a reasonable prospect of a repetition of the same at regular intervals.

She

DOMESTIC PRODUCE.

During the period under review the ship Enoch Train has completed her loading and sailed for Liverpool, carrying the largest cargo ever shipped out of this port, with a single exception—that of the Great Republic. Her freight consists of about 5,000,000 lbs of Wheat, 154,500 lbs of Tallow, valued at \$100,000. The British ship Melita has also sailed for England, carrying 1600 hf and 800 qr sks Flour and about 23,000 sks Wheat, valued at \$47,000. The Cutwater, for Liverpool, has nearly completed loading her cargo of Breadstuffs, consisting chiefly of Wheat. The Br ship Lockett is about ready to sail with Wheat for the same port. The ship Windward has sailed for New York, carrying 21,362 hides, 3484 Horns, 405 pkgs Copper Ore, 1245 sks Mustard seeds, 9620 galls Spirits Turpentine, 732 bales Wool, 53 cks Oil, 28 cks Silver Ore, and a few casks of California Wine and Brandy—the whole valued at \$137,000. The Regulator, for Boston, is about ready for sea, carrying a large quantity of Oil, Copper Ore, Wool, Hides, etc. She is to be followed by the Gleaner, with a similar cargo. The Peruvian ship Dolores Ugarte is under an engagement to load a cargo of Wheat at Valjejo for Callao. The Wheat is to be shipped in bulk, having been purchased of the Napa farmers direct, for account of ship and owners. She will probably carry 25,000 bushels, more or less. This is the first vessel that ever loaded Grain in bulk at this port for a foreign voyage. The barks Glimpe and Nightingale are to load grain for Auckland, N. Z. The Br bark Anne Wood is under charter to load Wheat for England. The Lotus, for Hongkong, sailed a few days since with about 1000 sks Wheat, 400 flasks Quicksilver, 300 sks Potatoes, etc. The Palmetto, for Victoria, V. I., carried 500 sks Barley and 323 bales Hay. The Wild Pigeon, for Tahiti, carries 200 bbls Flour. The Maria, for Manzanillo, 1500 flasks Quicksilver, valued at \$57,500. As we write, negotiations are pending for a ship to load Wheat for Liverpool; also a vessel to load for New York.

The markets for Flour and Wheat remain firm and steady, with a fair export enquiry; prices are unchanged. The bulk of Wheat purchased is contracted for in the country by the agents of shippers. The details of such transactions do not find their way into the public prints. Barley is very scarce; the stock both here and in the country is supposed to be light, and with an active consuming demand prices have advanced at the close to \$1 80 per 100 lbs, which price is offered without finding sellers. At Sacramento the rate is even higher—the tendency of the market still upwards. Oats come to hand sparingly, and prices are well sustained. Corn is in light supply; the crop in the State is thought to be a good one. Corn Meal appears to be neglected. Beans are very scarce—farmers holding back their crop looking for higher prices.

The crop of Potatoes is immense, and prospects of prices for the future are gloomy. Hay is scarce and wanted; a few cargoes would command our quotations. Hides have materially advanced in value since the dissolution of the Hide association. Wool comes to hand quite freely, with sales at remunerative prices, chiefly for shipment to the East. We note a freight engagement of 100,000 lbs Oregon Wool, for account of the Salem (O) Woolen Factory; Oregon Wool is in favor with us and brings high prices—sales of Washed at 27c. Tallow is wanted for export to England, and to the Eastern States, with sales at 6½c, though the bulk of the shipments go forward to Liverpool on chandler's account. We note sales of about 6000 boxes Oregon Apples, by the Alert and Oregon, at 3@3½c per lb, quality not choice.

We recently referred to the probabilities of our being able at no distant period to furnish our market with supplies of Raisins, Figs, etc. To-day, very creditable bunches of Raisins are on sale and exhibition in Pacific Fruit Market, the same having been cured at Los Angeles. At the same place we notice a box of the ordinary variety of blue Plums, of good quality, just in their prime, which were raised at San Jose, and sold at 25c per lb, the value thereof consisting in their maturing at this late season. Dried Figs, of good quality, have been in our market for some time past, cured in this State, and selling by the box at 25c per lb.

WHEAT—15,000 sks for export, at \$1 60; 5,000 sks do, \$1 62½; 1,500 sks extra, \$1 75; 500 sks extra for seed, \$1 85; 3,600 sks milling, \$1 50@1 55; 1,500 sks inferior, \$1 45@1 47½.

BAKLEY—2,650 sks, \$1 00@1 02½; 2,500 sks \$1 65@1 70; 1,500 sks choice, \$1 72½@1 75; at the close \$1 80 is offered and refused.

OATS—2000 sacks, in lots, \$2 05@2 15; 1000 do, \$1 90@2; 100 do, choice, \$2 37½.

HAY—The market is very poorly supplied, a few cargoes of good to prime quality would command \$15@20 per ton.

CORN—Small sales, 2½c per lb. MIDDLING—Sales, \$26@27 per ton. BEANS—Very scarce and difficult to procure even at our quotations.

HIDES—Free sales Dry at 13½@14c; some reported as high as 14½. Dry Salted, \$3 62½. WOOL—We note the following sales: 21,600 lbs for export, 21½@22c; 8,000 lbs mixed, 20c@21c; 7,000 lbs slightly burry at an average of 19c; 2,000 lbs Oregon washed at 27c; 26,000 lbs American, 20½@21c; 10,000 lbs at about 21c; 35,000 lbs at an average price of 21c; 10,000 lbs at 16@18c.

TALLOW—8000 lbs at 6½c per lb. POTATOES—Sales according to order and quality at \$1@1 25 per 100 lbs.

FINANCIAL.

Our Money market has been comparatively quiet during the period under review, with an ample supply of capital available for legitimate business purposes at rates ranging from 1½@2 per cent per month. The requirements of the trade appear to be very light, and payments are made with a promptness that indicates a full till, or plenty of accessible means.

Receipts of Treasure from the interior since our last report amount to a little over \$1,300,000, of which \$164,000 were in coin; and of the balance the Mint has taken about \$500,000; leaving about \$650,000 to meet the wants of shippers. Gold Bars are in fair demand to-day, with sales at 80@83. Large arrivals are looked for to-night, both from the North Coast and from the interior, which may affect prices to-morrow; but holders expect to realize at least 83, and should the supply not be considerably augmented, they seem to be in a very fair way to do so. We observe no change in the value of Silver. Sales are reported at ½ per cent premium @ 3½ discount.

The rates of Exchange prevailing on last Steamer Day will probably rule again to-morrow, unless to-night's despatches differ materially from the last received. Currency Bills on the Atlantic cities were then sold at 18@22 per cent discount, or the equivalent premium on gold, according to the various modes of computation. Bills payable in coin will be held at 5@6 per cent premium. Sterling has undergone no change. Bankers draw at 48@49½. A considerable amount of Grain Bills has been negotiated at 49½. We quote 49@49½ as the market rate.

Local Tenders are selling to-day at 85@88, with a fair demand, and but a moderate supply offering. There is no evidence, at the moment, of any considerable arrivals of late, by steamer or otherwise, and the Sub-Treasury in this city, for a week past, has been paying out gold.

Mexican Dollars remain at 9@10 per cent premium. The Imports of Treasure from the interior to date were as follows:

November 6—Per Sonora, from Mexican Ports..... \$ 11,850 00
19—Per G. Arturo, from Mazatlan..... 128,753 00

Total since November 1st..... \$ 39,703 00

Our exports of Treasure for the same period, were:

November 1—Per Golden Age—
To New York..... \$31,125 50
To England..... 757,671 00
To Panama..... 10,000 00—\$1,698,797 50

November 7—Per Tyne-mouth, to Hongkong..... 71,300 00

November 11—Per Orizaba—
To New York..... \$735,665 37
To England..... 462,776 29
To Panama..... 5,300 00—1,203,441 66

November 15—Per Los Angeles, to Hongkong..... 152,255 00

Total since November 1st..... \$3,125,824 16
Previously this year..... 33,437,429 75

Total since January 1, 1862..... \$35,563,253 91

Corresponding period of 1861..... 36,108,457 88

Excess this year..... \$154,796 03

The following is a statement of the balances in the State Treasury at the close of business October 25th:

General Fund..... \$25,836 56
Schol. Fund..... 36,795 39
Hospital Fund..... 7,822 68
Library Fund..... 2,111 47
Interest and Sinking Fund, 1857..... 116,710 11
Interest and Sinking Fund, 1860..... 1,618 30
Swamp Land Fund..... 94,293 59
School Land Fund..... 19,348 70
Estate of Deceased Persons..... 91 13
Seminary Fund..... 151 45
Public Bathing Fund..... 62 55
National Tax Fund..... 10,797 64

Total on hand..... \$3,5141 67

We are indebted to Mr. JOHN PERRY, JR., for the following review of Stock transactions.

We have but few transactions in stocks to report since the sailing of the last steamer. The market has been very inactive, but closes tolerably firm at quotations: 5 feet of Ophir Silver Mining Co.'s stock sold at \$2,550@2,700 per foot; 2 feet Gould & Curry, \$2,000 per foot; 100 shares of Gas Co.'s stock, at \$72 50; 100 do Sinte Telegraph stock, at \$18; 25 feet Chollar Co stock, \$290@300 per foot.

Freights and Charters.

Desirable tonnage is yet scarce and wanted. A ship is required for New York; another for England, &c. For Liverpool, £2 10s is asked, and £2 5s offered. The ship Gleaner has been chartered for Boston, and the Cyclone for Hongkong, on terms reserved. The Br bark Anne Wood is to load Grain for Liverpool. The Highlander and Monsoon are yet disengaged, waiting answers by telegraph from Eastern owners whether to accept offered rates or not. The Bremen bark Pallas goes to Australia with Lumber, via Puget Sound. The barks Glimpe and Nightingale are to load Breadstuffs for Auckland, N. Z. The Delores Ugarte is loading Wheat in bulk for Callao, on owners' account. The Magellan goes to Valparaiso in ballast.

Disengaged are ships Highlander, Monsoon, Saracen and Wallace; brigs Ivich and M. Worthington; schrs Caroline E. Foote, Colonist, Ella Florence and J. A. Bayard.

Since writing the above we learn that the ship Highlander has been chartered to load wheat for Liverpool at £2 10s.

The steamer Constitution but at hand brings up 719 bbls of Eastern Butter via the Istmus, which at present is to be sold at anything like prices satisfactory to the importer. Cheese is also arriving very freely, and is low of sale.

ICEBERG—The sales embrace 50 drkms extra C A via Istmus, 25 cs, 500 do choice in lots in this trade at 24¢ 1/2, chiefly at 21¢. At auction, 100 do do, 13¢ 1/2, and 15 do do, 11¢. At the close, 100 drkms C. Adams sold at 25¢.

CHEESE—At auction, 25 bxs New York, via Istmus, 15¢.

LARD—We report sales of 23 cs J. H. & Co.'s new in 10 and 20 lb tins, just at hand, by the steamer, at 11 1/4¢. The demand for Domestic is limited, at our quotations, which are at best but nominal, City renderers being determined to drive out all Eastern, though the stock of old is very excessive and is perishing; while the receipts of new via the Istmus are very tall.

POKE—We report a clearing out sale of 53 hb bbls Eastern Mesa at 57 1/2¢.

HEMLOCK—Recent importation of 50 cks new brine ex Erling but sold at 12¢ per lb. We hear indirectly of purchases of "Billings" to some extent at the East for this market.

BATON—Operations are restricted in small jobbing lots, chiefly domestic, at our quotations.

RICE—Imports from January 1st to January 31st: Pkgs 33,508. The market is flat, without a single redeeming feature to notice. Stocks large and accumulating. The Sardinia, an, just at hand, brought over 25,000 sbs China, say 1,500,000 lbs. At auction 1,500 mats No. 1 China sold at \$5 1/2¢ to 70¢ 100 lbs; 200 mats same, 5¢; 450 mats No. 1 Canton, 5¢; 27 mat. Interior China, \$1 80.

SALT—Imports from January 1st to January 31st: Tons, 809; bags, 561, cs, 53. We have not a cargo sale of any description to record. Our quotations are but nominal.

STARCH—Imports from January 1st to January 31st: 3570 lbs. The sales, as usual, are confined mainly to the agents of leading Eastern brands, embracing 10 bxs Proctor & Gamble's, and 500 do Kingsford's, at our quotations.

SOAP—Imports from January 1st to January 31st: Boxes, 613, or boxes, 411. We note sales of 50 bxs Castle at about 16¢; 200 do Van Hagen's Chemical Olive at agent's rates. At auction, 500 bxs C, at 2¢.

SPICES—The markets without animation. Our quotations will give a fair view of prices, though we have no important sales to record.

SYRUP AND MOLASSES—Imports from January 1st to January 31st: Kegs, 011; kegs, 3 galls, 1,500. Sales are chiefly confined to the auction rooms. 200 bbls Hawaiian sold private; 700 kegs Eastern, 5¢, 10¢ 1/2; 100 do Boston, 5¢, private.

SUGAR—Imports from January 1st to January 31st: Foreign, raw, 31,200 pkgs; 1,581,000 lbs. From Domestic Atlantic Ports, 507 hds, 486 bbls.

With liberal receipts of foreign the market has ruled exceedingly irregular and we are without sales to report. The Refining Company are advised of the bark Dollart at Honkous in distress, leaking, and a full cargo of Manila on board. The bark is the next vessel expected with Refinery supplies. The Lucky Star, Nelson, under charter to load a cargo of Sugar at Manila is reported lost on the passage from Shanghai to Hongkong about December 1st, with a cargo of 1500 bales Cotton on board, from thence she had expected to reach Manila on the 15th December. It is believed that she is a full cargo of Manila fortunate to report. The Refiners who had previously lost one large cargo, and the Avon's badly damaged. Tonnage, however, is abundant in Manila and the moment these losses and disasters are known duplicate cargoes will be immediately forwarded to this port under standing orders. Refined Sugars are dull of sale at 15¢ 1/2. 250 bbls extra choice New York (stunt's best) sold at our highest figure. Also, 100 bbls and 100 of bbls San Francisco, for export at same price. At auction 750 bales No. 1 China, placed at \$9 1/2 to \$10.

SPIRITS—Imports from January 1st to January 31st: Alcohol, bbls, 245 Cider, cs, 700 do cs, 338 do bbls, 1809 Gin, pipes and casks, 30 Pure Spirits, pipes, 156 Brandy, pipes, 61 do do pipes, 168 do bbls, 75 Rom. hlds and puns, 16 do qrs, 474 do bbls, 477 do cs, 200 Whisky, puns, 10 Absinth, cs, 21 do bbls, 2819 do cs, 555

Were it not for the constant receipt of telegraphic messages from New York of advanced rates there, occasioned by a deranged currency and the enforcement of the Excise Laws, sales here would be light; yet with Eastern orders here to buy and others not to sell, prices are firmer for Domestic than for some time past. Stocks are however excessive and there is little inclination to operate.

ALCOHOL—The sales aggregate 150 bbls Eastern at 70¢, cash.

BRANDY—We have no transactions to report, either in Foreign or Domestic.

GIN—51 pipes and 1/2 do American, 40¢ cash.

RUM—Is neglected, without sales to record.

PURE SPIRITS—The sales are 50 1/2 and 15 pipes, ex Golden Fleece, 40¢ cash; 25 hf and 1/2 do same price; 50 pipes, 40¢, 41¢ cash.

WHISKY—The sales comprise 2500 galls Freeman & Simpson's Old Magnolia and 120 bbls Crow's Old Bourbon, all at agents' rates; 50 bbls high proof, 40¢.

TEAS—Imports from January 1st to January 31st: Pkgs, 2011. We have nothing of special importance to record; markets unchanged, with fair sales of Oomys at our quotations, aggregating 250 pkgs in all. At auction, 150 pkgs Oolong, 25 lbs each, 31 papers, 5¢; 100 hf chests Black, 47¢; 31 chests Powchong, 43 lbs each, 47¢; 40 bxs do, 37 lbs each, 41¢.

TOBACCO—Imports from January 1st to January 31st: Hds, 5; cs, 342; bales, 11; pkgs, 34; lbs, 21,000. In our orders are not anxious to sell in view of increased excise in contemplation at Washington, as we are advised by telegraph. We do, however, note sales of 123 cs Natural Leaf, standard brands—Fruit, Peach Blossom, Apricot, etc.—at a price equal to about \$1 1/2 to \$1 1/2; 25 bxs Natural Leaf, \$1 10, various brands; also, a round sale of 4000 lbs, 3/4, Natural Leaf, at 90¢—besides 2,500 lbs sweet, outside brands, at \$1 10. At the close the market is unsettled, with more buyers than sellers. We quote Western brands 70¢; 85¢, prime brands Virginia \$1 20 per pound. Our quotations generally have been fully revised.

WINE—Imports from January 1st to January 31st: Cks, 48; puns, 8; qr cks, 186; 1/2 cks, 14; cs, 291; bskts, 300.

Even more than the usual dullness is apparent at the moment. The sales embrace 25 casks Sonoma Claret—brozugar & Co's Nalve—at full figures, 14¢ for export to China; 100 cases Lambry's Grape Leaf Champagne and 20 baskets Louis Lareux's do, all at agent's rates.

WOODEN WARE—We have had a single sale of 200 doz California Cedar Pails to report, at \$3 62 1/2 doz.

YEAST POWDERS—Imports from January 1st to January 31st: Cases, 1175. There is scarcely any inquiry. The sales are very meagre at our quotations for Donnelly & Co's and Preeton & Merrill's, which are the leading brands.

DOMESTIC PRODUCE.

Business has been limited, with the exception of large purchases of Wheat, made chiefly in the country for city delivery, at very full prices. These were made chiefly for English account, and will go forward at an early day. Since our last the Peruvian has sailed for Liverpool with a full cargo of Breadstuffs, consisting of 25,740 sbs Wheat, 3,600 hf and qr sbs Flour, 570 bags Upper Ora, 200 basks Quaker, and 34 bales Wool, valued at \$90,000.

The Monitor for Victoria, V. I. carried 6,000 1/2 sacks Flour. The Josephine for Shanghai carried 1050 bbls and hf bbls Golden Gate Mills Flour, also an invoice of the same in this class. The Naramis for Victoria had a large cargo consisting in part of 400 hf and qr sbs Flour, 322 sbs Wh at, 175 sbs Barley, 445 bags Beans, 161 bks Butter, 75 casks Lard, etc. The Bark Denmark for Punta-Rotas had 1500 hf sbs Flour, etc. The Stadt Assen for Cape Town had 1800 hf sbs, 800 qr sbs Flour, 10,120 sbs Wheat and 139 sbs Bean. Besides these exports several minor invoices of Breadstuffs have gone to Mexico and the North Coast.

The fine new Boston ship Agra has been chartered to load Breadstuffs for Liverpool, and will go forward in Falkner, Bell & Co's line. She will carry upward of 41,000 sacks Wheat, etc. A very considerable portion of her cargo has already been secured 11 the interior at current rates. The ship Messenger has been chartered to lead for New York, in Moore & Co's line. She will carry 04, Hides, Copper Ore, S. Drills Turpentine, etc. The Mucklenburg ship At Mecklenburg has also been chartered to load Grain for Melbourne. The George Lee, to Hongkong will take more or less Flour and Wheat.

There has been but little demand for Barley even at the reduced rates now current. In fact, there are more sellers than buyers at the decline. Oats have been largely do it in a very full price, closing firm at our highest quotations. Corn and Cornmeal are quite neglected, and prices nominal.

The export demand for Flour is good for superfine, while for extra brands the sales are chiefly confined to local wants, and prices rather favor the buyer. Extra brands for export can be purchased at \$5 75¢; superfine, \$4 90¢ \$5, with occasional parcels of choice city brands at \$5 25¢ to \$5 57 1/2.

The Josephine for Shanghai took an invoice of various kinds of meal for family use from the Alta Mills. In fact the entire cargo of this vessel was of native production including Wines, etc.

The Potato market is very feebly supported, ruling at 1 1/2¢ to 2¢. Hay is in letter request. Beans are neglected. Dry Hops are saleable at 13¢ to 14¢ on the average.

FLOUR—1000 qr sbs superfine Golden Gate Mills, \$5 37 1/2; 500 do do export Sulun, 5¢ 50; 2,000 do do Vallejo Mills superfine for extra, \$4 50; 500 do do Alviso Mills, \$7; 1000 do do Golden Gate Mills, \$5 25; 1200 do do National Mills, \$6 25; 1000 do do Golden Age Mills, \$5 25; 800 do do Commercial extra, \$4 25; 6000 hf do superfine for export, private.

WHEAT—50,000 sbs here and to arrive. For export, at \$1 75 to 1 85; 2750 do choice milling, \$1 82 1/2; in drills sacks 2500 sacks milling, \$1 6 1/2 to 1 65.

BARLEY—1000 sbs repacked at \$2 10¢ to 2 20— the latter at extreme price for brewing.

OATS—400 sbs sold at 2 1/2¢ to 2 1/2¢, closing firm at 3¢, with sales.

HAY—Cargo sales, \$13 to 15 for common to good; Choice, \$17.

HIDES—Sales 1500 Dry, at 13¢ to 14¢.

SKINS—1000 sbs repacked at \$2 10¢ to 2 20— the latter at extreme price for brewing.

BEANS—200 sacks White Pea, 3 1/2 to 3 1/2¢; 100 do Bayos, 5; 100 do Pink, 3 1/2 to 3 1/2¢.

RECEIPTS OF DOMESTIC PRODUCE.

This following is a statement of the receipts of Domestic Produce in this market for the past week and the total for the last three years, from July 1st to the corresponding date each year.

ARTICLES OF PRODUCE.	For the week ending Feb. 1.	From July 1st to Feb. 7.			From July 1st to Feb. 8.			From July 1st to Feb. 9.		
		1883.	1884.	1885.	1883.	1884.	1885.	1883.	1884.	1885.

Hay, bales.....	1,603	117,339	104,958	108,061						

FINANCIAL.

Our latest advices from Eastern markets are to 13th nitino by mail and to 9th inst. by telegraph. From the former we learn that the apathy so long prevailing in all departments of trade had given place to very great and general activity. Speculative operations upon the Stock Exchange had been almost unprecedented, and in many leading articles of both Foreign and Domestic merchandise a similar degree of animation existed. Prices were tending upwards. Some descriptions of Stocks had advanced as much as 20 per cent; these, however, were of the cheaper class, whilst the higher priced and Government's, though participating to some extent in the movement, had experienced less advantage—and were, in fact, often quite irregular and feverish, rising 1/4 per cent, at the morning board and declining again to previous quotations in the evening. The magnitude of business transactions during this period of excitement may be inferred from the daily exchanges at the Bank Clearing House, which had reached \$12,000,000—a figure but slightly surpassed during the wildest frenzy of the preceding spring and early summer.

But there were some features of this excitement which claim a moment's consideration. In the first place it was predicated upon no actual increase of issues—it was purely speculative, though based upon the certain operation of well known principles. Fluctuations, therefore, may be looked for. While the general tendency is upward, Gold will no doubt occasionally recede. Being at present, perhaps, prematurely elevated by speculation or apprehension, rather than by the actual necessities of trade, it will vibrate as those causes act upon it with a greater or less degree of force, influenced as they will be by political changes and the fortunes of war. At the date of our mail advices it was generally conceded that Gold would go to 60 per cent premium, and among the mercantile classes investments were made in it as "an insurance against the depreciation of bank balances and bills receivable. Merchants were buying the Gold outright, lodging it in bank and keeping it there, without regard to the fluctuations of the market." For the same reason they were converting their currency funds and receivables into merchandise and other property, causing the increased activity in those articles alluded to in market reports.

Secondly, we observe the neglect of Government Securities, which, though slightly improved, were not buoyant, as compared with other securities. While the latter had advanced largely within two months past, and especially of late, U. S. 6 per cents were at least 3 per cent lower than in November. This is doubtless partly owing to the fact that the amount of negotiable Government issues is too great to be wielded by speculators; they naturally prefer the bonds or shares of States or Corporations, that are in smaller volume and can be more readily controlled—the intrinsic value being apparently a matter of less concern. "Cheap Stocks," says the New York Herald, "some of which have really no value whatever, appear to take the fancy of speculators more readily than more valuable securities." They can be manoeuvred more readily and subjected more perfectly to the peculiar tactics of the profession. But beyond this, there is unquestionably a growing distrust in regard to National Securities arising from the extremely unsettled aspect of public affairs, coupled with the assurance that existing issues, however large, are certain to be indefinitely but vastly augmented. It is true that this feeling of distrust would be materially modified and abated by important successes to our arms. The public disappointment, however, in regard to such events has been so frequent, so painful and so humiliating, that expectation falters.

The National Bank Currency project of Mr. Chase had met with little favor in Congress, the Committee of Ways and Means declining to embody it in their financial programme. It is stated that the Secretary had visited New York for the purpose of conference with leading financiers, in the hope of overcoming their repugnance to it, and creating a more favorable impression; but his hopes had not been realized.

The magazine from which we have quoted above contains the following remarks in regard to this project: "The Secretary contends that his paper currency, which inflicts such heavy burdens upon the people, is money obtained without interest, and he cannot therefore admit that it imposes a tax of 30 per cent upon every individual. Nevertheless, he is very willing to forgo the borrowing without interest, in order to issue the notes through the banks. He states that the \$250,000,000 notes outstanding are a loan without interest. He asks that those notes be converted into a 6 per cent stock, which shall be the basis of bank issues to the same amount, redeemable in Government notes. In other words, he wishes to pay the banks \$15,000,000 interest in Gold annually—equal, at the present rate, to \$20,000,000 in paper—on those stocks, on which the banks may issue \$250,000,000 of their paper without interest, and redeemable only in Government notes. If the bank notes are to be based on the Government notes, why not allow the latter to remain as they are, without paying the bankers \$15,000,000 per annum in Gold to issue substitutes? Inasmuch as on the proposed plan there is to be no limit upon the irredeemable issues

of the banks, the depreciation of the currency would continue to inflict immense burdens upon the people."

In regard to the resumption of specie payment by the Banks of New York, the Superintendent of the Banking Department at Albany thus speaks:

How soon the Banks will be in a condition to resume the payment of their obligations in specie it is impossible to determine. Certainly not until the "legal-tender" notes shall be withdrawn from circulation and the Government re-urns to the redemption of its issues in coin. Under the present aspects of the Treasury Department, with a prospective engraving and printing establishment in operation in the attic, a paper depository in the basement and an officer intermediate, who deals out innocuous promises to pay at the rate of a million and a half dollars per avoirdupois, a sad commentary will be presented on the constitutional prerogative to "coin money and regulate the value thereof and foreign coin." Let us hope that the present unnatural rebellion being subdued peace will once more visit our distracted country, and that with its dawn, we shall again return to the use of the true measure of value, both in corporate and governmental payments.

On the alleged redundancy of the currency he observes: No better barometer whereby to measure the state of the currency can be found than the returns made to this department, and these indicate most clearly that as yet no redundancy of the currency exists. Indeed, the capability of this department to meet the demand for notes was never more severely tested than it has been during the last nine months. Nor was it the result of a factitious demand. The banks found themselves embarrassed in the transaction of their business by the want of currency to meet the daily requisitions. Every soiled and mutilated note, capable of service, was brought into use, and the banks of the East were literally besieged for currency wherewith to move the crops of the West. Engagements were made weeks in advance by those wanting currency, in order to secure a supply, and numerous facts might be adduced to prove that with all the issues of the government and the banks the volume of currency was not in excess of the wants of the country. Adequate grounds for this unusual demand may be found in the withdrawal of all the specie from circulation; in the abolition of the entire bank note circulation of several of the Western States, consequent upon the failure of local institutions; in the vast sums required for the payment of the government to the country; in the immense purchases of agricultural products by the Government; in the enhanced prices of those products, calling for vast sums both in payment and for their transportation; and by the fact that nearly the entire business of the community has, during the past year, been transacted upon a cash basis.

These two extracts are hardly consistent with each other, for if the currency is not redundant the fling at the Treasury Department has little force, and we may ask, if there is really no more currency than the public requirements demand, why has it depreciated?

Money is said to have become easier, with large amounts offering on Call at 5 per cent. per annum—@ 7 per cent are the quoted rates for prime paper. The policy of Government is adapted to cheapen money; holders of currency, under existing circumstances, are very naturally inclined to exchange it for something else.

Our latest telegraphic advices are to the following purport:

New York, February 7.—Money easier. Sterling Exchange dull, 171@172. Gold, 166½; Demand Notes, 15½; U. S. Sixes of '81, 94@94½; 7-3-10 Treasury Notes, 101½@102; California Sevens, 131.

We are further advised of modifications in the Senate of the Finance bill of the House Committee on Ways and Means, but the information is indefinite; judging from the tenor of it, however, it would seem that the amount of Legal Tenders to be authorized had been curtailed; also that speculative transactions in Gold are to be taxed, for the special benefit of our great staple, to check trade in it and keep it from advancing under the influence of laws more potent than decrees of Congress.

Our money market has undergone no change since last steamer day. The partially increased demand, then noticed still continues, and as then observed, is of a character quite acceptable and satisfactory to money lenders. The rates are 1½@2 per cent. per month, the inside figure predominating, especially for large sums; though we have heard of amounts of some magnitude and of good paper, and with rather more than the usual time to run, offering at 2 per cent. The mercantile classes are generally easy; in fact, we hear of no complaint from any quarter, and the amount of capital at hand is quite ample.

Receipts from the Interior and Northern coast since our last report have been about \$1,200,000, of which \$200,000 were in coin. The Mint has taken but about \$90,000 and the supply of Bullion on the market is greater than at that time, but still short of the probable requirement of shippers. We doubt if more than \$700,000 will be found accessible, unless the recovered treasure from the wreck of the Golden Gate (somewhat \$320,000) is placed on the market, which is hardly probable, as judicial action must be had before it can be disposed of. Sales of Gold Bars are reported at 900, which is probably the top price to-day. We hear of no variation in Silver Bullion.

Exchange on the Atlantic cities remains at about the figures ruling on last steamer day. To-night's despatches, however, may cause some variation in the price of Currency Bills. They now range at about 40@45 per cent premium on Gold, or the equivalent discount from face of Bill, according to the method of computation. Coin Bills are held at 5@6 per cent premium; Sterling, at 47@47½ for bankers'. We hear of no Commercial Bills of any description offering.

Legal Tenders are in better demand, and may be quoted at 63@65.

Mexican dollars are selling at 9@10 per cent. premium

The Imports of Treasure from 1st Inst to date were as follows:

February 7—Per Constitution from Manzanillo, recovered from wreck of Golden Gate... \$300,000 00
February 7—Per Constitution from Manzanillo, Mexican Dollars... 125,821 50
Total... \$425,821 50

The exports of treasure for same period and since January 31st, were as follows:

January 31—Per Sonora—
To England... \$1,137,679 77
To New York... 278,476 69
To Panama... 5,000 00
To Pinar del Rio... \$1,470,067 46
February 6—Per Sonora, to Philadelphia... 5,000 00
Previously this year... 4,367,720 70

Total since January 1st... \$5,818,888 16
Corresponding period of 1862... 4,978,493 71

Excess this year... \$870,394 45

The following were the balances in the State Treasury at the close of business January 31st, 1863:

General Fund... \$51,569 92
School Fund... 59,425 70
Hospital Fund... 6,727 63
Library Fund... 1,941 46
Interest and Sinking Fund, 1857... 339,806 56
Interest and Sinking Fund, 1860... 5,240 87
Swamp Land Fund... 13,225 29
School Land Fund... 28,364 00
Estate of Deceased Persons... 109 33
Seminary Fund... 539 53
Public Building Fund... 235 27
National Tax... 177 21

Total on hand... \$717,510 99

We are indebted to Mr. John Perry, Jr., for the following report of Stock transactions:

The Stock market has continued active during the past week and closes at an advance in prices for the principal Stocks on the list. There is a growing disposition to invest and speculate in Mining Stocks, and we reasonably expect a much greater advance during the present season.

The following comprises some of the principal sales of the week: 25 feet Opilar Silver Mining Co.'s Stock at \$2,500@2,600 per foot; 20 feet Gould & Curry at \$3,150@3,200 per foot; 30 feet Wide West at \$330@370 per foot; 21 feet Chollar at \$50@60 per foot; 400 feet Utah at \$9@10 per foot; 300 feet Sierra Nevada at \$60@70 per foot; 20 feet Savage Co. at \$1,000@1,100; 50 shares San Francisco Gas Co. stock at \$100; 100 shares State Telegraph stock at 2½. Market closes very firm.

Freights and Charters.

The supply of tonnage is liberal. The arrivals from home and foreign ports have been numerous.

The following are the freight engagements, so far as made public. The new Boston ship Agria has been chartered to load Wheat for Liverpool, at £2 5s; ship Messenger, for New York, on terms withheld; Mecklenburg ship A. T. Mecklenburg, to load grain for Me Bourne, on private terms.

The ships Viking and George Lee have been laid on for Hongkong. The Golden Fleecy is advertised for Manila, seeking. The Southern Cross has sailed for Mazatlan and other Mexican ports, under a charter, to load Dye Wood; thence to Cork and a market. The bark Emily Banning goes to Shanghai via Japan.

The bark Antire, reg. recently from Malaga, is reported sold to Messrs W. Brooks & Co. for \$11,200.

The destination is unknown of the following vessels:
Ships Ocean Pearl, Isaac Jeans, Arcey, Amethyst, Wild Rover, Sardinian and Union; barks Cambridge, Onward, Frances Palmer, Mandarin, A. J. Ramos, Zilba, Catalina, Scotland and Charlotte Andrews; brig Ida D. Rogers, Alhorta, Alhondra; schooners Ella Florence, Potter Olivia and Golden Star.

SHIPPING REGISTER.

Arrived.

JAN 30—Ship Amethyst, Trask, 14 days fm Bellingham Bay; coal to Shuciar & Moody.
Bark Ella Frances, Nickels, 17 days fm Port Orchard; lumber to Renton & Howard.
Bark Royal, Blair, 13 days fm Port Discovery; pass and lumber to S L Mastick & Co.

JAN 31—Ship Agria, Evans, 150 days fm Boston; mds to Stevens, Baker & Co.
Bark Amatia, Noyes, 10 days fm Columbia River; lumber to H Clark.
Bark Vernon, Greenleaf, 15 days fm Teakale; lumber to Pope & Talbot.

FEB 1—Brig Advance, Wing, 11 days fm Port Madison; lumber to C Hare.
Schr Brilliant, Williston, 10 days fm Coose Bay; lumber to S Perkins.
Schr Louise, Hansen, 36 hrs fm Tomales; produce to H Lamb & Co.

Schr J R Whiting, Smith, 2 days fm Mendocino; lumber to J T Pennell.
Schr J H Roscoe, Smith, 24 hrs fm Santa Cruz; produce to N Pierce.
Schr S F Blunt, Morgan, 30 hrs fm Albion River; lumber to A W Macpherson.

FEB 2—Stmr Salinas, Sudden, fm Salinas River, via Santa Cruz 12 hrs; produce to Brennan & Co.
Brig Quady Belle, Dehney, 30 hrs fm Novarra River; lumber to H B Tichenor & Co.
Schr C P Heustis, Fisher, 30 hrs fm Noyo River; lumber to A W Macpherson.

Schr Umqua, Ball, 12 hrs fm Tomales; produce to Reynolds, Howell & Ford.
Schr J A Bayard, Robbins, 24 hrs fm Fish Rock; lumber to J P Zane.
Schr Adrianna, Hohron, 40 hrs fm Santa Cruz; lime to Davis & Jordan.

FEB 3—Bark Onward, Goff, 11 days fm Nantimo; coal to D Churchill & Co.
Bark Adelaide Cooper, Dindey, 13 days fm Port Ludlow; lumber to Amos, Finney & Co.

FEB 4—Brish ship Sardinian, Sheridan, 51 days fm Hongkong; mds to Keopmischap & Co.
Bark Emily Banning, McKinnon, 44 days fm Shanghai, via Danagawa 33 days; mds to McRuer & Merrill.
Brig Timandra, Turner, 32 days fm Kanagawa; mds to C W Brooks & Co.

Schr Osceola, Anderson, 20 hrs fm Russian River; lumber to H B Tichenor & Co.
FEB 5—Ship Ocean Pearl, Crowell, 162 days fm Baltimore, via Cape Henry, 155 days; coal to A B Forbes.
Hamb brig Alenta, Holst, 154 days fm Hamburg; mds to Zieg, Horthorn & Co.
Brig Energy, Grey, 4 days fm Coose Bay; coal to H Lamb & Co.

Schr Olivia, Redfield, 16 days fm Lahaina; sweet potatoes to G M Bowen.
FEB 6—Brstmr Robert Lowe, 3 days fm Victoria; pass to Maconrady & Co.

Ship Isaac Jeans, Stinson, 173 days fm New York, via Rio de Janeiro 100 days; mds to DeWitt, Kittle & Co.
Coal bark Catalina, Demoro, 53 days fm Guatemala; sugar and coffee to N Larso.
Bark Frances Palmer, Perlman, 72 days fm Manila; sugar and coffee to C Adolph Law & Co.

Brig Susan Abigail, Winding, 30 hrs fm Novarra River; lumber to H B Tichenor & Co.
Schr Golden State, Gage, 21 days fm Scammon's Lagoon; salt to Wilson & Stevens.
Schr J K Mansfield, Hardwick, 2 days fm Albion River; lumber to A W Macpherson.

Schr Sarah, Bingham, 24 hrs fm Timber Cove; lumber to order.
FEB 7—Stmr Constitution, Watkins, 13 days 9 hrs fm Panama; pass and freight to A B Forbes.
Stmr Salinas, Sudden, 11 hrs fm Salinas River; pass and freight to Brennan & Co.

Ship Arcey, Starkey, 154 days fm New York; mds to Wm T Coleman & Co.
Frish ship Union, Debot, 139 days fm Bordeaux; mds to A E Seabrook & Co.
Ship Shawmut, Merrill, 71 days fm Newcastle, N S W; coal to Maconrady & Co.

Br bark Zillah, Jones, 135 days fm Liverpool; mds to Dupuy, Fontkes & Co.
Br bark Charlott Andrew, Webb, 63 days fm Newcastle, N S W; coal to Maconrady & Co.
Brig Ida D. Rogers, Norton, 45 days fm Iquique; nitrate of soda to A D Biddle.

Schr European, Foote, 15 hrs fm Bodega; produce to Reynolds, Howell & Ford.
FEB 8—Ship Wild Rover, Crowell, 121 days fm Boston; mds to Flint, Peabody & Co.
Brig Janner, Robbins, 13 days fm Seabeck; lumber to Adams, Blinn & Co.

Schr Horace, Lent, 24 hrs fm Tomales; produce to Geo Keyes & Co.
Schr Louise, Hansen, 15 hrs fm Tomales; produce to Master.

FEB 9—Stmr Sierra Nevada, Connor, 3½ days fm Victoria; pass and freight to J Holladay.
Stmr Senator, Seeley, 3 days fm San Diego; pass and mds to S J Hensley.
Schr Ar West, Mason, 24 hrs fm Novarra River; lumber to H B Tichenor & Co.

Cleared.

JAN 30—Bark Naramisic, Willoughby, Victoria and Port Angeles; John Dewar.
Brig Boston, Morton, San Pedro; N Pierce.

JAN 31—Ship Ocean Express, Watson, Callao; DeWitt Kittle & Co.
FEB 2—Ship Peruvian, Sargent, Liverpool; Dickson, De Wolf & Co.

FEB 3—No clearances.
FEB 4—No clearances.
FEB 5—Stmr Oregon, Wakeman, Mazatlan; J Holladay.

FEB 6—Dan bark Denmark, Wilson, Punta Arenas; Rodgers, Meyer & Co.
FEB 7—Stmr Pacific, DeWolf, Portland and Victoria; S J Hensley.
Ship Southern Cross, Howes, Mazatlan; Stevens, Baker & Co.

Bark Ocean Bird, Hall, Victoria and Port Angeles; John Dewar.

FEB 9—Ship Archer, Cressey, Kanagawa; Flint, Peabody & Co.

Review of the Market FOR THE TEN DAYS ENDING MARCH 9th, 1863.

Another interval of very pleasant weather has contributed slightly to the improvement of trade, but the season is yet too early for any general resumption, and the lapse of about three weeks without any rains worthy of note is causing some disquiet and complaint among farmers. The late sowed Grain in some very large and important districts does not look promising; but we may reasonably expect heavy showers during the present month. A wet spring usually compensates for a dry winter.

The improvement in trade, alluded to above, is still chiefly in the direction of Oregon and the North Coast. All our coast trade is improving, but the northern portion of it is making strides which have greatly exceeded the expectations of all engaged in it. The consumptive wants of that region are augmenting in a ratio that indicates a very large and stable growth of material interests—population, mining operations, agriculture, manufactures, commerce and internal improvements. We observe the opening of a new commercial port on Baker's Bay, near the mouth of the Columbia river, which is said to possess very great advantages, and is attracting a good degree of attention on the part of adventurers who have intelligence, influence and means to develop those advantages if real, and of the commanding superiority claimed for them. A little time will show whether the new "Pacific City," as it is to be called, is or is not an ephemeral affair, and doomed to disappoint the expectations of its founders.

Stocks of Merchandise have been fairly increased by fresh arrivals since our last report, and in glancing at the transactions of the period we observe no special change in the general aspect and tendencia of the market since that date.

Candles have been in moderate demand, and prices feeble. Some improvement in the demand for Coffee is reported, but without change of value. But little has been done in Coal. Cordage is firm, under the impression that supplies are short. The Dry Goods market is in a healthy state, particularly for all Cotton fabrics, both Foreign and Domestic.

Fish, Fruits and Saucers are without material change. Metals are quiet; Scotch Pig Iron rather lower. There is nothing doing in Naval Stores; nor in Oils, with the exception of Downer's Kerosene, which is in more favor and has met with some enquiry for export. Puin has advanced slightly. There has been some movement in Eastern Meat Provisions, at low prices, with the view of concentrating old stocks. Butter, Cheese and Lard are drooping. Rice remains without any signs of animation. Sales of Spices are reported at lower rates.

Sugars of all kinds are flat; sales light. In Syrups more has been done, but at reduced figures. Holland Gin and Foreign Brandy have changed hands to a moderate extent. Domestic Spirits are firm and market buoyant, notwithstanding the failure of expected excise measures. There is some improvement in the Tea trade, but no change of value. Tobacco is in more demand, especially the lower grades.

Large transactions are announced in Champagne Wines, both here and to arrive; and in Cask Claret, but the latter at low figures. In Red Chile and in Native Wine there has been an active trade. Details will be found below.

The arrivals from supply ports have been as follows: Ship Starlight, with assorted cargo, from Beaton; ships Lookout and Great Republic, with ditto, from New York; Osborne Howe, with Sugar, from Manila; Barks Yankee, with island produce, from Honolulu; Mary, with Coal, from Bellingham Bay; San Francisco, with same, from Nainimo; Henry Miller, with same, from Newcastle; Mathias Salvinus, with Fruit, from Tahiti; and steamer Oregon, with specie, from Mazatlan.

BREAD—The Export trade in this article is fast becoming an important feature of the commerce of this port. China, Japan, Australia, New Zealand, and the Islands of the Pacific all draw largely upon us for their supplies of Ship Bread and Crackers. Besides Victoria and Oregon upon the north, Mexico and Chile, etc., upon the south, look to us for more or less, added to which are the demands of our army and navy, and the frequent visits of foreign vessels of war to rent and victual, particularly those from the Russian Possessions north, which have hitherto been large customers in this line.

The sales for the week are 75,000 lbs assorted Cakes and Crackers, in cases, at 6 to 9c lb; 125,000 lbs Pilot and Navy, within the range of our quotations.

BAGS AND RAGGING—There is considerable inquiry for Burans, but the sales of Burlap Sacks so far as reported are of little moment. 2,000 Burlap Wood Sacks (hand-sewed English) have been disposed of upon private terms, but quotable at about 80c@85c, according to size and quality.

BOOTS AND SHOES—Imports from January 1st to February 25th, 6,834 pairs. There is quite a notable improvement in the jobbing trade, chiefly from Oregon and the North Coast. At auction, sales are free at low prices, with every prospect of a large business in the line during the approaching season. At the close, and as we write, a large auction sale of fresh stock is in progress, and going at less than Eastern manufacturers prices.

CANDLES—Imports from January 1st to February 25th: Boxes, 125; half boxes, 3,691; cases, 25. The demand at best is but limited. The aggregate sales in lots to the trade of all the various standard brands of Adamantine will fall short of 4000 boxes at the uniform rate of 18c lb; 600 do Grants, 17c. At auction 50 boxes Sperm, "as are," 25@27 1/2c.

COFFEE—Imports from January 1st to February 25th: Manila, lbs., 27,600; Sandwich Islands, lbs., 69,240; do bags, 1,300; Costa Rica, bags, 1,000. As we write the Osborne Howes is at hand from Manila with 2100 bags. We note a slight increase in the jobbing demand for a series in the aggregate of 500 bags kilo at 23c@30c; and 200 bags Costa Rica at 30c@31c kilo. Also, 9000 lb Kona ex Yankee at 30c.

CIGARS—We note sales 100,000 Swisa at \$16.50. Also, at auction, 36,000 do, as are, \$5 75 lb M.

COAL—Imports from January 1st to February 25th: Anthracite, tons, 12,957; English, tons, 906; Cumberland, tons, 200; do casks, 86; do casks, 669; Coast, tons, 1960; Chile, tons, 903; Vancouver, tons, 1873; Sydney, 1780; China, 134.

In the absence of any important arrivals, we have but few sales to record. Market values appear to be unchangeable for a fortnight. The transactions embrace 161 tons anthracite ex Starlight, at \$1.50 per ton; 230 tons Lehigh, ex Union, and 100 tons scotch, per same vessel, on terms withheld; 119 bids Cumberland, ex Prima Donna, at \$3.00 per ton; and 40 tons, ex Marie, private. The stock of Cumberland in bulk is excessive, quotable at \$2 1/2 per ton, and in casks, \$2 1/2.

The Great Republic, just at hand, in a passage of 102 days from New York, adds about 2,000 tons Anthracite to our supply. The market for all kinds of foreign coals very flat.

CORDAGE—Imports from January 1st to February 25th: Coils, 2,802. Holders of Eastern laid Manila are very firm in demanding 13c lb; but thus far we have heard of no sales at over 12 1/2c lb, which latter must be considered as the market price of the day. The domestic supply is at the moment quite limited. We are without sales of any magnitude to record, but the tendency of prices is decidedly upwards. As we write, the Osborne Howes is at hand with 800 bales Hemp, to the Cordage Factory.

DRY GOODS—The jobbing trade is reviving, the chief demand at the moment being from British Columbia and Oregon. We have to note, however, a single purchase of 40,000 yards English Cottons, for Mazatlan, on terms reserved. There has also been a good inquiry for bleached Cottons, with sales of 50 cases for shipment to New York via the Isthmus, and a few sales of like descriptions for investment, (to hold for a rise,) within the range of our quotations. At auction, for account of underwriters, 65 bales standard Drills, received via a ship per Sardinia, badly damaged, sold at 45c; 34 do do, as is, 14 1/2c; 54 do do, 16 1/2c; also 12,000 yards English Drills, for same account, 12 1/2c; besides a small invoice of damaged Brits and Sheetings, at 10c@12c per yard. A small public offering of Cotton Duck no in order, commanded 45c@55c. At the close there is a good export demand for Cottons in bond, for 40,000 yards and sheetings, at full prices; 173 bales English Gauzes, ex Frances Farmer, from China, sold at \$15.50 per bolt.

DRUGS, &c.—At auction, 438 lbs Saleratus, 12 lbs each, Babbitt's, 10c@11c; 190 do Carb Soda, each 12 lbs Babbitt's, 11c. At private sale, 100 35-lb boxes saleratus, 11c; 230 lbs English Sal Soda, and 20 casks Soda Ash, on terms reserved, but within our range.

FISH—Imports from January 1st to February 25th: Cod, crams, 395; Mackerel, lb-bills, 269; do jr bills, 26; do kits, 244. The sales are confined to jobbing lots of Codfish recently by hand to the extent of 100 drums, "as are," chiefly at 1c lb. It is a long time since we have had any parcels with firm prime condition, most of our supplies during the past 6 months being more or less sweetened. 200 kits No. 1 Mackerel, \$2.25.

FRUITS, SAUCES, ETC.—Imports from January 1st to February 25th: Dried Apples, lb-bills, 1165; nuts, casks and lids, 173; bales and bags, 150; Raisins, 18,460 boxes; Currants, bills, 75; Figs, casks, 20; Lemons, cs, 650; Prunes, cs, 81; other kinds, bxs and cs, 26,817.

From Tahiti we have the first cargo of Oranges of the present season, 250,000 per Matherly, which sold on private terms, but may be quoted at \$37.50@40 per M—jobbing at \$50. We note sales 100 cs Lea & Perkins Worcester Sauce, at agents' rates. There has been a slight increase in the demand for Canned Goods at the north coast trade, at our quotations. The sales embrace 70 cs Kemp's Tomatoes; 100 cs Harrison's and 100 cs Lebrun's Steamed Oysters; 50 cs Chicken, etc., all upon private terms; 500 kits, 5 and 10 gall each, Boston Crauberrries on terms withheld; 100 bxs Layer Raisins, via Isthmus, \$4.37 1/2. Zante Currants are lower, with sales 100c@11c. At the close 100 cs McMurray's Oysters sold at \$4.50.

LUMBER—Imports from January 1st to February 25th: Boards, 4318; blinds, bbls, 1896; Sash, bbls, 269; bbls and pcs, 4134; Domestic Lumber, feet, 11,607,000. The market is weak and prices favor the buyer. Small cargo sales Redwood may be noted at \$19 for rough, \$29 per M for dressed.

MARBLE—At auction, sales 80 lbs Italian, 3-inch, \$1.12; 4318; blinds, bbls, 1896; Sash, bbls, 269; bbls and pcs, 4134; Domestic Lumber, feet, 11,607,000. The market is weak and prices favor the buyer. Small cargo sales Redwood may be noted at \$19 for rough, \$29 per M for dressed.

METALS—We report sales 103 tons Scotch Pig Iron ex Jasper, in lots at \$50. At the close, \$47.50 is an outside quotation.

NAVAL STORES—Imports from January 1st to February 25th: Oakum, bales, 740; Tar, bbls, 290. Nothing of great sales has transpired in any description. Oakum is saleable at 9c per lb. At the close, 4500 gals Spirits turpentine are reported sold for re-shipment to New York at \$2.

Table listing various goods and their prices, including Van Ilagen's do, Colgate's Pale, Do Chemical O, English Yellow, White, and various types of Spices like Cassia, Cloves, Nutmegs, and Mustard.

Table listing various types of Spirits and Turpentine, including DUTY 15 GENS PER GALLON, Bbis 7/8 gall, Cases, and Sugar in different quantities and grades.

Table listing various types of Starch, including DUTY 20 PER CENT AND 30c lb, and different brands like Glenfield Patent, Kingsford's, Colgate's, Pearl, and Durva's.

Table listing various types of Teas, including Young Hyson, Gunpowder, Imperial, Canton made cases, and different grades of Oolong, chests and boxes, and chests and lb papers.

Table listing various types of Brandy and Cognac, including Brandy 50, Spirits distilled from grain, and different brands like Sazerac, Jas Hennessy, A C Godard, and others.

Table listing various types of Tobacco, including DUTY: Unmanufactured 25c, Manufactured 35c, and different brands like Half lbs, Western, Virginia, Kentucky, and Anderson's.

Table listing various types of Brandy-Robelle, including Chas Dupont, Pellevoisin, A. Selgnette, Arzac Selgnette, and others.

Table listing various types of Gin, including Fine Apple, Steamboat, Double Eagle, Swan, Strawberry, and others.

Table listing various types of Whisky, including Scotch, American, and different brands like James Watson, Co's Imperial, and others.

Table listing various types of Whisky, including Scotch, American, and different brands like James Watson, Co's Imperial, and others.

Table listing various types of Wooden Ware, including Hooped Pails, Patent Paint, and other items.

Our latest advices by telegraph, are to the following purport:

New York March 7.—Gold, 154½; 6's of '81, 100½; 7's-10 Notes, 104½; Certificates, 98½; Pacific Mail, 169; California 7's, 132.

Private advices quote Gold at 155, and Sterling 170—showing a very decided reaction within 24 hours. The specie exports of that day were reported at over \$1,000,000, and indicate an increased movement. The \$1,000,000 sent from the Sub-Treasury in this city, arrived safely per Northern Light, under convoy of the Connecticut.

There has been a steadily improving demand for money in this market since our last reference, attributable to the same causes then alluded to, namely: Speculations in Mining Stocks. As on former occasions so now, this movement includes all classes of our citizens. Merchants, professional men and capitalists are putting their funds into shares. Laboring men and clerks are doing the same. New companies are being formed by the score. As a matter of course under such circumstances, cheap stocks are advancing handsomely, without that regard to merit which prudence would dictate, but simply because the rush is so great; the improvement of one day stimulates to new adventures on the next. The result of all this will be a collapse by and by, and the laggards will be caught by the "gentleman in black." Capital is abundant for all legitimate wants, but as the season for spring trade approaches, the mercantile classes will have occasion to use more, and we may look for a more active market. Bank accommodations rule at 1½@2½ cent. for first class paper.

The receipts of Gold from the interior and mining districts since last Steamer Day have been about \$900,000, of which \$777,000 were in Bullion. The Mint has taken but about \$70,000. The demand for Bullion thus far has been very light, and this supply offering seems likely to prove adequate. Gold Bars range from \$70@90 fine. Silver is lower than on last Steamer Day—no sale reported at over 7½ cent premium, and ranging from that to 3½ cent. discount. The Gould & Curry Company have sold about \$90,000 during the period under review.

Exchange on the Atlantic cities is again unsettled—at least, as regards currency bills, for which the rates will be largely advanced. Coin bills will run as on last steamer occasion, at 5@6 per cent. prem. Sterling at 47½@48½ for Bankers', and 48½@49½ for Commercial.

Legal Tenders jumped up from 58 to 78 very suddenly, on the receipt of advices from the East announcing the great decline in Gold. This advance has brought large amounts into market, and prices are heavy to-day, at 68@72.

Mexican Dollars are quotable at 92½@10 per cent. prem. The coinage of the Branch Mint in this city for the month of February was:

Gold—Double Eagles.....	\$250,000
Silver—Half Dollars.....	25,000
Dimes.....	7,750

Total.....\$282,750

The imports of Treasure from 1st list to date were as follows:

March 1—Per Neva from Mazatlan.....	\$9,000 00
March 1—Per Golden Age, recovered from wreck of Golden Gate.....	72,000 00
March 7—Per Oregon from Mazatlan.....	84,814 00

Total.....\$248,814 00

The exports of treasure for same period and since February 27th, were as follows:

February 27—Per steamer Robert Lowe to Hong-Kong.....	\$517,044 60
March 2—Per Golden Age.....	\$711,672 66
To England.....	193 93
To New York.....	154,661 65
To Panama.....	5,000 00

Total since February 27th.....\$1,887,378 91

Previously this year.....9,310,420 68

Total since January 1st.....\$10,698,799 59

Corresponding period of 1862.....6,647,661 96

Excess this year.....\$4,051,137 63

The following were the balances in the State Treasury at the close of business February 23th, 1863:

General Fund.....	\$50,653 80
School Fund.....	32,838 15
Hospital Fund.....	14,400 86
Library Fund.....	1,879 71
Interest and Sinking Fund, 1857.....	252,430 54
Interest and Sinking Fund, 1860.....	5,766 83
Swamp Land Fund.....	10,789 36
State School Land Fund.....	2,246 63
Estate of Deceased Persons.....	193 93
Seminary Fund.....	1,747 40
Public Building Fund.....	233 27
National Tax.....	8,719 19
Legislative Fund.....	83,951 41

Total on hand.....\$465,898 46

We are indebted to JOHN PENNY, JR., for the following review of stocks:

The Stock Market has been quite active the past week, particularly in mining shares; and a further advance has been established in all the leading stocks. Wide West stock advanced to \$500 per foot, early in the week, under false telegraphic reports. Since then it has again declined to \$400, and closes heavy at that figure. Considerable transactions have taken place in Antelope stock, at about \$400@410. Chollar has also advanced to about \$650 per foot; the Burnlog Moscow stock has advanced from \$100 to \$215@220 on account of the very rich discoveries made the past week on their claim, which is said to be even

richer than the Ophir lead. Some \$5,000 of our City 10 cent. were redeemed last week by the Fund Commissioners at par and interest. Small sales of City Sixes at 60 cents.

Freights and Charters.

Tonnage is still abundant, the arrivals being liberal both from home and foreign parts. The following vessels have been chartered during the past week for Liverpool, to carry Breadstuff: Ships Arey, 1034 tons, by Cross & Co. The Hornet, 1426 ton, by Dickson, DeWolf & Co. both at \$2 50 per ton. The Lookout, 1291 tons, goes to the coast of Mexico for a cargo of Dye Woods, thence to New York, at \$14 per ton, payable in gold. The Wild Hunter is up for Honolulu.

The ships Mameluke and Prima Donna are both under Eastern orders to load Guano at the Chimchas.

The bark San Francisco goes to the Albern Mills for a cargo of lumber, to a port in China, at \$30 M feet. The Yankee returns to Honolulu. The bark Onward is reported sold to Charles W. Brooks & Co., on terms withheld. The disengaged are as follows: Ships Great Republic, Minnehaha, Jasper, Union, Starlight, Wild Rover, Henry Brigham, Sardinian, Osborne Howes, Massachusetts, Briggs Maria, Mary, Henry Miller, Palmetto, Scotland, Frances Palmer, Mandarin, Metropolis, Onward, Nancymoff, Mathias Salvirinus; brig Kennerly, Ida D. Rogers, Josephine and Miranda; schooners Eliza, C. E. Foote, F. M. Smith, Joven Arturo, J. M. Chapman, Olivia, Potter and Sarah.

RECEIPTS OF DOMESTIC PRODUCE.

The following is a statement of the receipts of Domestic Produce in this market for the past week and the total for the best three years, from July 1st to the corresponding date each year.

ARTICLES	For the week ending March 7.	1862.	1861.	1860.
Flour, qr. sacks.....	9,926	475,162	323,557	378,717

Memoranda.

Per Starlight, at this port March 1, fm Boston—Was 34 days to the equator in the Atlantic; 30 days thence to lat 50 S; 12 days thence to lat 50 S in the Pacific; 22 days thence to the equator, and 23 days thence to this port.

Per Lookout, at this port March 2, fm New York—Was 27 days to the equator in the Atlantic; 29 days thence to lat 50 S; 15 days thence to lat 50 S in the Pacific; 30 days thence to the equator; 20 days thence to this port.

Per Great Republic, at this port March 7, fm New York—Sailed from New York Nov 24th; Dec 6th, lat 26 N, lon 38 W, was in company with ship Dashing Wave, from Boston for this port; crossed the equator in the Atlantic Dec 17th; was 50 days from New York to lat 50 S in the Atlantic; 12 days thence to lat 50 S in the Pacific; crossed the equator in the Pacific Feb 16, lon 117 W. 1st list, lat 38 N, lon 134 W, saw a bark standing N.

SHIPPING REGISTER.

Arrived.

Feb 28—Stmr Golden Age, Hudson, 14 days fm Panama; pass and freight to A B Forbes.

Brig Geo Emery, Gunn, 2 days fm Humboldt Bar; in ball last to Master.

Col schr Neva, Harloe, 18 days fm Mazatlan, via Santa Cruz 16 days; specie to Holden & Co.

Schr Alfred Adams, Hammah, 24 hrs fm Santa Cruz; lime to Davis & Jordan.

Schr J H Roscoe, Smith, 24 hrs fm Santa Cruz; lumber and produce to C Clayton & Co.

Schr Pride of the West, Harloe, 12 hrs fm Hallowood Bay; produce to C Clayton & Co.

Schr Cochief, Bruce, 30 hrs fm Pigeon Point; produce to Brennan & Co.

MARCH 1—Stmr Sierra Nevada, Connor, — days fm Victoria; pass and freight to J Holladay.

Ship Starlight, Howes, 121 days fm Boston; mdse to Meador, Lorier & Co.

Harb bark San Francisco, Bendixen, 16 days fm Nanaimo; coal to Master.

Schr Don Leandro, Jacobs, 12 hrs fm Fish Rock; lumber to J P Zane.

MARCH 2—Stmr Salinas, Sudden, 12 hrs fm Salinas River, via Santa Cruz; produce to Brennan & Co.

Ship Lookout, Sherwood, 11 days fm New York; mdse to A Dibble.

Bark Oak Hill, Mitchell, 14 days fm Teekalet; lumber to Pope & Talbot.

Schr Artful Dodger, Tract, 24 hrs fm Albion River; lumber for Sacramento.

Schr European, Foote, 20 hrs fm Bodega; produce to Reynolds, Howell & Ford.

MARCH 3—Bark Chas Devens, Reynolds, 13 days fm Port Madison; lumber to G A Meigs.

Bark Ann Parry, Gove, 21 days fm Olympia; lumber to G Chase.

Schr San Diego, Gregory, 10 hrs fm Bodega; produce to Reynolds, Howell & Ford.

Schr Louise, Hansen, 8 hrs fm Tomales; produce to Miller & Co.

MARCH 4—Brig Boston, Morton, 15 days fm San Pedro; mdse to Pierce.

Schr Sophie B, Wilson, 24 hrs fm Tomales; produce to Master.

Schr C P Heustis, Fisher, 24 hrs fm Noyo River; lumber to A W Macpherson.

Schr Adrianna, Iobron, 40 hrs fm Santa Cruz; lime to Davis & Jordan.

Schr Osceola, Anderson, 7 hrs fm Russian River; lumber to H B Tichenor & Co.

MARCH 5—Ship Coquimbo, Boyd, 15 days fm Port Angeles; lumber to G A Meigs.

Bark Mary, Brock, 17 days fm Bellingham Bay; coal to Sinclair & Moody.

Bark Yankee, Taylor, 16 days fm Honolulu; mdse to McRuer & Merrill.

Brig T W Lucas, Anderson, 11 days fm Port Madison; lumber to G A Meigs.

Brig Susan Alcala, Winding, 16 hrs fm Novara River; lumber to H B Tichenor & Co.

Schr J K F Munsfield, Hardwick, 18 hrs fm Albion River; lumber to A W Macpherson.

MARCH 6—Chile bark Mathias Salvirinus, Schmidt, 42 days fm Valparaiso; mdse to G A Low & Co.

Bark Nahumken, Gove, 15 days fm Port Orchard; lumber to Renton & Howard.

Bark Gold Hunter, Harrington, 13 days fm Port Madison; lumber to G A Meigs.

Schr Fannie Piper, Garcia, 18 hrs fm Noyo River; lumber to A W Macpherson.

Ship Mendocino, Foye, 18 hrs fm Mendocino; lumber to J T French.

Schr S D Bailey, Farley, 30 hrs fm Santa Cruz; lime to Samuel Adams.

Schr Union Forever, Coughell, 3 days fm Coose Bay; lumber to S Perkins.

Schr Olivia, Wise, 40 hrs fm Glassell's Landing; lime to Webb & Co.

MARCH 7—Stmr Senator, Sealey, 2½ days fm San Diego; pass and freight to S Hensley.

Stmr Oregon, Wakeman, 6 days fm Mazatlan; mdse to J Holladay.

Stmr Salinas, Sudden, 12 hrs fm Salinas, via Santa Cruz; pass and freight to Brennan & Co.

Ship Great Republic, Limeburner, 102 days fm New York; mdse to C A Low & Co.

Schr Cochief, Bruce, 12 hrs fm Pigeon Point; produce to Brennan & Co.

MARCH 8—Br bark Henry Miller, Hall, 70 days fm Newcastle, N S W; coal to Wm McCann & Co.

Bark Leonore, Arey, 20 days fm Port Gamble; lumber to Pope & Talbot.

Bark D M Hall, Williams, 16 days fm Port Madison; lumber to G A Meigs.

Bark Hyack, Pomroy, 10 days fm Teekalet; lumber to Pope & Talbot.

Brig Anzenette, Lamb, 11 days fm Port Orchard; lumber to Renton & Howard.

Brig Curacon, Wells, 2 days fm Monterey; wood to order.

MARCH 9—Ship Osborne Howes, Cottrell, 53 days fm Manila; sugar to Wm T Coleman & Co.

Schr Josephine Willcutt, Tufts, 24 hrs fm Noyo River; lumber to A W Macpherson.

Cleared.

FEB 28—Br stmr Robert Lowe, Congleton, Hongkong; Macconray & Co.

Br bark Comet, Smith, Honolulu; McRuer & Merrill.

Bark Adelaide Cooper, Dingley, Victoria and Port Angeles; Pickett & Co.

Bark N S Perkins, Greenleaf, Victoria and Port Angeles;

MARCH 2—Stmr Golden Age, Hudson, Panama; A B Forbes.

MARCH 3—Bark Emilly Ranning, McKinnon, Shanghai; W T Coleman & Co.

MARCH 4—Ship Ocean Pearl, Crowell, Hongkong; Koopmanschap & Co.

Ship Isaac Jones, Reed, Port Angeles; Master.

MARCH 5—Ship Wild Rover, Crowell, Port Angeles; Master.

MARCH 6—Ship Shawmut, Merrill, Sydney; Macconray & Co.

Bark Industry, Corno, Portland; H Clark.

Schr Daniel Webster, Shelley, Shanghai; C W Brooks & Co.

MARCH 7—Stmr Sierra Nevada, Connor, Victoria and Portland; J Holladay.

Br bark Zillah, Jones, Auckland, N Z; Falkner, Bell & Co.

MARCH 9—Fr ship Union, Debot, Callao; A E Sabatie & Co.

Review of the Market FOR THE EIGHT DAYS ENDING SEPTEMBER 10th, 1863.

The jobbing trade during the period under review has been very fair; but with importers' transactions have been few and limited. There is an incli position to replenish stocks of Merchandise largely at the present moment, in the expectation of considerable arrivals of fresh goods soon by vessels now due. The business of the week presents few points of interest, and has been well distributed among the various prominent mining localities. Nevada Territory is taking large amounts of Merchandise; the New and rich discoveries in the Reese River and other districts having attracted a great number of persons who are locating permanently. With Arizona and Southern ports, similar activity prevails. Machinery, Merchandise and Money for mining purposes are going forward freely, and well authenticated advices are of such a nature as to give assurance of an enlarged and active trade. The North Coast also is sending further orders, accompanied by abundant evidence of the success of mining enterprises and general prosperity.

The arrivals since our last reference have been quite moderate, and stocks of some leading staple articles are becoming much reduced. Bage and Bagging have declined. Cauds are in more favor—free sales. The stock of Anthracite Coal is very light; a round sale of Cumberland is reported at full rate; also large sales of Sydney at lighter figures. Cordage is in light supply and prices firm. Coffee is held at an advance—stock of Rio very light; of the finer grades more is offering, but prices of all descriptions are tending upward.

In Case Goods, Oysters have been selling liberally at good rates. French Goods are very dull, with the exception of Sardines and Castle Soap, which have been more sought for. In Oils, Lineds has more favor. Olive and Whale quiet. Petroleum of all the various brands and grades has been largely dealt in at full figures.

Eastern Meat Provisions of all kinds continue scarce and in demand. The same may be said of Lard. Butter has been extremely heavy, but at the close is held higher. Some of the larger receivers are not offering. Cheese is neglected. Liberal sales of Tallow are announced for export. Rice continues to accumulate, without improvement in demand or value. Salt is dull. Spices are scarce and high; an auction sale of recent arrivals from Calcutta is now pending. There has been more doing in Sugars, both Raw and Refined—the latter at higher prices. Raws are abundant and low. Eastern Syrups are in little favor.

Not much has been done in Spirits of any description. Domestic are held rather higher. Foreign without exception. The stock of favorite brands of Tobacco is very low; poorer qualities are pressing at auction and yet bring fair prices. There is more doing in Teas, and the market is a little stronger. In Wines we have nothing of importance to note.

We have by telegram that the order of Government prohibiting the purchase and sale of live stock for exportation has been revoked in its application to any State or Territory bounded by the Pacific Ocean.

Reports of Eastern and Foreign Markets, together with further details of our own, will be found elsewhere.

The arrivals from supply ports have been: Ship Windward, with an asso tial cargo from New York; barks Grauville, with Rice, Tea, etc., from Hongkong; and Wilhelmina & El se, with Tea, etc., from Kanagawa; also the Alt Mehlberg with Coal from Newcastle, N. S. W.

BREAD.—The export demand is light, but the requirements of ships in the harbor and the local wants of the interior suffice to keep the hard bakers fully employed at unchanged rates. We continue to quote Pilot, 3 1/2c; Navy, 3 1/2c lb.

BAGS AND BAGGING.—The arrival of the Sydney, from Glasgow, furnished us with 64,000 large-sized Burap Grain sacks, which were placed previous to arrival at ex. rate rates—said to be 27 1/2c for light of 5 to 100 upon this description of goods; all other kinds par. leaping. Barrels, which had advanced to about 20 1/2c, have since been placed by bag makers at 17 1/2c, the market closing dull and depressed. At auction, 1 1/2 bushels, 25 each; second hand Gunnies, standard size, sold at 10 1/2c.

ROOTS AND SHOES.—Imports from January 1st to August 31st: 35,569 pkgs. We have nothing of interest to remark. The demand is light and prices exhibit no improvement. Jobbing purers are doing about an average traffic with the in-

terior at live rates, though the trade generally complains of a dull business. Importations continue upon a liberal scale and stocks are large, giving the auctioneers at the employment on undesirable or unseasonable stocks, at low figures.

CANDLES.—Imports from January 1st to August 31st: cases, 234; half boxes, 75,397. The demand is fair—prices are unchanged—stock ample for the season. The cost to the trade are as follows: 1000 boxes Emery's, 17 1/2c; 1800 Knapp's Anchor, in lots, 12c; 2500 do Heint & Woods, 13 1/2c; 500 do Procter & Gamble's, as is, private; 1100 do Weik's and Emery's, 17c. At auction 50 lbs ex Paraffine, in cartons, as is, 20c.

COALS.—Imports from January 1st to August 31st: Anthracite, tons, 23,961; Sydney, tons, 10,913; Cumberland, tons, 1896; Vancouver, tons, 2665; do casks, 6349; soft, tons, 6000; English, tons, 7589; Japan, tons, 134; Chile, tons, 1887.

For lack of supplies we have no sales of Anthracite to record—the article is in request and would command extreme figures; 550 tons Sydney, ex Electra, sold at \$13 51, and the cargo of the Richard Busard, 1000 tons to arrive from Newcastle, N. S. W., has been placed at rather better rates, otherwise we have no sales to report, excepting a lot of 9700 lbs Cumberland ex Healey, on terms withheld. The market is entirely bare of supplies from Edinburgh Bay which are wanted at full rates.

CORDAGE.—Imports from January 1st to August 31: Coils, 6900; pkgs, 1088; bales 400. The supply of East-in-laid Manila is light, while the local Factory is fast running short of stock, consequent rates are firm. At auction 38 coils genuine Manila, mostly of large sizes, sold at 10 1/2c. Invoices of eastern and Manila, assorted sizes would readily command 13 1/2c.

COFFEES.—Imports from January 1st to August 31st: Rio, lbs, 1,279,290; Costa Rica, tons, 13; Java, pkgs, 5,512; Manila, pkgs, 19,875; Java, lbs, 606,030; Kona, pkgs, 477; Costa Rica, pkgs, 19,494.

Immediately following our last issue the balance of the Fine Java's cargo of Rio was closed out, say 1156 bags, at 29 1/2c. Since then we have had news that the C. S. A., with the only cargo known to be en route to this port, is reported at Valparaiso, July 27th, 81 days from Rio, to reach with a full cargo to Jas. Petri & Co., having suffered "rough damage." She will be obliged to discharge, as well as to dispose of part of her cargo, and will doubtless be detained till 1st September, and can scarcely be looked for here before the 1st of October. This is unfortunate for the trade, as the stock of Rio is very low—none held by importers, thus leaving us bare of all kinds but fine Coffees; now held at advance rates. At auction 37 bales Rio in 160 lb bags, 8 1/2c as is at 26 1/2c; at private sale, 85 bales Costa Rica 3c. At the close Rio is selling from second hands at 25 1/2c@30c.

DRY GOODS.—Outside of the jobbing trade business is light. Importers do not buy a moderate traffic for the season. We have no sales to record, with the exception of being in little request. Europeans have declined 63c per yard from our highest quotations, owing to fresh importations per the Sydney from Glasgow, though the bulk of her Bages and Bagging was sold prior to arrival, at rates above current figures. We note sales of 40,000 yards English Shetling in private terms; 100 bales New Cotton Duck, at 1 1/2c; 1000 numbers of 1/2c; 1000 bolts Canvas Duck, at about 87 1/2c@90c; 1000 bolts Canvas Duck, assorted sizes, private, but quotable at \$1 per bolt all round. At auction, 31 bales standard Drill, as is, at 21 1/2c cash.

DRUGS AND MEDICINES.—Jobbing imports say trade is good with the interior, without material change in quotations. Sal Soda is scarce and wanted at about 5c. We supply of Glycerine Oil in excess of trade wants and prices are lower. At auction, for account of Underwriters, 53 1/2 lbs hxs Babbitt's Soda sold at 5 1/2c, and 375 bxs do Saleratus 5 1/2c, all as is.

FISH.—Imports from January 1st to August 31st: Cod, drums, 1354; Mackerel, hb-bbls, 3597; do qr bbls, 320; do kits, 11,583; Salmon, bbls, 541. Supplies of all kinds are light. The demand for Codfish and Mackerel is in excess of our receipts, and prices in consequence are well sustained.

FRUITS, SAUCES, ETC.—Imports from January 1st to August 31st: Apples, 1-bbls, 15,684; Nuts, casks 1135; hds, 320; bales and bags, 1371; Raisins, 23,911; other kinds, 2 cks, 3079; do and bxs, 59,455; pkgs, 12,803. The demand is light and equal to the supply, and prices are unaltered. Oysters are still in favor, with sales of 400 cs Field's steamed 100 cs Thomas's Monumental City, all at 55c; 75 cs McMurphy's spiced do at \$5.50; 33 1/2 cs Knoset's do do, at \$4.37; 150 cs H B & Co's 2 lb cans, 2 doz, \$4.42; 50 cs do do, \$4.06; 3406 4 lb cans, 120 cs Roubt Beer, as is, \$3.50; 377 1/2 cs Underwood's Pickles, 28 1/2 cs, \$3.77. Dried Apples and Peaches are still in request at unchanged rates, say 70c for the former, 20c for the latter in the lot or in kegs; California Dried Peaches quotable at 12c. At auction, 75 hb bbls Boston Dried Apples, 8 1/2c.

LUMBER.—Imports from January 1st to August 31: Eastern and Foreign bbls and cns, 20,851; Doors, 14,000; Blinds, 1492; Sash, bbls, 3430; Domestic Lumber, 11,76,631,000; Laths, 1,604,000; Shingles, 2,198,000.

Our receipts are liberal, the bulk of which goes into vau. We quote cargo sales of Redwood, \$16 for rough, \$20 for dressed. We still continue to receive sales of Spars and Lumber for exportation to foreign parts, to be shipped direct from the mills upon terms reserved. The British ship Sydney, of 1,17 tons register, is to load 1000 spars at Puget Sound for London; and the ship Bengal, Lumber, at same place for Shanghai.

MATCHES.—Importations from January 1st to August 31st: Cases, 1700. Markets are hardening; 4000 gross Polak's and Furth's, Yereva matches, sold in lots to the trade at \$1 62 1/2. At auction 200 Furth's do at \$1 55 gross.

METALS.—We have no sales of Pig Iron or other kinds to record from private hands. Markets are, however, firm, and the importing jobbers in assorted goods are doing a large and profitable business at very high prices. At auction about 7000 lbs second-hand yellow sheet-iron at 17 1/2c; 3000 lbs old do 12c; 1100 lbs old composition Nails 11 1/2c.

OILS.—Imports from January 1st to August 31st: China, jars, 1000; Lined, cs, 557; do casks, 5664; do dms, 15; Coal, casks, 29,800; Olive, cs, 710; do casks, 34; Lard, bbls, 206; Whale, bbls, 2102; do cks, 977; do cks, 205; Lined, bbls, 791; Sperm, cks, 8. We note quite a movement in Lined, with sales 75 lbs at \$1 25; Gal: 1000 gals do, in tins, \$1.30. 1 Olive oil sales of 1000 lbs, 700 gals, in tins, private, but quotable at about 60c.

morrow is not fully determined upon. Should the recent favorable army news knock down the price of gold at the East, the rate may go higher. For coin payment there will be no change; bankers will draw at 4 1/2 cent premium. Sterling is held at 48d. Francs at 5. Commercial Sterling at 48 1/2d.

Legal Tenders are heavy to-day—dealers' rates 77@80. The requirement for income tax appears to have been articulated to a great extent by purchases heretofore had at lower rates, and the slimness of the demand now is causing some disappointment. Up to the 1st inst., about \$1,500,000 had been converted into 5-20's at the office of the Sec. Treasurer in this city. Sales of some \$20,000. Quartermasters' Checks are reported at 77 1/2. The disbursements of the Quartermaster's department on this coast during the fiscal year ending June 30, were very heavy, amounting to more than \$4,500,000. We are indebted to the politeness of Mr. Cayton, Chief Clerk of Col. Babbitt, the head of the Department, for the following table of expenditures in each month of the year:

Abstract of Funds received and expended on account of the Quartermaster's Department at San Francisco, Cal. by Lieut.-Col. E. B. Babbitt, Deputy Quartermaster-General, U. S. A., in the fiscal year ending 30th June, 1863:

Month.	Receipts.	Expenditures.
July, 1862.....	\$42,505 52	\$34,848 27

STOCK REVIEW.

The Mining Share Market has been exceedingly depressed during the period under review, and with scarce an exception all Stocks have declined. Speculative inquiry on the part of the public has for the moment generally diminished. A little of this apathy may, we think, be traced to the endless litigation which casts a threatening shadow over one-half the claims of accredited merit in Nevada Territory. This is a great misfortune—an evil havefully influencing the prosperity of the country. It retards the development of the mines, paralyzes the industry and energy of the people, and prevents the investment of millions of dollars by those who are too prudent to venture upon such uncertainties.

Viewing to the unexpected resignation of his Honor Judge Stott and the probable inability of his successor to hold the present term of Court in Virginia City, a large number of cases of the greatest importance, involving property of much value, may not be reached until the February term, when Washoe may be seeking admission into the Union as a State; her people will then be likely to prefer electing their own Judiciary, and further delays must be endured by litigants. It is also feared that cases of magnitude will from the State tribunals be appealed to Washington where the ordinary uncertainties of law are sometimes greatly enhanced by political chicanery. These perplexing considerations are affecting the value of many leading claims in the market. It were far better if the titles to mines in dispute could be adjusted by any fair and equitable compromise, ending the blighting effects of protracted law suits.

Gold and Curry is dull at about \$1,450. Sales were made this week at \$1,400.

Ophir has declined to \$2,250, buyer 30 days. At this rate sales were made yesterday.

Favara has no record; sales at \$3,000, buyers' option. At the close it is offered at \$3,050.

Oregon has fallen to \$475. An assessment of \$30 per share has been levied.

Potosi is an exception to the general decline, and is now very firmly held at \$1,500. The probable postponement of the suits pending against this Company, coupled with

to 1. Advance this stock very favorably.

Grass Valley is offered freely, and has declined to \$40 bid.

Fuckey continues to be hammered by the bears, and is off red at \$34. Within the past few months this Company, it is said, have opened their ledge in three places. In their north incline, which is down 170 feet, good silver bearing quartz is reported. A few days since an old tunnel of 90 feet in length was discovered, running into a ledge of 8 feet in width, the quartz bearing a resemblance to that found in Gold Hill. In 24 hours' time 40 tons of this rock were taken out. A mill is now employed in crushing ore for this company.

North American has been very largely dealt in, 1,000 shares changing hands within the range of \$72 50@85. We are informed that the extensive claim of the company (4000 feet) is being thoroughly prospected by means of four shafts and a tunnel, the latter 350 feet long. It is said that one of these shafts is double chambered, and well lined, in which has been found a streak of black sulphurets similar to the Gold Hill ledges.

Baltimore American has been sold at \$56, declining at the close to \$45. The grounds of this company embrace two ledges, now consolidated, of 1,400 feet each. It is one of the earliest locations made in the American Flat, and among the first quartz claims taken up in the Gold Hill district. The tunnel of the Baltimore American is over 1,400 feet in length, being one of the longest, as it has been one of the most expensive in the Territory, having cost about \$25,000. It was begun nearly four years ago, and at its further extremity is over 300 feet beneath the surface, passing through two ledges, each about 40 feet wide, and separated by a wall rock of 22 feet in width. Both of these ledges are said to carry rich ores.

Dancy has improved within the past few days, and was sold yesterday at \$116 and \$117 1/2, buyer 30 days.

Burning Mesocow has declined from \$135, the highest point reached last week, to about \$110.

Uncle Sam has been sold at from \$122 50 to \$145—the latter, buyer 90 days; \$ 30 is the closing bid, buyer 30.

Wide West has sunk to \$93 per foot, at which it was offered yesterday.

Utah is also very weak and in very little repute at about \$55.

Real Del Monte is in favor at \$300, buyer 30 days.

The Consolidated Antrim Company (Slate Range) is favorably mentioned. Some fine specimens of ore from this mine are on exhibition in this city. It is said that ore is now being taken from Antrim No. 2 which will yield \$2,000 per ton. Rich assays have been obtained from ores found in the Slate Range District, and it is attracting a good deal of attention.

COPPER.

There is an increasing inquiry for Copper Stocks, with more firmness in prices.

The Ore of the Union Mine is accumulating rapidly again in Stockton. Shipments now average 800 tons per month.

The Keystone Company have levied an assessment of \$5 per share for the purchase of machinery, for the concentrating works. The main shaft is being pushed down rapidly, and the estimates of future yield, by parties interested, are large. This company is not shipping at present, but have placed all their labor on the preparation of the mine for development.

The Napoleon is sending down 200 tons per month. Sales of ore amounting to \$10,000 have recently been made. The assessments of this company have so far been \$3,000. The cost of opening the mine, the erection of steam works, houses, etc., to date, has been \$41,000. The Secretary of this Company informs us that the cost of working the mine per month for the present yield is \$2,500, and the estimated net value of ore produced, after paying all charges, freight, etc., is \$9,000.

The Copper Hill Company are shipping 100 tons per month. No stock in the market for sale.

The Newton ore is averaging rather a low percentage, and work is being prosecuted to a lower depth, where the Company expect to find richer mineral.

The Table Mountain Company, is said to be energetically at work opening their lode. A few tons have been sent to this city and the stock seems in request, with sales at \$40 per foot.

The Lancha Plana Mine is also being efficiently worked, and it is said will soon be shipping ore.

The Alta (Del Norte county) is shipping about 50 tons per month; 45 tons were received in this city by the last steamer from Crescent City.

In Sonoma county, Derrick District, about fifty ledges are reported, upon which nearly one thousand claims have been recorded. The Woodland Company, it is said, at a depth of sixteen feet have struck very promising ore. One share in the Union, first extension south of the Woodland, was sold a few days since at \$400; and 25 feet of the Woodland has been sold at \$30 per foot.

This excitement in Yuba and Nevada counties about Copper mines, in the Empire Ranch, continues. In some of the companies it is stated that shares have risen to \$100 per foot. Three or four companies have found considerable quantities of Copper averaging 40 per cent. The Prettiman, Burke, Lest Chance and Hill Fouse companies are doing about an average trade with the in-

DOMESTIC PRODUCE.

The following is a statement of the receipts of Domestic Produce in this market for the week ending August 29th, and the total for the past three years, from July 1st to the corresponding date each year.

ARTICLES OF PRODUCE.	For the week ending Sept. 5.			From July 1 to Sept. 1.			From July 1 to Sept. 8.			From July 1 to Sept. 7.

Freights and Charters.

Tonnage is very scarce, and greatly wanted. Several desirable charters for Grain to England are offering. First-class American ships are also wanted for New York and Boston, besides other vessels for Lumber, Wood and Guano, as well as for the East India trade. There are now due at this port 20 first-class American ships, out over 100 days from New York and Boston; of which nearly one-half have been out about 150 days, and three from 240 to 270 days. In addition to these, there are 20 square-rigged vessels now on the way here from European ports, out from 100 to 180 days. Of this fleet of 40 ships, we certainly may look for at least one-half the number at any moment. So far as we are advised, the following charters have been effected during the present month: The ship Hoogly, to load Broadstuffs for Liverpool, of which Cross & Co. are the charterers—the terms withheld, though understood to be at full rates. Also the Br ship Sydney, 117 tons register, to load Spars at Puget Sound for London, on private terms. The ship Bengal, to load Lumber at Puget Sound for Shanghai, on terms withheld. The Dutch brig Wilhelmine Elise has been chartered for Hongkong by Macdonald & Co. The Electra and Uruguay load Grain, etc., for a market.

The disengaged are as follows: Ships Benjamin Howard, Harrison and Windward; Barka Dollart, Emily Banning, Wilhelm Kirehner and Garville. Brigs Gen. Priu, Lopud and Ida D. Rogers; Schooners Guilletta and Liberato.

SHIPPING REGISTER.

Arrived.

SEPT 3—Br bark Electra, Bishop, 95 days fm Sydney; coal to Macdonald & Co.

SEPT 5—Bark Hartford, Wilkinson, 24 hrs fm Albion River; lumber to A W Macpherson.

Dutch brig Wilhelmina & Elise, Priebe, 41 days fm Kanagawa; mds to order.

SEPT 6—Stmr Bro Jonathan, DeWolf, 61 hrs fm Victoria; pass and mds to S J Hensley.

Ship Windward, Smith, 124 days fm New York; mds to Moore & Co.

Br bark Granville, Tucker, 61 days fm Hongkong; mds to Wm T Coleman & Co.

Brig Ida D Rogers, M'Corchane, fm Nicolaisky, via Hakodadi 30 days; mds to C A Low & Co.

SEPT 7—Stmr Salmus, Sudden, 11 hrs fm Salinas; produce to Brennan & Co.

Brig Energy, Grey, 15 days fm San Pedro; in ballast to Bauger & Willstun.

SEPT 8—Stmr Orizaba, Farnsworth, 15 days 22 hrs fm Panama; pass to A B Forbes.

SEPT 9—Mex schr Liberato, Arnaud, 26 days fm Mazatlan; in ballast to Master.

SEPT 10—Mech ship Alt Mecklenburg, Korff, 80 days fm Newcastle, N S W; coal to Macdonald & Co.

Brig Pride of the Sea, Garcia, 10 days fm San Pedro; mds to N Pierce.

Schr Noyo, Allen, 24 hrs fm Noyo River; lumber to A W Macpherson.

Cleared.

SEPT 3—No clearances.

SEPT 4—Stmr Constitution, Watkins, Panama; A B Forbes, Stmr Oregon, Wukeman, Mazatlan; B Holladay.

Bark Gold Hunter, Bartlett, Victoria; McKett & Co.

Tah bark Ionia, Clarke, Taliff; Master.

Dan bark Boy Bendixon, Mathieson, Auckland, N Z; Falkner, Bell & Co.

Schr J B Ford, Knipe, Colorado River; Geo F Hooper.

SEPT 5—Bark Yankee, Paty, Honolulu; McRuer & Merrill.

Bark Monitor, Nelson, Victoria; Mallory & Culheart.

Schr Lewis Perry, Cole, San Pedro; N Pierce.

SEPT 7—Stmr Sierra Nevada, Connor, Victoria and Portland; B Holladay.

Ship Orpheus, Holway, Liverpool; Dickson, DeWolf & Co.

Ship Ocean Pearl, Crowell, Mazatlan; Stevens, Baker & Co.

SEPT 8—Bark Industry, Como, Portland; H Clark.

Schr J M Chapman, Plummer, Mazatlan; W R Wadsworth.

SEPT 9—Ship Black Hawk, Doane, Melbourne; Dickson, DeWolf & Co.

SEPT 10—Ship Linda, Collins, Puntarenas; Wm T Cole-

Review of the Market. FOR THE TEN DAYS ENDING MARCH 1st, 1864.

The continuance of dry and pleasant weather has become a theme of general remark, and is no longer a matter of congratulation, but is causing great anxiety among all classes of our citizens. The volunteer crops in some parts of the State are likely to prove a failure, and without the early advent of copious showers it is feared that the sowing of the present year will yield but a meagre harvest. In the Southern counties the loss of cattle in consequence of the drought, is still as serious as ever. It is estimated in some places that at least two-thirds have actually perished or are beyond hope; but partial rains have occurred in those counties within a few days past, and it is hoped that a considerable portion of the remainder may be saved.

Trade from first hands has been very quiet during the period under review; but jobbers, on the contrary, have been very active. The principal transactions have been with coastwise ports, both north and south; but interior communication in all directions being entirely unobstructed, orders of more or less magnitude are constantly coming in from the country towns, and merchandise is going forward. In our last report we had occasion to allude to important purchases destined for Eastern Idaho, via Los Angeles, and a new route along the eastern slope of the Sierras, traversing Nevada and a portion of Utah Territories. This is thought by some to be the beginning of a large trade with those regions, which are rapidly increasing in population, and are said to afford abundant evidence of great resources. We are indebted for this information to a great measure to the extreme severity of the winter east of the Rocky Mountains, which has vastly augmented the difficulties and expenses of transportation from the Atlantic States. Whether we shall be able to retain any considerable amount of this trade when spring and summer return is somewhat doubtful, and yet our traffic with Salt Lake has been going on and growing for a year past. Further particulars in regard to the expedition to Idaho will be found elsewhere.

The arrivals of general merchandise for ten days past have not been large; in a few articles, however, the accessions have been such as to weaken prices, but in a few only. Bags and bagging are quiet. Coffee is dull and favors the buyer. Candles have been more active, and stocks are a good deal reduced. Cattle is in less demand, and prices are not fully maintained. Coal also is depressed, and our quotations are reduced.

Dry Goods remain firm, but the Spring trade has not yet opened, and we have but few transactions to note. The demand for Fruits, Sauces, etc., has abated, and the market is easier. Coddish are in good request at full figures. French goods are neglected.

The large arrivals of Blasting Powder have checked activity and the market is heavy. Gunny Bags are dull and lower. The Hardware trade is fairly active for the season, but not yet fully opened. Nails continue at low figures. Metals are offered at reduced rates. The stock of Matches is low, and the requirement more active. Molasses and Syrups are quiet. Naval Stores are generally dull.

Coal Oils are in favor and the market firm. China Oils have receded: Olive is dull and other kinds present nothing worthy of notice.

Pork has declined and is less sought for. Lard also is slow of sale. Butter and Cheese have undergone no change. Rice is without improvement; Salt almost unsalable for the moment.

Spices are quiet. Castile Soap is lower; other kinds are in good demand. Spirits, both foreign and domestic, continue very inactive. Refined sugars have been sold at reduced figures, owing to liberal arrivals via Panama; Raw sugar is in fair request.

We have no change to note in Tobacco; the market is steady. That of the new crop are in good demand. But little has been done in Wines. The usual details of such transactions as have come to our knowledge will be found in the subjoined report to which we refer:

The arrivals have been—the Skylark, with assorted cargo from New York; Nouvelle Pallas, with same, from Bordeaux; Cornelia, with Rice, etc., from Hongkong; Emily, sailing, with coal, and Henry Brigham, with tea, etc., from Shanghai; Astrea, with tea, etc., from Foo Chow; St. Thomas Packet, with coffee, from San Jose de Guatemala; Cornmark, with cedar, from Tigre Island; Glencoe, with tea, etc., from Kangawaga; Zesaritwith, with skins and salt, from Sitka; Lone-shire, with coal, from Nainimo; Kate Adams, with powder, etc., from Victoria, V. I.; Arracan, with assorted cargo, from Liverpool.

BAGS AND BAGGING—Markets firm and prices rule high, considering the season. For all kinds of British fabric, which, for the time at least, have pretty effectually driven from use American goods. We have no sales of Drills to note. The demand being chiefly confined to the mills, who are still obliged to use a moderate supply for Flour Sacks, and who are enabled to buy parcels of 5 bales cheaper than they could purchase a lot of 60 bales. The only transactions coming to our knowledge are the sale of 25,000 Gony Pockets (ore bags) on terms reserved.

BOOTS AND SHOES—The spring trade has not yet opened. At auction, 125 cases Hayward's Long-leg India Rubber Boots sold at \$5 62 1/2 pair. We hear indirectly that news has been received in town of the destruction by fire of Hayward's India Rubber Factory, in Connecticut, but of which we have no details.

BUILDING MATERIALS—Imports from January 1st to February 15th: Doors, no 12,944; Blinds, bbls 457; Sash, bbls 325; Eastern and Foreign Lumber, bbls and ccs 7345; Laths, 452; Domestic Glass, feet 9,384,509. The supply of Lumber is running low. Redwood is in light stock, owing first to the burning of the Mendocino Mills last fall—not yet rebuilt, but in process of erection—and secondly to the low stage of water at other leading mills, thus preventing the free transportation of saw logs from the woods to the mills. Prices in consequence are stiffening, and are to-day about 1 1/2 M higher than they were a year ago. Oregon is in free request, and all kinds about are readily salable at 19 or 20 c, and 23 1/2 30 1/2 M for dressed. Our consumptive demand for Lumber is very large, giving full occupation to all the mills on the coast, at prices that are quite remunerative. We have no transactions in Eastern Lumber to record. The last sales of Lumber and Cement from the West were at \$3 50 1/2 bbl. California Lumber salable at \$2 50 1/2 bbl.

COAL—Imports from January 1st to February 15th: Anthracite, tons 475; Vancouver L—4008, 3375; Cumberland, casks 1380; Coast—tons 1235.

Our supplies from Bellingham Bay and the Nanaimo Mines on the North have been unusually large and have had quite a depressing effect upon the general market. We are also in receipt of several hundred tons of Cardiff, via China, and 430 tons Sydney. The latter has been sold on terms strictly private; but we shall quote it at 40 or 54. Other sales have been perfected, but rates are too low to make public.

COFFEE—Imports from January 1st to February 15th: Rio, No 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

The market is by no means active. The trade are buying very sparingly of Rio in lots of 50 bags at about 23 1/2 c. In other kinds no transactions transpiring, except at auction, where 625 mats of Manila, 10 1/2 bcs each, ex Industry, sold at \$21 95. CANDLES—Imports from January 1st to February 15th: h b bcs 2173. The trade requirement of late has been unusually large, and stocks are working off quite rapidly; now reduced as to soap to about 40,000 lbs. bcs. The stocks are generally disposed to follow the market, showing a willingness to sell off their old stocks preparatory to the receipt of fresh supplies now supposed to be near at hand on the large fleet of ships fully due at this port. The sales so far as reported are as follows: 3000 bcs Knapp's Anchor, 18 c; 1000 do Hecat & Wood's 16c; 250 do Crystal, 16c; 500 Granit's, 7c; 500 do No. Plus Ultra 17c.

CORRAGE—Imports from January 1st to February 15th: Colls 397, pkgs. The stock of Domestic is very rapidly accumulating, while of Eastern laid Manila the supply in first hands is light. The last sales of which we have any knowledge were at 13 1/2 c.

CIGARS—Imports from January 1st to February 15th: es 360. At auction, Jones & Bendixen sold a large quantity of German cigars, to close consignments as follows: 900 c La Venezuela, \$10 50; 20,000 do La Florida, \$14; 10,000 do Manilla, \$8 75; 10,000 do El Sol, \$6 50; 1,250,000 various brands, 4 1/2.

CROCKERY AND EARTHENWARE—The public attention continues to be large, and prices in consequence rule low for nearly all kinds of French and English ware, of which importations the past few months have been very large.

DRUGS AND MEDICINE—The trade are continuing to do a large business. The orders from the North, as well as from Mexican ports, are unusually liberal for the season, owing to the constant employment of the laborers; but so far as we are advised, prices have of late undergone no material change. At auction, f r account of underwriters, 300 12-b bcs Bahilit's Carb Soda, as is, 4 c; 75 do do Cream Tartar, damaged, 17 1/2 @ 22c.

DRY GOODS—All kinds of American Cottons are in light supply, and prices quite nominal. Imports of British Goods continue to do a large business. The Mexican demand is still free, and though we have no special sales to report, the market is rather active. We note a sale of 100 bot s French Imperial ahuvas, say, 4500 yards, ex steamer, at 45c; assorted Duck s are and wanted at extreme figures.

FRUITS, SAUCES, ETC—Imports from January 1st to February 15th: Dried Apples, bbls 914; Raisins, bcs 2250; other kinds, casks and bbls 275, kegs 702, bcs and cs 418, pkgs 194.

We have no sales of importance to note. Late Imports of Case Goods from Bordeaux have as for many months past, come to hand in bad condition—too little after time having been paid to the proper ventilation of vessels coming through the tropics. 249 kegs sauberries, 10 galls each, ex steamer, sold at 90c 1/2 gall—which will not cover cost of importation.

At auction, McRuer & Merrill disposed of several invoices of Underwood's Goods, assorted, 10; account of Underwriters, as follows: 31 bcs 31 doz ea Pie rolls, as is, \$3 85; 15 bcs 2 doz ea Lobsters, as is, 2 75; 9 bcs 2 doz ea Union Sauce, \$1 75; 8 bcs 2 doz ea Walnut Ketchup, as is, \$1 37 1/2; 4 bcs 1 doz ea Olives, as is, qts, \$4; 3 bcs 1 doz ea Olives, pgs, as is, \$2 37; 1 doz ea 4 doz purple, as is, 5c; 5 bcs 1 doz ea Tomato Ketchup, as is, 1 1/2 c; 1 doz 2 doz ea Walnut Ketchup, as is, \$1 62 1/2; 1 doz ea Union Sauce, as is, \$1 85; 15 bcs 2 doz ea Red Currant Jelly, as is, \$ 12c; 69 cs 2 doz ea Lobst s, as is, 7. Also, 64 cs H. & Co. Oysters, as is, \$4 50; 33 do do Lams, \$3. Also, 50 bcs Dayton's Olives, qts, \$3 25, as is; 34 do do Lobsters, 2 b bls, \$3 75; doz, at private sale, 45 cs Winslow's turkey, and 20 cs do Chicken, sold at 25 1/2 doz in 2-b cans.

FRENCH GOODS—Imports from January 1st to February 15th: Absolut, es 124; cardines, es 230; Olive Oil, es 50.

There is no special mention in the market, and hot little trade in motion. At auction, 63 bcs Castile Soap, received via Isthmus from New York, sold at 1 1/2 c; also, from private hands, 120 bcs do, direct importation, at 16c, cash; 60cs Brandy Flairs, assorted, \$2 25 1/2 doz; 25 cs Bordeaux Prunes, in glass, 1 1/2 c.

FISH—Imports from January 1st to February 15th: Cod, drums 144, bcs 6; Mackerel, bbls 31, kets 3155; Tongue and Dry Fish, bcs 188. Notwithstanding free receipts of Cod via the Isthmus, prices are higher, owing to the inferior quality and condition of a portion thereof; sales of 25 drums prior to arrival 10 1/2 c; 25 do since arrival, 11 1/2 c; 35 do, 11 1/2 c; 10 do do at auction 2c, as is; 100 bcs do do, as is, 9c; 100 bcs damaged, private; 62 kets Tongues and sounds, 40c each.

Brn, bales.....	1,589	127,745	123,23	112,9 0

Freights and Charters.

There have been several first-class vessels offering upon the market during the fortnight, but charterers generally have been disinclined to pay the asking rates. For England there is at present no demand, the high prices ruling for Grain rendering it impossible to execute any remaining orders that might be on the market.

For Hongkong there is a demand for foreign tonnage far beyond the supply in port; consequently shippers of Breadstuffs, etc, are at present obliged to charter American ships for the round voyage, hoping to secure insurance for the war risk out and back at 4@5 1/2 cent. At present our local offices will only insure for the outward voyage at about 2 1/2 cent.

After a long interval we are enabled to state that charters for Guano from the Chincha to England can be effected here at 43 1/2, which rate the Lydia Schofield has been secured, her destination London or Liverpool.

The ship Brewster has been taken up for Boston on terms reserved, and will load a miscellaneous cargo in Meader, Lotor & Co's line, though previous to her loading she is, we believe, to go on the ways at Mare Island for repairs. She succeeds the Flying Eagle, now rapidly filling up with Cop per Ore, etc.

The Twilight has been chartered by Moore & Co, for New York, for the round sum of \$18,000, and will carry a general cargo, succeeding the Fair Wind now about ready for sea.

The Lark Edith Rose goes to Puget Sound for Spars and from thence to Shanghai on owners' account.

The Emily Banning will return to Shanghai on owners' account stopping at Honolulu.

Ham bark St Thomas Packet has been chartered by Koopmanschap & Co for the round voyage to Hongkong and back on terms reserved. The Cornelia returns to Hongkong.

The Am Bark J M Chapman has been sold for the Oyster and Fishing trade on the North Coast on terms withheld, though we learn from third parties that the price paid was 6,685; the ship Laneshire will load Lumber and Spars at Puget Sound, thence to Hongkong on terms reserved; a 1/2 interest in the ship Enterprise has been sold at the rate of 5,400 for the vessel; the discontinued are ships Bird of Paradise, Lady Washington, Skylark and Saracen.

hae, carried 3,000 hf and 4,000 qr sks Golden Gate Mills Flour, 200 flasks Quicksilver, 2,9 3 sks Wh-at and 100 cs Wine, valued at \$26,70, and \$2 1,25 77 in treasure, all in silver bars and silver dollars. The Comet, for Honolulu, had a miscellaneous cargo, valued at \$26,250. The brig Gazelle, for Manzanillo, had 1,000 bbls Flour and 200 flasks Quicksilver, and a large amount of machinery, valued at \$28 700.

The sch Sovereign for Guaymas has an assorted cargo valued at \$50,300; the sch Florence for La Paz had a cargo of general mds valued at \$17,275, also by the same vessel to Tahiti Flour valued at \$8 5; the Architect for Victoria carried 5630 qr sks Flour and other mds valued at \$35,350; the ships Fair Wind for New York and Flylog Eagle for Boston are each about full and will soon be ready for sea; there is at present no vessel on the berth for England.

The sales for the period under review, so far as made public, comprise the following parcels:

LOUR—4,000 hf and 4,000 qr sks Golden Gate Mills for export private; 100 qr sks Suism Mills Extra, \$5 60; 1600 qr sks Alviso Mills, \$5 75 @ \$6; 030 qr San Jose Mills family, \$5 50; 1000 hf sks do Superfine, \$4 75; 1000 qr 1890 hf do, \$1 60; 500 qr sks Guadalupe Mills Extra, \$5 50; 2 00 hf and 2 00 qr sks National Mills for export private; 1000 hf sks Golden Age Mills Superfine, \$5 W quote Extra Flour \$5 @; Superfine 10 hf and qr sks, \$1 50 @ \$5 per 195 lbs.

WHEAT—Markets very firm, with an upward tendency. Sales: 2500 sks, \$1 50 @ 60; 2000 sks, \$1 60 @ 1 62 1/2; 7500 sks, \$1 60 @ 1 65; 5000 sks, \$1 52 1/2 @ 1 60; 4700 sks choice \$1 70 @ 1 72 1/2; 5500 sks do, \$1 75; 1000 sks Extra Choice Milling in dr's, \$1 80; at the close, 1560 sks poor quality sold at \$1 72 1/2 @ 100 lbs.

BARLEY—The offerings light and prices constantly hardening, with sales: 1000 sks inferior, \$1 75; 650 do good, \$1 82 1/2 @ 1 85; 3600 do choice, \$1 87 1/2 @ 1 90; 500 do brewing, \$1 95; 1000 do choice do, \$2 37 @ 100 lbs. At the close, 10 0 sks Coast, very dark, sold at 2c, and for choice parcels of bright Bay even higher figures are offered.

OATS—The sales embrace a round lot of 5,700 sks for export to New Zealand, per Auckland, on private terms—but quotable at 2 1/2c per lb; also, 2,500, in lots, \$2 12 1/2 @ 2 25.

BEANS—1000 sks colored, various kinds, in lots, at 1 1/2c @ 2c.

HAY—Cargo sales rule according to quality at \$19 @ 22— at the close \$20 per ton is offered at the interior landing, and best parcels on the spot quotable at \$23 @ \$25.

POTATOES—Sales of Humboldt, choice quality, at 87 1/2c @ 90c per 100 lbs—other kinds 50c @ 76c per do.

FINANCIAL.

The loan demand for money has not improved, but large sums on deposit are being used for various purposes—a portion goes into the interior for the development of mining claims, and a considerable amount is, without doubt, required for advances on grain that farmers and other holders are unwilling to part with at present rates, in view of the prolonged drought, and the uncertainties of the growing crop. The rates of interest remain unchanged, ruling steadily at 1 1/2 @ 2 cent. 3/4 month in Bank for prime business paper, and at 1 @ 3 cent. 3/4 month in the open market. It has been evident for some time past that the amount of Capital available for loans in the ordinary course of business exceeds the requirement. The mercantile classes have generally been much strengthened by the results of the last 2 years business, and their wants are greatly lessened; while the demand for loans upon mortgage has been very fully met by the Savings Institutions which handle for that express purpose the accumulated earnings of the laboring classes. We regret to perceive that these now so safe and useful organizations are ambitious to embark in the business of general banking, which would certainly not add to the security of the funds entrusted to them, and might seriously impair the confidence of their constituents, who now regard them as exclusively devoted to their own interests, and endangered by none of the temptations and vicissitudes that influence commercial affairs at large. It is more than probable that a large amount of capital which has hitherto been employed altogether in discounts, will hereafter seek other investment and be applied more directly to the development of the many enterprises, public and private, which now present themselves and have already advanced to such a point, and assumed such shape and consistency as are adapted to inspire a very considerable degree of confidence.

The receipts of treasure from the interior and mining districts since our report of the 15th ult. have been \$1,300, 00, of which \$125,000 were in coin, and the Mint has taken about \$175,000 during the same period.

The market is not largely supplied with Bullion, but the amount offering appears to be quite equal to the demand thus far. Gold ranges at 53 @ 50. We learn that the latter figure has been offered for certain parcels to-day; but little, however, has yet been sold above \$49. Silver in round lots rules at 1 1/2 percent premium @ 3 percent discount; selected bars of high grade are worth 16 1/2 percent premium; the receipts have been fully up to the average.

Exchange on the Atlantic cities is quotable at 50 1/2 cent, premium on Gold for Currency Bills, but subject to advices

Review of the Market.

FOR THE TEN DAYS ENDING APRIL 21, 1861.

The weather since our last reference has been dry and pleasant, with some very warm days, and an occasional recurrence of the cool northern winds which form a leading feature of our summer climate. It must be admitted that such weather after so dry a winter, is not adapted to encourage either the farmer or the miner, whose success depends upon an abundant supply of water. But the extensive and fertile regions in the State where the harvest prospects are as encouraging as could be wished, and in Oregon undoubtedly a large crop of cereals will be gathered. From the quartz mills we hear of no complaint or apprehension in regard to water as yet. In Nevada the miners more frequently have too much than too little. In sinking their shafts and tunnels, water is in fact one of the great difficulties to be overcome.

Trade continues comparatively quiet. Some branches are beginning to feel the approach of the usual activity of Spring business; but generally the period under review has shown but little deviation from the ordinary and regular consumptive demand. The tone of the market is healthful, and prospects of business are reasonably encouraging. The arrivals of merchandise during the past ten days have been on a very liberal scale, and nearly all staple articles are now in fair supply: some are in excess.

Bags and Bagging are in request at full figures. The receipts of Coal have been large; a considerable portion of it, however, was for the use of the Mail Steamers, and will not come upon the market; the other grades are fair: Anthracite is advancing; other kinds in less favor.

Coff and Beans, but at the close negotiations are pending, and some indications of business are visible. Candles are without change. The Dry Goods trade is rallying a little, and jobbers report a fair degree of activity. Drugs are rather easier for the buyer, but as hard as ever for the consumer.

The arrivals of Case Goods this month have been very large, amounting to nearly 13,000 packages; but so great is the demand for this description of merchandise that prices are well maintained. Dried Apples are lower—other kinds of Dried Fruits are neglected.

Fish have declined though new wood command full figures. Powder is dull at rates merely nominal. Metals and Halls have received but little attention.

A fair amount of business has been done in Oils, Olive, Coast Whale and Sperm have all sold largely at good prices. Coal and Kerseene are also in favor and tending upward.

Most kinds of Provisions have been largely dealt in. All the Pork, Hams and Bacon offering have been taken at low figures. For Lard there has been speculative inquiry and free purchases—prices are high. Butter is lower notwithstanding light stocks and the indifference of the large holders. Cheese is firm and in fair request.

Rice is showing signs of improvement and large quantities have changed hands through the auction rooms. The Sugar Refining Company are just in receipt of 1,000,000 lbs of Manila Raws, which with late purchases of Hawaiian gives them a fair supply. Raw Sugars and Refined are both higher than at the date of our last issue, and the stocks are not excessive.

Spices are without animation. In Spirits both Foreign and Domestic, rather more activity is perceptible. In Teas and Tobaccos we have no change to report.

California Wines are in more request and command full prices. More ample details of the transactions of the week will be found in the subjoined report.

The arrivals have been the Ladgas, Jas R Keeler and St Charles, with assorted cargoes, from New York; Danab and Guldin Star, with same from Boston; Resolute, with Coal from Baltimore; Agamemnon, with assorted cargo, from Live Pool; Palmar, with same, from Glasgow; Curlew with Sugar, Hemp and Cordage, from Manila; Pallas, with Rice, Sugar, etc, and Catha fua with Sugar, etc, from Hongkong; Black Hawk, with Coal, from Newcastle N S W; Har let Rowe, with Fruit, from Tahiti; E T L, with Powder etc, from Valparaiso; Mary Cleveland, with Rosewood, from Bandera Bay.

BAGS AND BAGGING—There continues to be a good trade demand for all kinds of English n b bags, at full prices. Among the sacks may be not upwards of 100,000 yards of 4 inch Burlaps at 17 1/2 c for that of good quality; some bidders ask more for fine samples. For hand-sewed grain Sacks, 2 1/2 c offered and refused. The market maintains a high and firm tone, although what is called the bag season has not yet arrived. At auction 25 bal second-hand Gunnies sold at 17 c; we quote standards nominal at 2 c with little or no demand. We have heard of no sales of any magnitude in months, the market apparently being supplied with free receipts or old second-hand sacks from China.

BREAD—We remark a moderate export demand, with sales of 50,000 lbs of medium and navy at 4 1/2 c @ 4 3/4 c; 23,000 lbs Pilot, 6 c.

ROOTS AND SHOES—Imports from January 1st to April 15th, pgs 12, 13.

There are indications of an early opening of the Spring trade. Imports from Eastern supply ports via the Horn,

as well as by the Isthmus route, are liberal, yet prices are well sustained, which is in a great measure attributable to the comparatively small quantities of it at public sale as in previous seasons.

BUILDING MATERIALS—Imports from January 1st to April 15th: Doors, nos 15,472; Blinds, bbls 669; Sash, bbls 549; Eastern and Foreign Lumber, bbls and pes 19,750; Irons 120, feet 43.0; Dressed do, feet 26,017, 500. The continuance to be a good export demand for Lumber, with sales of several cargoes have abated at the mills on Puget Sound and at all other. The cargo of pine for export has, we believe, uniformly 12 1/2 c. We quote price for small cargoes of Lumber as they arrive, at \$20 for rough and 23 c M for clear.

CANALS—Imports from January 1st to April 15th: bxs, 25; H bxs 31, 145.

The market is still without animation, with but a slight improvement. The day for speculation in a decline has long since passed. The moment it was demonstrated that supplies would be furnished via the Isthmus whenever prices rose above a certain point, that moment speculation determined to drop them, and now for two years or more there has been no speculative movement in the article we mention, and the market has declined accordingly. At this time 1 1/2 c @ 1 3/4 c are the limits, according to quality. Transactor's sample of 1 c following: 200 bxs of private, quotable at 1 1/2 c; 500 bxs Knapp's, 8 c; 60 bxs Knapp's Ancho, 8 c; 50 bxs Crystal, 6 c; 100 bxs Emery's, private, quotable at 1 1/2 c; at auction, 22 bxs G and S, as is 1 1/2 c.

CORDBAGS—Imports from January 1st to April 15th: bales, 5; colls 42; pgs 0.2.

The last sale of Eastern Lard Manila of which we have any record since passed. The moment it was demonstrated that city manufacturers would furnish fair sales. At auction, 22 coils Manila as is sold at 8 1/2 c.

COAL—Imports from January 1st to April 15th: Anthracite, tons 14,955; 183 dney—tons 1,668; Cumberland, cks, 2,274; Vancouver 1—tons, 6,632; tons, 847; Coals—tons, 4,310; English, tons, 262; Chbl, tons 67.

Imports have been very liberal, coupled with advances from Australia of large shipments en route to this port. The cargo of Sydney recently arrived at Black Hawk from Newcastle, N. S. W., was shipped in October last, to arrive at 10 c above current rates; 100 tons Sydney, ex Amator, on private terms, but quotable at about 10, quality inferior. 915 tons English ex Anglo-Saxo sold on terms withheld, quotable at 10 1/2 c; 450 tons West India, ex Vir Mire, private, but quotable at about 11, 400 c. Cumberland per Oliver Cromwell, sold at about 8 1/2 c per ton. Anthracite has been in fair request. The cargo per Heliosport from China and which has been circumnavigating the globe to find a market, was finally sold to an operator—say, 150 tons—on terms reserved, but said to be at 15 c, and since resold to Marc Island on private terms—the vessel having gone to Golden Fleece, sold at 8 1/2 c, which rate we are informed has been offered for other parcels in hand, but which are being stored for a still better market. 15 tons Hard ex Heze, sold on private terms; 350 tons Lehlig, ex James R. Keeler, sold before arrival at 3 1/2 c; 30 tons Scranton, by same vessel, goods to store.

COFFEE—Imports from January 1st to April 15th: Rio, bbls 1,205, 1,031; Manila, lbs 1,548; Costa Rica, lbs 1,438, 357; Kona, lbs 534.

The market is more than usually quiet and with liberal stocks in hand prices are but barely supported. We have also a telegram from New York advising that a car, of 100 tons in route to this port, say 80,000 lbs. We have not a sale of any magnitude to report from private hands. At auction, 725 bags Java sold for account Underwriters, in hand at 18 1/2 c. We do not think a round sale of Rio or Costa Rica could be effected at over 3 c on time.

DRY GOODS—Jobbing importers report a good business done with Oregon for assorted goods but we are without any returns and sales to record even of standard fabrics.

FRUITS, ETC.—The trade reports a good jobbing demand at remunerative prices; but Black Hawk of those being large speculative stocks here of recent importation from New York, and in ready in the hands of a prominent auction house, with the expectation of an early offering under the hammer, has a depressive effect upon the general market. We note a sale 4,000 lbs 1 Hue Virol, 11 1/2 c; also, 100 bxs Babler's Sateratus, 35 lbs 8 c.

DEMONIUMS—At auction, 1,000-galls and 2,000-galls sold at \$3 7/8 @ 1 1/2 c per dozen.

FRUITS, SAUCES, ETC.—Imports from January 1st to April 15th: Dried Apples, bbls 914; Nuts, bags 100; Raisins, bxs 23; 57 other dcs, casks and bbls 546, kegs 2,037, boxes and cs 28, 61, pgs 281.

The market for Dried Apples is more than usually languid with trifling sales to report at low figures: California Dried Peaches, packed loose in bags or salt plenty and variably held at 1 1/2 c @ 1 3/4 c. Malaga Raisins are in fair supply, while the new sales of raisins are of the Admiral's cargo direct, in 100 lbs to the trade as required, within the range of our quotations; Prunes have been freely sold at auction at low figures; currents are in moderate request at 1 1/2 c; a sale of 17 bales Languecod Almonds, not in perfect condition, sold at 21 c @ 1 1/2 c. Some indications of a use goods have become seen while others are abundant; prices, however, are well supported. Our returns on the arrivals recently have been immense. Our returns have found favor with sales of 250 cases Currants, at \$5.0; 175 do A Field's 55; 125 cs Brimly & Reeves, \$5.25. A round invoice of 400 cases Kemp's assorted Fruits, etc, sold entire, on terms reserved; 100 cs tomatoes, private. At auction, 50 cases each dozen Dayton's Currants, 12 1/2 c; 20 do Fair Haven, 8 1/2 c; 47 lbs split Peas, 7 c; 2 1/2 lb 60 lb bbs urils Boston Dried Apples, sold at 1 c; 13 cs Prunes, 9 c; 18 bxs Layer Raisins, at 18, \$2.35; 50 bxs do do, \$3.25; 60 lb bxs do do, \$1.75; 2 qr bxs do do, 1 1/2 c.

FISH—Imports from January 1st to April 15th: Cod, drums 573, bxs 106; Mackerel, bbls 408, kits 8,083; Tongue and Sounds, kits 108; Salmon, bbls 3.9.

Late imports of Eastern Coal via the Horn do not turn out in April, with the same success as at lower rates, say 60 drums Hike and 100 lbs of jobbing Hike, at 8 c. Mackerel are in fair request with sales of 350 kits No 1, \$1.75; 60 lbs do, \$1.50; 150 do do, \$1.70 @ 1.0.

FUNGUS—We note a sale of 120 bales from the Islands for export to China at 15 c @ 1 lb.

GUNPOWDER—Imports from January 1st to April 15th: kegs 23,790, cs 1348. Imports are excessive, while the demand for regular trade wants is moderate. The bark E T L, from Valparaiso, added 716 kegs Blasting to our stock, and we are yet to receive other large parcels from same port, to say nothing of supplies now en route to this port from Boston and New York. Our exports embrace 70 shipments to the extent of 300 kegs Blasting, and to be for mining purposes in Mexico and the Colorado mining districts. We quote nominal price of leading brands at \$6 per keg in jobbing lots; round parcels can be purchased at lower figures.

Table listing various goods and their prices, including German Erasive, English White, Spices, and Mustard.

Table listing Starch and other goods, including Starch, Pearl, and Duryea's.

Table listing Spirits and Brandy, including Brandy Cognac and various types of spirits.

Table listing various goods and their prices, including Japan, 1st quality, and Do 2d quality.

Table listing various goods and their prices, including Tobacco, Duty, and Manufactured.

MEATS—The general markets are very quiet and day prices are firm. Pig iron is for the most part quoted at 11.00. We note sales of 4,000 lbs. dressed pig iron at Malabar at 11.00, 2.00 odd. It is noted that the market is being trading very richly on iron and all the stock is quite available at 11.00.

MOLASSES AND SUGAR—Imports from January 1st to April 15th. In the former, 800 bags of molasses at auction, 100 bags of sugar at 11.00. The latter at auction, 100 bags of sugar at 11.00. The former at auction, 100 bags of sugar at 11.00. The latter at auction, 100 bags of sugar at 11.00.

MATCHES—Imports from January 1st to April 15th. At auction, 200 gross of matches at 21.00.

NAVY STORES—Imports from January 1st to April 15th. We have no sales to report. Hanks & Lambert have imported a second shipment of the Victoria Kailan from the steamer, say the bulk of 600 lbs. quotable at 11.00.

OLIVE OIL—Imports from January 1st to April 15th. At auction, 200 gross of olive oil at 21.00.

WHEAT—Imports from January 1st to April 15th. At auction, 200 gross of wheat at 21.00.

COFFEE—Imports from January 1st to April 15th. At auction, 200 gross of coffee at 21.00.

TEA—Imports from January 1st to April 15th. At auction, 200 gross of tea at 21.00.

SPICES—Imports from January 1st to April 15th. At auction, 200 gross of spices at 21.00.

FRUITS—Imports from January 1st to April 15th. At auction, 200 gross of fruits at 21.00.

VEGETABLES—Imports from January 1st to April 15th. At auction, 200 gross of vegetables at 21.00.

GRAIN—Imports from January 1st to April 15th. At auction, 200 gross of grain at 21.00.

TEXTILES—Imports from January 1st to April 15th. At auction, 200 gross of textiles at 21.00.

IRON AND STEEL—Imports from January 1st to April 15th. At auction, 200 gross of iron and steel at 21.00.

WOOD—Imports from January 1st to April 15th. At auction, 200 gross of wood at 21.00.

SOAP—Imports from January 1st to April 15th. At auction, 200 gross of soap at 21.00.

PAPER—Imports from January 1st to April 15th. At auction, 200 gross of paper at 21.00.

GLASS—Imports from January 1st to April 15th. At auction, 200 gross of glass at 21.00.

OTHER—Imports from January 1st to April 15th. At auction, 200 gross of other goods at 21.00.

SUGAR—Imports from January 1st to April 15th. At auction, 200 gross of sugar at 21.00.

MOLASSES—Imports from January 1st to April 15th. At auction, 200 gross of molasses at 21.00.

MATCHES—Imports from January 1st to April 15th. At auction, 200 gross of matches at 21.00.

NAVY STORES—Imports from January 1st to April 15th. At auction, 200 gross of navy stores at 21.00.

OLIVE OIL—Imports from January 1st to April 15th. At auction, 200 gross of olive oil at 21.00.

WHEAT—Imports from January 1st to April 15th. At auction, 200 gross of wheat at 21.00.

COFFEE—Imports from January 1st to April 15th. At auction, 200 gross of coffee at 21.00.

TEA—Imports from January 1st to April 15th. At auction, 200 gross of tea at 21.00.

SPICES—Imports from January 1st to April 15th. At auction, 200 gross of spices at 21.00.

FRUITS—Imports from January 1st to April 15th. At auction, 200 gross of fruits at 21.00.

VEGETABLES—Imports from January 1st to April 15th. At auction, 200 gross of vegetables at 21.00.

GRAIN—Imports from January 1st to April 15th. At auction, 200 gross of grain at 21.00.

TEXTILES—Imports from January 1st to April 15th. At auction, 200 gross of textiles at 21.00.

IRON AND STEEL—Imports from January 1st to April 15th. At auction, 200 gross of iron and steel at 21.00.

WOOD—Imports from January 1st to April 15th. At auction, 200 gross of wood at 21.00.

SOAP—Imports from January 1st to April 15th. At auction, 200 gross of soap at 21.00.

PAPER—Imports from January 1st to April 15th. At auction, 200 gross of paper at 21.00.

GLASS—Imports from January 1st to April 15th. At auction, 200 gross of glass at 21.00.

OTHER—Imports from January 1st to April 15th. At auction, 200 gross of other goods at 21.00.

We note a single sale of 2 pipes California White from L. S. Nichols at 7c per gallon. At auction, 200 lbs. dressed each Ma genas, 1 do do Charet 22.32; 75 do do Chin Hat Brand 22.02; 41 do do Heo's do 22.75; 2 do do Laifto do 22.00; 2 do do all cash, 1 cask Port 75c.

WOODEN WARE—La e receipts from Eastern supply points are very free. We note sales of 200 doz 3-ho p Painted Pails, 22.37. Auction 300 doz 3-hoop California Cedar, 23.5.

YEAST POWDER—Imports from January 1st to April 15th. At auction, 200 gross of yeast powder at 21.00.

WHEAT—Imports from January 1st to April 15th. At auction, 200 gross of wheat at 21.00.

COFFEE—Imports from January 1st to April 15th. At auction, 200 gross of coffee at 21.00.

TEA—Imports from January 1st to April 15th. At auction, 200 gross of tea at 21.00.

SPICES—Imports from January 1st to April 15th. At auction, 200 gross of spices at 21.00.

FRUITS—Imports from January 1st to April 15th. At auction, 200 gross of fruits at 21.00.

VEGETABLES—Imports from January 1st to April 15th. At auction, 200 gross of vegetables at 21.00.

GRAIN—Imports from January 1st to April 15th. At auction, 200 gross of grain at 21.00.

TEXTILES—Imports from January 1st to April 15th. At auction, 200 gross of textiles at 21.00.

IRON AND STEEL—Imports from January 1st to April 15th. At auction, 200 gross of iron and steel at 21.00.

WOOD—Imports from January 1st to April 15th. At auction, 200 gross of wood at 21.00.

SOAP—Imports from January 1st to April 15th. At auction, 200 gross of soap at 21.00.

PAPER—Imports from January 1st to April 15th. At auction, 200 gross of paper at 21.00.

GLASS—Imports from January 1st to April 15th. At auction, 200 gross of glass at 21.00.

OTHER—Imports from January 1st to April 15th. At auction, 200 gross of other goods at 21.00.

WHEAT—Imports from January 1st to April 15th. At auction, 200 gross of wheat at 21.00.

COFFEE—Imports from January 1st to April 15th. At auction, 200 gross of coffee at 21.00.

Freights and Charters.

Tonnage is about net. We note the following engagements: The ship Enterprise, proceeding first to the Abernethy Mills to load Lumber, on private terms. The ship Maravia, to load timber to the Clibchas for Cork and market, at 24. The ship Hellespont has two charters—one for the Clibchas to load Guano for Cork and orders, at 24—but first proceeding to Puget Sound for a cargo of Lumber, for Calao, for which latter she gets 23.164. The ships Homet and Haze have both been chartered to New York, on terms reserved. The Oliver Cromwell goes to Puget Sound for Lumber, thence to Shanghai—on terms withheld. The British bark Oug-Ou has a home charter for Lumber from the Abernethy Mills. The bark Asteure returns to Sydney with a cargo of Broadstark. The French ship Regina Corli and bark Arimat Rosa Andre have both been chartered to load Lumber for Valparaiso—the latter goes direct, the former goes via Puget Sound.

The disouca are as follows: Sipa Vapur 100, Virginia, E. Buckley, Ladagos, Agamounen, James B. Keefer, Black Hawk, Daubou, Resoitte, S. Uba 100, and 100 tons 80; Barks Charles B. Trinit, Samuander, Catalina, Baitoral, E. T. L., Pallas and Catharina.

DOMESTIC PRODUCE.

Arrivals of Flour and Grain from the interior have been more than usually light for some time past, which is owing mainly to the fears of the farmers that the protracted drought of the winter and early spring has hopelessly injured the growing wheat crop so that the ultimate yield will be much short of the usual average. Whether this be true or not, it is believed that we shall have a useful supply for all will admit that the crop is still a large surplus of the old crop remaining in hand, and that with but half a crop this present season, prices must continue within the reach of exporters, or we shall enter 1853 with a surplus that may carry them down to an unprofitable figure.

Present advices from the interior are conflicting as to the quantity of rain fallen this season as well as to the present condition and prospects of the growing crop. A well informed farmer and merchant, resident across the Bay, says that according to his rain gauge we have had over 12 inches of rain this season, while other weather wise sages say we have not had the half of it, and the reports of the grower are equally varied. Still we are inclined to believe that the crop on the Pacific Coast, taken as a whole will be equal to our own and will leave a surplus for export. Late advices from Australia represent the crop there as a fairly heavy one, and in consequence prices had risen materially, not a trifle, however, as the fear of a drought had enhanced prices with us. To show that such is the case, we have only to say that not one order in six received by the Black Hawk direct from Australia can be executed in this market, limits being far below our present prices. Besides, this news has long since been anticipated by telegrams from England via New York, to leading merchants here, and cargoes have already been quietly purchased and despatched from this market, on better terms than now rule. In this connection it may be remarked that Chile can supply all Australia in the case of Flour and Wheat cheaper and quicker than we can, so that in reality we cannot hope for much relief from the Australian markets. A few cargoes have been, and others no doubt will be, despatched while no limits were fixed, the profit notwithstanding of the recent rise in this kind of plenty.

At this writing, purchases of Flour and Wheat are being made for the China market, as well as for other ports in the Pacific, but the entire aggregate of purchases made or contemplated is very insignificant, as compared with the purchases made for England, and which would admit of orders being executed or ventures attempted. Deprive us of England as a customer for our Wheat and Flour for even a twelvemonth, in the present development of our home and other markets, and our farming interests would seriously suffer.

Feed Grains are running low in stock. Barley is, however, in fair supply in the country, and is generally believed to be adequate to our home wants, which, however, are and will be large, quite sufficient, we think, to keep prices up till after harvest without the aid of any export demand. Oats, on the contrary, are well high exhausted and prices rule high and will continue to maintain remunerative rates without any export sales. Hay is in fair supply, but the prospective market is good and prices are likely to be maintained.

Corn is in light supply, nor are we to expect any further

Imports from January 1st to April 15th. At auction, 200 gross of sugar at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of molasses at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of matches at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of navy stores at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of olive oil at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of vegetables at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of grain at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of textiles at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of iron and steel at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of wood at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of soap at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of paper at 21.00.

Imports from January 1st to April 15th. At auction, 200 gross of glass at 21.00.

Imports from Mexican ports this season, their stock as well as our own being exhausted

Wool does not as yet arrive freely. Many of our growers are becoming indifferent sellers at the low prices ruling. It is said that Eastern orders here are limited to about 40c for best grades, payable in currency; 35c for the better kinds of Hurry delivered in New York, which would make the present price here 18c to 20c.

Lard is in large supply, but the bulk of receipts are very inferior. Choice grades are scarce and wanted at full figures.

The products of the Dairy are in fair supply, and prices of California Butter in rolls has now fallen within the range of 23c to 25c according to quality. These rates must soon drive the dairymen to packing down their butter for the fall market, past experience having shown them that the business is profitable when well done. Cheese comes to hand a moderate and meets a good market within the range of 12c to 15c.

Our Meat Packers are still going ahead. The demand for smoked Bacon and Ham is large and prices quite remunerative. California Lard is growing in favor, and best brands seem to have a wide sale over Eastern. Sales recently have been large, over 1000 cases of Wilson & Stevens, packed in 100 lbs tins, having been taken this month by the trade at current rates. Elsewhere we have noticed sales in detail, marking as before that as a general thing our Packers discard the packing of Pork, preferring to put everything they can into the smoke house or into Lard.

Our Exports for the ten days past comprise the following: For the week ending New York, an assorted cargo valued at upward of \$1,200,000, the leading items of which are the following products of California: 777 bales Wool, 9,000 Hides, 16,000 Horns, 10 lbs Glue, 5000 lbs Copper Ore, 26 Hides Skins, and 500 lbs Wax; also 750 bales Japan Rags, 555 lbs silk and legs of Rawwood, 1000 lbs Spirits Turpentine, 25,000 galls Whale and sperm Oil, 100 casks Butters, etc. To Hongkong, per ship Arracan, 1 Koopmanschap's line: 125 lbs and 1900 qrs Skis Flour, 854 bales Quicksilver, 100,000 feet Lumber, and other merchandise, valued at \$613,355, and \$1,532,000 in treasure. The Arracan has, in addition to the above, 69 bales Collins, said to contain de d'Almeida, and valued on the ship's manifest at 1,575, at which sum they are covered by insurance. The Timander, for Petropawlowsk by Wm Barclay, and the Angenette, for Nicolai-Hill, by Charles W Brooks & Co; both having sealed manifests of cargo at the custom-house. Part is engaged in trade with these Russian Possessions appear to be very mysterious in all their operations, evidently afraid of competition with our merchants. The aggregate value of these two cargoes may be estimated at about \$1,000,000, consisting of barrels of liquor, etc.

The ship carrier Dove has sailed to Callao with 63,000 feet of lumber to ballast valued at 1,040. The Lord, for La Paz had an assorted cargo valued at \$78,843, and the Kate Adams, for same port merchandise valued at \$41,257. The bark Espance for Tahiti despatched by C W Lewis & Co has an assorted cargo of general merchandise valued at \$42,000; and the Mary for same port via Honolulu, carried a small cargo and was despatched by the same brokers. The steamer S. R. her Jonathan and Sierra Nevada, for Portland and Vail, have sailed with large cargoes of general merchandise and oil complement of passengers. The portion of cargo destined for Victoria by the former was valued at upwards of 1,100,000; by the latter at \$1,100,000 while each carried a much larger quantity of general merchandise to Oregon, of which we have no detail.

Besides the Oregon, the Colburn Surita, for Victoria, 4300 casks Rice, 600 qrs Flour, 650 casks Barley, etc, valued at 425,550; the schr North Star, for same port, had a general cargo valued at 87,000.

Charles W Brooks & Co have despatched the Smyrna for Honolulu with 85 qrs Flour and other merchandise valued at 1,010,000, besides 240 in treasure.

The steamer Golden Key, for Panama, carried 271 hds chests Tea, 121 hds Wool, 23 bales Whitebone, 22 bales and 2 casks Skins and 6 casks Furs, valued at \$89,555.

In addition to the foregoing, we learn of a great shipment of about 3000 kegs Blasting Powder, said to be for mining purposes in Arizona. The market is abundantly supplied with oranges from Tahiti since last 20 per M.

The arrivals of fruit from Oregon are about an end for the season, the last arrivals of Apples sold quick at \$5 50 a 75 lb box, weight 50 lbs each; S rawberries are selling freely, and prices down to 3c per lb; Raspberries are yet scarce, a high quality 75c per lb. Fruit prospects are generally good, but the season approaching, and it is supposed that our growers will be compelled to dry and export their surplus Apples, Peaches, Pears, Apricots, etc. The chances will probably be very managed.

The sales for the week ending July 1st are as follows: FLOUR—5000 qrs sold at 12c per bushel, for export; 8000 qrs sold at 11c per bushel; 2000 qrs sold at 10c per bushel; 1000 qrs sold at 9c per bushel; 500 qrs sold at 8c per bushel; 200 qrs sold at 7c per bushel; 100 qrs sold at 6c per bushel; 50 qrs sold at 5c per bushel; 25 qrs sold at 4c per bushel; 10 qrs sold at 3c per bushel; 5 qrs sold at 2c per bushel. WHEAT—Best Fry will continue and 13c per bushel.

WOOL—Although there has been more decline than before the sailing of the last steamer, there is no special activity to note in the market. The violent fluctuations of gold and the extreme dullness of the Eastern markets deter the larger operators from venturing anything more than experimental purchases, and the mills here have moderate stocks on hand and are not strongly in the market. The bulk of the transactions for the past week have been at prices ranging from 15c to 21c the best clips bringing from 20c to 22c, at which rates the market prices appear to be fairly established. These prices are equal to about 40c to 2c in currency laid down in the Eastern markets and afford shippers a very narrow margin. The receipts since our last report aggregate 846 bales against 140 bales for the same period last year. The shipments have been per Golden City 121 bales per Twilight 72 bales. The principal transactions of the past week took up about 130,000 lbs within the above range.

FINANCIAL.

The demand for loans for commercial purposes has sensibly diminished, and the amount of capital accessible to borrowers in good credit is ample. First class mercantile paper is current in bank at 1 1/2 to 2 per cent per month. Negotiations upon the street are still quotable at 2 1/2 per cent per month, with a very full offering but no special urgency.

Receipts of Treasure from the interior and North Coast since our report of 11th instant amount to \$1,700,000 of which \$270,000 were in coin and \$500,000 were available on last steamer day. The Branch Mint has taken during the same period about 425,000. The amount of bullion in the market is probably less than in \$800,000. No sales of importance have been reported as yet but there are indications of a fair demand to-morrow, and holders expect to get 83c to 84c for Gold and 1 1/2 per cent premium @ 3 per cent discount for silver. Reduced silver Bars are worth 3 1/2 per cent premium.

The sudden and heavy decline in Gold at the East since our last report, has unsettled the rates of Exchange for Currency Bills. Prominent firms are offering to-day at 55 @ 6 per cent premium on Gold but the price for to-morrow is not fixed. For London bills the rate will be 4 1/2 to 5 per cent premium; for Telegraphic transfers 6 1/2 @ 7 per cent premium. Bank of State Ring at 10 days sight 1 1/2 @ 1 1/2 @ 48 @ 53, and 45 d. Commercial Telegraph 1 1/2 @ 1 1/2 @ 48 @ 53, and 45 d. Little office Eng. Francs 4 1/2 @ 5.00.

Legal tenders will in a few days past rallied to 62 @ 3, but have again fallen off, and are to-day heavy at 61 @ 62—some dealers refuse to give more than 60. The offering at 61 is free, and the demand light.

The market is bare of Mexican Dollars at the present moment; last sales reported at 12 @ 12 per cent premium.

The exports of Treasure from ist instant to date were as follows:

Table with columns for date, destination, and amount. Includes entries for April 2nd (Per Golden Age) and April 5th (Per Gaucha, to Manila).

Table showing Total since January 1, 1864, and Corresponding period, 1853, with values in dollars and cents.

Excess this year... \$5,622,700 00

STATE TREASURY.—The following is a statement of the balances in the State Treasury at the close of business April 13th 1864.

Table listing various funds and their balances, including General Fund, School Fund, Hospital Fund, Library Fund, etc.

Total... 3,714 77

DOMESTIC PRODUCE

The following is a statement of the receipts of Domestic Produce in this market for the week ending July 1st and the total for the past 3 years from July 1st to the corresponding date each year.

Table showing articles of domestic produce (Wheat, Barley, Oats, Corn, etc.) and their receipts for the week ending July 1st, 1864, and for the corresponding period of 1863 and 1862.

Arrived. April 12—Ship Ladoga, Willey, 134 days from New York; misde to Diblee & Hyde. Br ship Agamemnon, George, 156 days from Liverpool; misde to Duffy, Foulkes & Co. Br bark Baltimore, Campbell, 178 days from Glasgow; misde to Forbes Bros & Co. Bark Ann Parry, Arley, 16 days from Puget Sound; lumber to Geo Chase. Br bark Colton, Williams, 4 days from Coosue Bay; lumber to S Perkins.

April 13—Schr Mary Cleveland, Leeds, 43 days from Band era Bay; rose wood to order. Schr Alfred Adams, Hannah, 48 hrs from Russian River; lumber to H B Tichenor & Co. April 14—Schr Salinas, Sudden, 12 hrs from Salinas River, via Santa Cruz; lumber to Brennan & Co. Ship Jas R Keeler, Delmo, 162 days from New York; misde to Chas W Brooks & Co. Bark De An, Greenleaf, 18 days from Teckalet; lumber to Pope & Talbot. Wh brig Susan Abigail, Redfield, 28 days from Ballenas Bay; oil to Shad & Wright. Schr Harriet Rowe, Souther, 40 days from Tahiti; oranges to Master.

April 15—Brk Francisco, Dresser, 3 days from Humboldt; lumber to J Kenfield. Schr S L Bailey, Farley, 4 days from Santa Cruz; lime to Salt Adams. Schr Annie Piper, Garcia, 15 hrs from Russian River; lumber to H B Tichenor & Co. Schr Arizona, Nelson, 8 hrs from Wallhalla River; lumber to Hayward & Harmon. April 16—Ship Black Hawk, Donne, 66 days from Newcastle, N S W; coal to Geo Howes & Co. Brk Curlew, Newbur, 55 days from Manila; misde to Stevens, Baker & Co. Schr J R Whiting, Rutherford, 2 days from Coosue Bay; coal to S Perkins.

Schr Emma Hayne Nelson, 48 hrs from New Year's Point; hides, etc to Elder & Son. Schr Cygnat, Ferguson, 8 hrs from Russian River; produce to Curtis & Allen. April 17—Schr Orizaba, Farnsworth, 15 days 19 hrs from Panama; pass and freight to A B Forbes. Bark Samuel Merritt, Williams, 4 days from Columbia River; lumber to Richards & McCracken. Bark W A Banks, Newell, 7 days from Seabeck; lumber to Adams, Blinn & Co. Bark Ahnaha, Richardson, 32 days from Columbia River; lumber to Richards & McCracken. Brk W W Lucas, Anderson, 10 days from Seabeck; lumber to C L Taylor & Co. Brk Hugh Barclay, Robbins, 12 days from Port Discovery; lumber to S M Sturck & Co. Schr Noyo, Allen, 2 days from Humboldt; lumber to order.

April 18—Schr Panama, Johnston, 3 days from Victoria; pass to B Holladay. Schr Seabor, Butters, 2 days from San Pedro; pass and misde to S J Housley. Bark Julia Cobb, Stables, 11 days from Port Ludlow; lumber to Ames, L Hibney & Co. Bark Leonard, Curllon, 11 days from Teckalet; lumber to Pope & Talbot. Chalk bark E T L Schroder, 54 days from Valparaiso; coal and gunpowder to Ayson & Co.

April 19—Schr America, Morton, 15 days 14 hrs from Panama; pass and freight to I R Roberts. Schr Salinas, Sudden, 13 hrs from Salinas, via Santa Cruz; produce to Brennan & Co. Ship Danube, Whidden, 189 days from Boston; misde to Chas W Brooks & Co. Schr Fayaway, Josselyn, 3 days from Monterey; oil to E Higgins.

April 20—Brem bark Pallas, Hartmann, 81 days from Hongkong; misde to Almonroy & Co. Bark Leonard, Johnson, 19 days from Teckalet; lumber to Pope & Talbot. Bark W H Gawley, Boyd, 9 days from Port Madison; lumber to G A Meigs.

April 21—Ship Resolute, Prince, 181 days from Baltimore, via Tahiti; misde to A B Forbes. Ship S Charles, Higgins, 141 days from New York; misde to Dewitt, Kittle & Co. Ship Ganung Star, Small, 172 days from Boston; misde to Flint, Peabody & Co. Bark Catharina, Fokkes, 59 days from Hongkong; misde to Koopmanschap & Co. Bark Adeline Connor, Bean, 10 days from Port Ludlow; lumber to Ames, Hibney & Co. Bark Naramisli, Willoughby, 10 days from Port Madison; lumber to G A Meigs. Wh schr Camo E Foote, Davenport, 20 days from San Quentin; oil to E Higgins.

Cleared.

April 12—Schr Br Jonathan, DeWolf, Victoria and Portland; coal steam Nav Co. Ship Success, Chase, Callao. Geo Howes & Co. Ship Lookout, Nugent, Honolulu; Diblee & Hyde. Bark Smyndley, Burditt, Honolulu; C W Brooks & Co. April 13—Schr Golden City, Pearson, Panama; A B Forbes. April 14—Schr R Robinson, Long, Callao; A B Forbes. Col bark Lopez, Guerrero, La Paz; W Schiedten.

April 15—Ship Carrier Dove, Jackson, Callao; W T Coleman & Co. Brk Josephine, Starnard, San Bruno and Colorado River; R E Hammond. Brk Angenette, Trask, Nicolaeffsky; C W Brooks & Co. Brk 16—Humbship Arracan, Kulkken, Hongkong; Koopmanschap & Co. Brk 17—Cinea Lassen, Port Angel; S Master. Brk Thimandra, Turner, Petropawlowsk; Wm Barling. April 18—Tah bark Esperance, 1 others; Tahiti; C A Low & Co.

April 19—Ship Twilight, Holmes, New York; Moore & Co. Ship Star of the Union, Reed, Callao; Wm T Coleman & Co. Col schr Mary, English, Honolulu; C W Brooks & Co. April 20—Schr Sierra Nevada, Connor, Victoria and Portland; B Holladay. Ship Swallow, Small, Callao; Meador, Lohr & Co. Bark H W Ahny, Freeman, Portland; Richards & McCracken.

April 21—Br ship Lockett, Topham, Sydney; Falkner & Co. Bark & Co.

Review of the Market. FOR THE ELEVEN DAYS ENDING JUNE 21st, 1864.

Trade from first hands has been extremely limited during the period under review. The jobbing houses have been more active; but business generally is very quiet in all its departments. Foreign merchants to particular complain much of the prevailing languor, which, coupled with impediments at Custom-house, has well nigh imposed a complete quiet upon transactions in some descriptions of imported merchandise. Our exports during the past ten days have been unusually light.

In glancing at trade movements we observe that the market continues to wear a heavy aspect as regards most articles and prices droop. Bags and Bagging are lower, and yet command little attention. Candles sell fairly at old rates. The same may be said of Cordage. Coal is entirely without animation. Coffee is very dull and weak under the pressure of an immense stock.

The Dry Goods trade is quiet; Drugs also; no transactions of importance in either. Fruits, Sauces, etc., are all tending downwards; quotations quite nominal. Fish, likewise, a e lower, and in little favor.

Gunny Bags are depressed, in view of large supplies on the way. The cargo of the Brothers Houtman, on the way from Calcutta, to Koopmanschap & Co., consists in the main of 25,000 Cheken Gunnies 300 tons Rice, Linseed, etc. The cargo of the French ship Colbers, on the way from the same port, to Rodgers, Meyer & Co, consists of 1700 pockets Rice, 3750 do Saltpetre, 190,000 Gunny Bags, and 200 cases Castor Oil.

In Metals nothing of interest is reported. Pig Iron is weak. Nails are neglected. Blasting Powder is still quotable at our figures, and has undergone no change. Matches are scarce. Molasses have advanced. Syrups are selling at reduced rates, under the influence of large public offerings. Oils are all dull, and the market without strength. But little has been done in Meat Provisions. Butter and Lard are less firm—in fact lower.

Rice continues in fair request at full figures. Sugars, both Raw and Refined, are feeble, and may be had on easier terms. Spices are in demand, and our quotations have been advanced—spirits of all descriptions are dull, and the market quite unsatisfactory.

Teas at the moment are receiving very little notice. Tobaccos are lower, with large sales at auction.

No transactions of any moment are reported in Wines.

The arrivals have been the Mattapan, with assorted cargo from New York; J. L. Dinmook with Rice, etc.; from Hongkong; Dashing Wave, with Coal, from Sydney, Lizzie, with Tea, from Foochow; Comet, A. A. Eldridge and Erminia, with Sugar, etc., from Honolulu; I. B. Luat, with Sugar, from Malao; Antonia Ramos, with Fruit and Rice, from Valparaiso; Nahelmoif, with Ice, from Kodiak; Carl, with Fruit and Wine, from Malaga; Herzog Ernst, with Coffee and Rice, from Manila.

BAGS AND BAGGING—Our market is still greatly depressed for all kinds of English fabrics, which have for the most part taken the place—in fact driven from use other materials. Supplies are ample; by many supposed to be excessive in view of the prospective light export of Grail. All transactions, if any, are scrupulously withheld by dealers, and we are therefore unable to report sales, or to say what are obtainable figures, in the present state of affairs.

BUILDING MATERIALS—Imports from January 1st to June 15th: Doors, no 25,045; Blinds, bbls 960; Sash, bbls 2131; Eastern and Foreign Lumber, bbls and pcs 25,014, tons 129, feet 136,245; Domestic do, ft 48,033,998. The receipts of domestic lumber for the current month have been heavy—prices in consequence have declined fully \$2 per M feet, on all cargo parcels. We now quote Redwood Boards, rough, \$18; dressed, \$20 per M.

BLACKING—At auction, 50 gross Mason's Shoe, at \$5 50; 25 gross Dixon's stove Polish, \$3 per g oss.

CANDLES—Imports from January 1st to June 15th: bxs, 1382; ht bxs 63,472.

The regular trade demand has been fair; prices unchanged. The sales, so far as reported, are as follows: 15 0 bxs Emery's, private—those in order quotable at 16 50; 500 bxs Grant's, 17 50; 30 days; 100 bxs Knapp's Anchor, 18 50; 500 bxs Knapp's Plain, 18; 600 bxs Heint & Wood's, 18c. At auction, 233 bxs Seccomb's, as is, at 14 50c.

COAL—Imports from January 1st to June 15th: Anthracite, tons.....21,615; Sydney—tons.....2650 Cumberland, cks.....3732 Vancouver L.—tons.....4336 tons.....847 Coast—tons.....64 50 English, tons.....31655 Chlll, tons.....2324

We have not a sale of any description to report. Many operations of magnitude appear to be in abeyance, waiting telegraphic advices from the East, in reply to queries sent over to New York and Boston ten days ago for instructions. Now that the wires are again in working order, we hope soon to be able to note increased activity; though prices at best are very low, and buyers not anxious to increase their present stock.

CORDAGE—Imports from January 1st to June 15th: bales, 464; coils 6678; pks 705.

The agents of our local factory continue to make free Jobbing sales at about 14 50c. Of Eastern laid Manila we have only to report a sale of 16,000 lb Hay Rope at 14 50c. 100 bales Hemp Twine 5-ply sold at 41c. Cotton Wrapping Twine has been sold recently from \$1 up to \$1 25. We quote Holt Rope at 20c per lb. At auction, 4 pks Hemp Sewing Twine, as is, sold at .10c per lb, 3, 4 and 5-ply.

Table listing various goods and their prices, including German Erasive, English White, Spices, and Assorted Invoices.

Table listing Starch products such as DUTY 20 PER CENT AND 20c per lb, Glenfield Patent, Kingsford's, Colgate's, etc.

Table listing various oils and fats, including Do do B, Do Refined Leaf, Do Yellow, etc.

Table listing various oils and fats, including Do do B, Do Refined Leaf, Do Yellow, etc.

Table listing various oils and fats, including Do do B, Do Refined Leaf, Do Yellow, etc.

Table listing various oils and fats, including Do do B, Do Refined Leaf, Do Yellow, etc.

Table listing various oils and fats, including Do do B, Do Refined Leaf, Do Yellow, etc.

Table listing Coffee imports from January 1st to June 15th, including Rio, lbs., Costa Rica, lbs., Java, lbs., etc.

Table listing Cement and Plaster imports from January 1st to June 15th, including At auction, 80,000 imitation "La Ritica," etc.

Table listing Dry Goods imports from January 1st to June 15th, including Stocks are large and excessive; by some estimated at 5,000,000—others place the figure still higher.

Table listing Drugs imports from January 1st to June 15th, including Present supplies of assorted Case Goods are sold to be very large.

Table listing Fruits, Sauces, etc. imports from January 1st to June 15th, including Present supplies of all kinds of Fruit, Wines and Nuts, thus adding the bulk of 3500 boxes Raisins to our previously heavy stock.

Table listing Fish imports from January 1st to June 15th, including The supply of Mackerel is in excess with but few sales to record.

Table listing Gunny Bags imports from January 1st to June 15th, including We have no sales to report. There are now at least two vessels en route to this port from Alcutta direct.

Table listing Hops imports from January 1st to June 15th, including The supply of Eastern is light and sales confined to retail parcels within the range of 500 to 300 lbs.

Table listing Hardware imports from January 1st to June 15th, including We have no sales to report. There are now at least two vessels en route to this port from Alcutta direct.

Table listing Gunpowder imports from January 1st to June 15th, including We have no sales to report. There are now at least two vessels en route to this port from Alcutta direct.

Table listing Matches imports from January 1st to June 15th, including We have no sales to report. There are now at least two vessels en route to this port from Alcutta direct.

Table listing Molasses and Syrup imports from January 1st to June 15th, including We have no sales to report. There are now at least two vessels en route to this port from Alcutta direct.

Table listing various other goods and their prices, including We have no sales to report. There are now at least two vessels en route to this port from Alcutta direct.

Fretz & Ralston, associating with themselves a number of well known capitalists, have become incorporated under the laws of the State as "THE BANK OF CALIFORNIA," with a paid up capital of \$2,000,000.

We regard the formation of this joint stock company for general banking purposes as a very important movement, and the probable beginning of a new order of things in fiscal matters on this coast. We have incorporated institutions for savings and accumulation, which have done and are still doing very important service in the concentration and utilization of the surplus capital of individuals which would otherwise be unemployed and of no public benefit if not wasted. And these savings institutions have obtained such modifications of the statute law, as enable them to carry on a general banking business if so disposed. The Pacific Accumulation Loan Company, incorporated under the Savings Bank law, has availed itself of this privilege. But the sphere of these most useful and excellent organizations is more appropriately with our thrifty and industrious laboring classes who by earnings they receive and invest with great advantage, both to the public and their own constituency. "The Bank of California, however, is of a totally different character. Organized for general banking purposes from the outset, its capital contributed by men of wealth, its business relations enlarged and comprehensive, and its adaptability to commercial requirements fully equal to that of first class Banking Institutions in any part of the world. We are thus special in our notice of it because it is a new thing—not indeed new elsewhere, but new here; it introduces a new feature into our financial affairs, and if successful, or in other words, profitable, is but the type of others, which will follow in due course.

Banking in California has hitherto been carried on exclusively by private firms. Until recently our laws have been supposed to be unfavorable to incorporations for that purpose; but now all doubt on this subject has been removed, and we may therefore expect this branch of business to be influenced more largely by the experience and usage of older commercial countries, where private banking is gradually, but surely giving place to joint stock corporations.

In the March number of Blackwood's Magazine we find an able article on "the Economy of Capital," which treats particularly upon this point. Says the writer:

In no other country in the world does the economy of capital approach to the comparative perfection which has been attained in the British Isles. But there are improvements yet to be made, and in London itself a change is at work which will ere long effect a revolution in our banking system. The day of the private banks is drawing to a close. They are still as sound and as ably managed as ever, but it is easy to see that they are destined to wane before the new rivals that are taking the field. The great private banks will last indeed, for many a day, and will continue to yield large profits—but no new private banks will be started.

The writer alludes to the advantages of the private banking system, in having a narrower and more select range of business, and consequently a better knowledge of customers, and more promptness and privacy in meeting their wants, as well as generally greater efficiency in management; but adds:

Nevertheless it is found that as a rule, the joint stock system of banking is more popular and profitable; and this in the end will decide the question between the rival systems.

Although the management might be less energetic, it was found that the large sums of money at the disposal of joint stock companies, compared with those at the command of private bankers gave them an advantage which under even but a moderately good management, enabled them to realize better profits than could be attained by the most judicious handling of lesser sums. The writer also dwells upon the large amount of subscribed capital which joint stock banks offer as security to the public, the general publicity of their affairs, the wider sphere of their operations, and the higher profits generally paid by them, and the personal influence of their numerous shareholders, accounting to render them more attractive and popular than private banks.

But the feature in this joint stock system of great interest to the public is "the economy of capital," or, in other words, the concentration and bringing into use of capital which, lying idle in the hands of individuals who have no immediate use for it, is of no avail to any one.

It is only that portion of a nation's capital which exists in an available form that adds to the power and resources of a State. 2,000,000 sterling lying in the strong boxes of half a million tradesmen and farmers, is so much money lost to the national industry; but the same sum concentrated and lent out in the form of discounts and other commercial advances, would give additional employment to the working classes, increased wealth to the trading community, and greater power to the State.

There is a large amount of capital in this city—the unemployed accumulations of the past few years, which could be reached and utilized, would, by judicious management, give an impulse to many a worthy enterprise that now languishes. It is the province of joint stock organizations for banking purposes to bring out this latent capital and send it forth on its mission of usefulness. We expect to see the number increased, and if in proper hands, great good will result to every material interest of the State; but in the hands of speculative and unscrupulous men, they may be made instruments of incalculable mischief.

The Trustees of the Bank of California have issued a circular, which will be found in another column; and from

this we learn that their Capital Stock is to be \$2,000,000, paid up in gold coin—that the regulations of the Bank are such as to insure privacy and promptness in the transaction of business with its customers—that such restrictions are placed upon the sale or transfer of its shares as to prevent the admission of undesirable associates, and that loans upon its Capital Stock are prohibited. So far as we can judge, the institution presents itself to the public in good shape and is generally looked upon with decided favor.

Capital continues to flow in from abroad for investment in our mining and other stocks. The amount thus added to our available means during the past month, has been large, and the public are little aware of its magnitude. Under the influence of Eastern orders the Share market has exhibited decided reaction, and an apparently healthy improvement has been established. Rumors of the transfer of capital to this city from Eastern and foreign markets, for banking purposes, continue rife; little doubt is entertained of large accessions during the present year, and a decline in the rates of interest is generally anticipated.

The demand for loans continues fair, but money is abundant and no appearance of pressure exists. The prevailing rate in Bank for prime paper is 1 1/2 per cent per month. In the open market, good but less desirable securities are taken at 2 1/4 per cent per month.

The receipts of Treasure from the Interior and mining districts, since our report of 10th instant, have been \$1,670,000, of which the Branch Mint has taken over \$700,000. There is apparently a fair supply of Bullion in the market, and some inquiry is noted. Gold is quotable to-day at 810 @820, Silver at par to 3 per cent discount.

We learn with great pleasure that a Bullion fund of \$1,000,000 has been granted to the Branch Mint in this city for the purpose of enabling it to make prompt and speedy returns upon deposits of Gold and Silver. The Superintendent, Mr. Swain, has urged the importance of this matter upon the consideration of Government with great earnestness ever since his induction to office, and was yesterday advised by letter from Washington of the success of his efforts. He will probably be able to make payments accordingly in two or three days, which will be a great convenience to our business men, increase the activity of the mint, and relieve the Bullion market to some extent. It is the desire of Government to facilitate and enlarge the coinage of our precious metals, in the view of checking by that means, possibly in some degree, their export to foreign countries.

Exchange on the Atlantic cities will not vary materially from the rates current on last steamer day. Bills payable in currency are now held at 75 @80 per cent premium on Gold. Bills payable in coin at 4 @5 per cent premium. Telegraphic transfers at 67 3/4 cent premium Bankers' Sterling at 81 1/4 @81 1/2. We hear of no Commercial on the market. Fancs are quotable at 5f.

The demand for Legal Tenders is comparatively light, and the market has been dull for some days past. Dealers' rates are 52 @53.

Mexican Dollars are in light supply. Last sales 12 @13 per cent premium.

The exports of Treasure from 1st June to date were as follows:

June 3—Per St. Louis—		
To England.....	\$1,065,364 62	
To New York.....	2,803 77	
To Panama.....	15,000 00	\$1,333,458 39
4—Per Yankoe, to Manila.....		4,000 00
7—Per Antiochia, to Hongkong.....		11,393 50
7—Per Caracas, to Hongkong.....		154,460 00
13—Per Constitution—		
To England.....	\$6,5442 78	
To New York.....	171,817 91

SHIPPING REGISTER.

Arrived.

JUNE 11—Bark Adelaide Cooper, Benn, 13 days fm Port Ludlow; lumber to Amos, Phinney & Co.
Russ bark Nahemoff, Kaszaroff, 22 days fm Kodiak; ice to Am Russ Co Co.
Brig J B Lunt, Miller, 55 days fm Callao; sugar to J C Winans.

JUNE 12—Bark A A Eldridge, Bennett, 14 days fm Honolulu; mds to Chas W Brooks & Co.
Bark Comet, Green, 4 days fm Honolulu; mds to McRuer & Merrill.

JUNE 13—Bark W A Banks, Newell, 14 days fm Seabeck; lumber to Adams, Blinn & Co.
Bark Fremont, Harrington, 13 days fm Seabeck; lumber to Adams, Blinn & Co.

Bark W B Scranton, Burns, 9 days fm Port Ludlow; lumber to Amos, Phinney & Co.
Bark Rival, Blair, 9 days fm Port Discovery; lumber to S L Mastick & Co.

Chili brig Antonia Ramos, Hoy, 51 days fm Valparaiso; mds to V Cramer & Co.

JUNE 14—Ship Mattapan, Robinson, 161 days fm New York; mds to A Hobbs & Hyde.
Bark Julia Cobb, Staples, 13 days fm Port Ludlow; lumber to Amos, Phinney & Co.

Bark Industry, Corne, 4 days fm Columbia River; mds to Richards & McCracken.
Schr Frile of the West, Hurlice, 8 hrs fm Halfmoon Bay; produce to J Vantine & Co.

JUNE 15—Bark Almatia, Richardson, 4 days fm Columbia River; lumber to Richards & McCracken.
Brig Willumantia, Guna, 3 days fm Coose Bay; lumber to S Perkins.

JUNE 16—Br ship John L Dimmock, Sheldon, 46 days fm Hongkong; mds to Koopmanschap & Co.
Bark Gold Hunter, Hunter, 14 days fm Port Madison; lumber to G A Meigs.

Bark Kurtusoff, Swenson, 10 days fm Teekalet; lumber to Pope & Talbot.
Bark Dashing Wave, Vandeword, 92 days fm Sydney; coal to Macondray & Co.

Bark Live Yankee, Diggs, 11 days fm Stellacoomb; lumber to J B Coffin.
Brig T W Lucas, Anderson, 15 days fm Utsalady; lumber to H Wetberbe.

Brig Hugh Barclay, Rollins, 14 days fm Port Discovery; lumber to S L Mastick & Co.

JUNE 17—Bark Ocean, Greenleaf, 17 days fm Teekalet; lumber to Pope & Talbot.
Brig Manilla, Copeland, 24 hrs fm Albion River; lumber to A W Macpherson.

JUNE 18—Stm Salinas, Sudden, 14 hrs fm Salinas, via Santa Cruz; produce to Brennan & Co.
Dan bark Lizzie, Reimer, 48 days fm Foo Chow; tea to Macondray & Co.

Brem bark Herzog Ernst, Peass, 51 days fm Manila; mds to Parrott & Co.
Bark Brontes, Morse, 16 days fm Seabeck; piles to Adams, Blinn & Co.

Brig Kurtusoff, Carl, Schwab, 154 days fm Malaga, via Valparaiso 57 days; fruit to C Meicke.
Schr J B Ford, Knipe, 30 days fm Colorado River; in ballast to N Pierce.

JUNE 19—Schr Wm Irelm, Harloe, 23 days fm San Blas; wood to T L Meyer.
Schr Adrianna, Holbron, 20 hrs fm Santa Cruz; lime to Davis & Jordan.

Schr Fayaway, Josselyn, 2 days fm Monterey; wood to B Higgins.
JUNE 20—Stm Panama, Johnston, 2 days fm Crescent City; pass and freight to B Holladay.

Stm Senator, Butters, 2 days fm San Pedro, via way ports; pass and mds to Cal Steam Nav Co.
Russ schr Bogatyre, Popoff, 4 days fm Victoria.
Bark Monitor, Nelson, 4 days fm Columbia River; piles to order.

Bark Nahunkeag, Blake, 12 days fm Port Blakely; lumber to Renton & Howard.
Brig Martha Worthington, Hurd, 2 days fm Humboldt; lumber to Doberber & Carson.

Brig Geo Emery, Berry, 30 hrs fm Humboldt; lumber to J Kenfield.
Schr Emania, Dennis, 24 days fm Honolulu; salt to T L Meyer.

JUNE 21—Bark Iwanowna, Brown, 14 days fm Nisqually; lumber to Renton & Howard.
Schr Storm Cloud, Sweet, 30 days fm Colorado River; in ballast to Master.

Cleared.

JUNE 11—Ship Gaspee, Andros, Port Angeles; Master.
Dan bark Danmark, Bartlett, Mazatlan; Rodgers, Meyer & Co.

Br bark Panama, Johnson, Victoria; J Dewar.
JUNE 13—Stm Constitution, Watkina, Panama; A B Forbes Ship Gardner Colby, McLellan, Callao; Meader, Lolor & Co.

Bark D M Hall, Blake, Victoria; R F Pickett.
Humb brig Antelope, Lundt, Honolulu; Ziel, Bertheau & Co.

JUNE 14—Stm Oregon, Wakeman, Mazatlan; B Holladay.
Ship Messenger, Hill, Callao; C W Brooks & Co.
Fr ship Ville de Toulouse, Labouille, Albem; C Duisenberg & Co.

Schr H N Riggles, Snow, La Paz; W Schleiden.
JUNE 15—Brem brig Eberhard, Haesloop, Manila; C Duisenberg & Co.
Schr Flying Dart, Howes, San Pedro; N Pierce.

JUNE 16—Schr Union, Hinbarren, Mazatlan; O Hasbach.
JUNE 17—Ship Ratier, Almy, Manila; Flint, Peabody & Co.

Bark Snyrriote, Burditt, Honolulu; C W Brooks & Co.
Bark Sarita, Sutton, Namaimo; Dickson, DeWolf & Co.
Bark Nahemoff, Kaszaroff, St Paul's; Rowland, Walker & Co.

Bark Cesarewitch, Alexandroff, St Paul's; Rowland, Walker & Co.
JUNE 18—Stm John L Stephens, Connor, Victoria and Portland; B Holladay.

Br brig Belvidere, Morris, Hongkong; Macondray & Co.
JUNE 20—Ship Golden Fleeced, Manson, Boston; Meader, Lolor & Co.
Peray schr Vicente, Pezzolo, Port Angeles; N Larco.

Bark H W Almy, Freeman, Portland; Richards & McCracken.
JUNE 21—Bark Comet, Green, Honolulu; McRuer & Merrill.
